Students are expected to enter formally and commence attendance at the College upon the date named.

2. No person shall be enrolled as a matriculated student who has not previously passed the First Arts examination of the Calcutta or an Indian University, or a preliminary Arts examination of the United Kingdom recognized by the British General Medical Council.

3. All matriculated students of the College shall pay Rs. 15 on entrance, Rs. 35 for the summer session on the 1st June, and Rs. 35 for the winter session on 1st November of each year. Rupees 6 extra will be required from each student for each course of dissections. Fees once paid cannot be refunded.

Muhammadan students are required to pay Rs. 15 on entrance and half-fee, *i.e.*, Rs. 17-8 per session. The remaining half-fees are charged to the Mohsin Fund.

4. No free presentations will be awarded at the beginning of the session, but the fees shall be refunded to the ten students who pass highest in all subjects at the end of their first year of study.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following :—

	Rs.
For a single course of lectures on each subject in one year ...	40
For six months' attendance in each department of hospital practice	60

6. Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a medical school in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject on payment, in advance, of fees at the rates fixed in paragraph 5. If he has passed the Entrance Examination of the University, he shall receive certificates of attendance at lectures. If he has not passed the Entrance examination, he shall receive no class certificates.

8. At the end of their first year, students will be required to pass a College test examination in Anatomy, Chemistry, and Botany. Those who gain not less than 20 per cent. in two subjects, and not less than 15 per cent. in a third, will be eligible for promotion to the second-year class. Those who fail to gain the aforesaid percentage of marks will not be eligible for promotion, but will go through the first-year class again.

9. Students of the second-year will be required to pass a College test examination in Anatomy, Physiology, and Materia Medica. Those who pass the examination with 20 per cent. in two subjects and 15 per cent. in a third will be entitled to go up in the following March or April for the Preliminary Scientific Examination of the Calcutta University, the subjects of which are Chemistry and Botany. Those who (after passing the College test) fail at the University Examination will be entitled, equally with those who pass it, to join the third-year class, at the end of which the former will have to present themselves, as at present, for the combined Preliminary Scientific and 1st L.M.S. (or 1st M.B.) Examination.

10. Those students who fail at the College Test Examination of the second year will not be debarred from going up for the Preliminary Scientific Examination, but will be encouraged to do so in order to get that stage over ; but whether they pass or fail at the University Examination, they will be relegated for a further year to the second-year class, provided that those who pass the University Examination will not be required to attend the courses in those subjects in which they have passed.

11. Students of the third year will present themselves for the 1st L.M.S. or 1st M.B. Examination of the Calcutta University. Those who fail at this examination will be relegated for a further year to the third-year class.

12. Students of the first, second, or third-year class who fail a second time, at the same stage, to gain promotion to the next higher class, will be removed from the College, and will not be entitled to readmission.

13. Students of the fourth-year class will be required to pass a College test examination in Surgery, Medicine, Midwifery, and Medical Jurisprudence. Those who pass the examination with 20 per cent. of the marks in three subjects and 15 per cent. in a fourth will be eligible for promotion to the fifth-year class. Those who fail will be relegated to the fourth-year class for a further year. The examination in Surgery and Medicine will be both theoretical and clinical ; but those students who can obtain from the Visiting Surgeon or Physician, to whose wards they have been attached, a certificate that they have really profited by their instruction in either subject, will be excused the clinical examination in that subject.

14. Students who fail at the 2nd L.M.S. or 2nd M.B. Examination will have to attend a further course of lectures in the subject or subjects in which they have failed, in accordance with the regulations of the University.

15. The Principal will determine the maximum number that may be admitted to the first-year class. Students who have failed at the test examination of the first year will have a prior claim to readmission over new students.

16. Students readmitted to a class after failure at the test examination will be required to pay the full fees for the session. Those, however, who, after failing either at the Preliminary Scientific Examination or at the final examination, have to attend a further course of lectures in the subject or subjects in which they failed, shall be required to pay for such lectures a fee of Rs. 40 for one subject, Rs. 60 for two, and Rs. 70 for three Exceptions to this latter rule may be made in special cases by the Director of Public Instruction on the recommendation of the Principal.

A Dictionary of the Economic Products of India. By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Vol. VI, Parts I, II, III & IV of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs. 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made); packing and postage, in India, 8 annas per volume; for England, Rs. 2-6 per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G; Vol. IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of O; Vol. VI (which will consist of four parts), Part I, contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year; but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

REVENUE DEPT.,
The 28th March 1896.

Extract from the Proceedings of the Government of India, in the Department of Revenue and Agriculture,—Commercial Exhibitions, No. $\frac{11}{3-3}$, *dated Calcutta, the 19th March 1896.*

RESOLUTION.

READ the following:—

Notice regarding the International Brussels Exhibition to be held during 1897.

BRUSSELS INTERNATIONAL EXHIBITION, 1897.

Chief Commissioner of the Government.

No. 26—12B., dated the 17th February 1896.

For the Government of British India.

The International Exhibition at Brussels in 1897 is under the distinguished patronage of the King and of the Royal Family, and has the financial support of the Government, of the town of Brussels, and of the province of Brabant.

A joint stock company "Brussels Exhibition" has undertaken the management of the affair, and it will be responsible for the undertaking financially.

The "Moniteur Belge" of the 20th December 1895 has published the Royal Decrees appointing the Government Commissioners and the Members of the Committee of Organization. The object of the Exhibition is to gather together all industrial progress, to invite producers to various competitions, and to reward the winners. The principal branches of human activity will form the subject of special study, and questions or desiderata will be put by special Committees, who have been instructed to draw up the programme of each section.

There will be 14 sections, viz.,—

1. Fine Arts.
2. Social Economy.
3. Hygiene.
4. Preservation of life and property from fire and shipwreck (sauvetage).
5. Industrial and decorative arts.
6. Lighting, heating and their appliance.
7. Electricity—Traction.
8. Warfare.
9. Industrial manufactures, plant processes and products.
10. Sporting material.
11. Drill, popular games.
12. Agricultural and Horticultural competitions limited to certain periods.
13. Practical education, female industries and handwork.
14. Commerce—Colonies.

The divisions of the international competitions will offer a series of particular exhibitions, each one of which will be confined to subjects of the same category. In each of these subdivisions a competition will be held having for its object the solution of that problem which constitutes a desideratum in respect to the group which has entered into the competition. Rewards in kind will be given for the solution of the problems.

In addition to these competitions, by the constitution of the foreign sections, there will be an exhibition in which the different countries will be able to freely exhibit their products. The Government allows the use of the "Cinquantenaire" Park with its museums and offices for the exhibition.

The King, desirous of showing his kindly interest in the undertaking, places the Royal domain at Tervueren at the disposal of the Exhibition. There will be gathered together the produce of the independent state of the Congo, the games referred to in section 11, as well as various amusements.

The Cinquantenaire Park will be connected with the Royal chateau at Tervueren by an electric tramway traversing a new avenue which will be, on account of its great size and picturesque scenery, one of the finest arteries of the capital.

The different Committees will meet at a very early date to decide on their programmes as well as about the general classification. These papers, together with the invitation to producers and various information regarding the exhibition, will be issued in continuation of this note.

ORDER.—Ordered that the foregoing be published for general information in the Supplement to the *Gazette of India*, and that copies be forwarded to the several Local Governments and Administrations for publication in the local gazette.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10., 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the The *humidity* of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The mean is the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stations for the period in question thereon in the district sending in return divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least '10 inch of rain has fallen

CALCUTTA, *the 31st March 1896.*

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 28TH OF MARCH 1896.

AT the close of the previous week conditions over Bengal were very slightly disturbed, and a few local storms with rain had been reported at the extreme northern stations and also in Assam. A low pressure area which had existed over North Bihar on the 20th had, however, practically filled up on the 21st, or the last day of that week. On the 22nd pressure was rising rapidly in Bengal, though small defects were still registered; the temperature changes were a little variable, but still both day and night temperatures were generally in considerable excess of the normal amount. Settled weather prevailed at all stations except those in the hills, and the only rainfall reported was a shower at Gnatong. On the 23rd the barometer had again risen, and pressure had become in excess; temperature had also generally increased, and was in rather large excess, the variation ranging from 4° to 7° and 8° at many stations. Fine settled weather, however, prevailed over the whole of Bengal. On the 24th pressure was falling in the east of the province and rising at the western stations, while temperature had risen again in almost all districts. Conditions had, however become very slightly disturbed, and one or two local storms with rain were reported. On the 25th again the pressure changes over Bengal were rather irregular, pointing to continuance of slightly disturbed conditions, and again one or two stations reported local storms with rain. At the great majority of stations temperature had fallen rather briskly. A brisk rise of pressure followed on the 26th, and an excess ranging up to more than a tenth of an inch at the western stations was recorded. Local storms ceased, and weather became settled; temperature on the other hand again commenced to increase briskly. Rather strong westerly winds also set in giving very low humidities, and at 8 A.M. on this date humidities of only about 20 per cent. of the possible amount were recorded at some of the Chota Nagpur stations. On the 27th the pressure changes were variable, as pressure was rising in the north and falling in the south of the province, and pressure became in excess by amounts ranging up to more than a tenth of an inch at many of the northern stations, and this pressure distribution gave strong dry westerly winds over a considerable part of the province. These hot dry westerly winds also gave a general excess of day temperature over the province, the excess at many stations ranging from 4° to 8°. On the 28th, or the last day of the week, a brisk to rather rapid fall of pressure occurred, but it was still considerably in excess of the normal. Rather strong westerly and south-westerly winds again prevailed at all except a few of the extreme eastern and northern stations, and the mean temperature remained in excess usually by from about 3° to 5°.

Pressure.—The average pressure for the week has been in excess of the normal in all districts, the usual excess ranging from 0·05″ to 0·08″.

Temperature.—The average mean temperature for the week has again been unusually high, and has been 3·2° in excess of the normal. The actual temperatures registered in the province during the week and the variations from their normal values are, however, best seen in the table below, where the average temperature data for nine selected stations in different districts of the province are given. Temperatures, it will be seen, have been unusually high both in the day and the night:—

CONFERENCES OF EDUCATION COMMISSION.

The Hon'ble MR. A. M. BOSE asked—

With reference to the following recommendation of the Education Commission, viz.—

"that Conferences (1) of officers of the Education Department, and (2) of such officers with managers of aided and unaided schools, be held from time to time for the discussion of questions affecting education,"

will the Government be pleased to state when such Conferences were last held; whether their proceedings have been published; whether institutions invited to take part in such Conferences are, or will be, allowed to nominate their own representative or representatives as the case may be; and when such Conferences may be next expected to be held?

The Hon'ble MR. BOLTON replied:—

"Conferences of one or other of the classes referred to were held in 1884, 1886, 1887 (one of each class), and 1891. The latest Conference of class I was held in 1896, to discuss the question of agricultural education.

The latest Conference of class II was held in 1895, for the revision of the European School Code. The results of neither Conference have yet been published; but those of the Conference of 1895 are expected to be issued immediately. A Conference by correspondence also took place in 1895, when the authorities of all Colleges in Bengal, Government, aided and unaided, were invited to consider the revision of the Transfer Rules relating to Colleges. The results of this were published.

"Conferences are held when any question of importance arises, upon which the advice of Educational Officers or of Managers of aided and unaided institutions is likely to be useful. No such question is before the Government at present, nor can it be said when the next Conference is likely to be held. Since the transfer of large educational duties to District Boards, however, the necessity for holding Conferences occurs less frequently than was anticipated in 1883.

"When institutions rather than individuals are invited to a Conference, it is usual to allow them to nominate their own representatives, unless, in any case, the presence of a particular person at the Conference is thought desirable."

MR. MORSHEAD'S CIRCULAR.

The Hon'ble MR. A. M. BOSE asked—

Has the attention of the Government been drawn to a Circular alleged to have been issued by Mr. Morshead, Deputy Commissioner of Purulia, and published in the *Amrita Bazar Patrika* of the 6th instant? While the Circular aims at an object which must command public sympathy, does the Government consider the means adopted to be legal or justifiable? If not, will it be pleased to direct the withdrawal of the Circular.

The Hon'ble MR. COTTON replied:—

"The order of the Deputy Commissioner of Manbhum, to which attention is drawn by the Hon'ble Member, is published as follows in the *Amrita Bazar Patrika* of the 6th March:—

No. 139.

In future no compromise must be allowed by any Magistrate in cases in which persons complain of wrongful confinement or fraudulent recruitment for purposes of emigration without reference to the Deputy Commissioner.

Dated the 7th December, 1895.

"The Lieutenant-Governor is advised that there is no illegality in these orders, and that they are indeed distinctly laudable, the object being to control compromises in cases where ignorant coolies are misled by crafty recruiters. The Hon'ble Judges of the High Court have laid down in the case of Murray *versus* Queen-Empress, reported in page 103 of Volume XXI of the Calcutta Series of the Indian Law Reports, that Courts are to scrutinize the terms of the composition in compoundable cases, and satisfy themselves that both parties thereto have, with full knowledge, entered into a legal compromise. Mr. Morshead's order will ensure this being done more efficiently than it would be done if the Subordinate Magistrates, who are occasionally hasty in their desire to get rid of a case, were left altogether to themselves. They will know that the Deputy Commissioner will scrutinise the facts, and they will therefore be unlikely to slur over the case. Moreover, it may sometimes happen that Subordinate Magistrates will allow compromises in cases where an offence outside the sections of the law which permit compromise has been committed. In such cases it is both legitimate and desirable that the District Magistrate should advise his subordinates in their procedure with a view to prevent miscarriage of justice."

MR. BIDWELL'S CASE.

The Hon'ble MR. A. M. BOSE asked—

Has the attention of the Government been drawn to the two letters given below, published in the *Hitabadi* of the 20th March, and professing one to have been written by Mr. Morshead, Deputy Commissioner of Purulia, and another to have been addressed to him?

PURULIA;
The 8th November, 1895.

DEAR MR. MASEYK,

I am transferring the case to your file from Jadu Babu's, as Mr. Bidwell seems to think that he will not get a fair trial before a Babu. This does not of course mean that his case is not true, but I would ask you to take particular care with it. On the one hand the old man is unscrupulous, but I believe he resorts to violence rather than deceit when he thinks himself injured. At the same time he is uneducated and ignorant, and, like all ignorant people, mixes up what he sees and what he fancies. On the other hand all the people in the neighbourhood are against him, as an unnecessary and troublesome intruder, and probably the Police also, as he caused a head-constable to be dismissed for taking a bribe, and they at first refused to send up the case. It is also on the border of civil and criminal jurisdiction, and it will be necessary to see that it falls on the criminal side. * * * *

I have written about your first class powers.

Yours, &c.,
L. F. MORSHEAD.

MY DEAR MR. MORSHEAD,

After careful perusal of your comments on my judgment in Mr. Bidwell's case, I am sorry I cannot be induced to change my view. I am still of opinion that my remarks on Mr. Bidwell's case are justifiable under the circumstances, and I could not think of retracting them. Apart from this, having regard to section 369, Criminal Procedure Code, I am afraid I would be acting illegally were I to accede to your wishes. The records of the case, as also your comments thereon, are herewith returned.

Yours, &c.,
C. H. MASEYK.

Will the Government be pleased to enquire into the genuineness of the letters, and take such action as to it may seem proper under the circumstances of the case. Is there any foundation for the statement that after Mr. Maseyk had passed his judgment in the case, an attempt was made by the Deputy Commissioner to induce him to alter it; and will the Government lay the Deputy Commissioner's letter or proceeding, if any, on the subject before the Council?

The Hon'ble BABU SURENDRANATH BANERJEE asked—

(*a*) Will the Government be pleased to enquire whether, as stated in the *Hitabadi* newspaper, Mr. Morshead, Deputy Commissioner of Purulia, wrote the following letter to Mr. Maseyk, an Honorary Magistrate subordinate to him, in connection with a case in which one Mr. Bidwell was concerned, and which was transferred from the file of a Bengali Deputy Magistrate to the file of the said Honorary Magistrate:—

PURULIA;
The 8th November, 1895.

DEAR MR. MASEYK,

I am transferring the case to your file from Jadu Babu's, as Mr. Bidwell seems to think that he will not get a fair trial before a Babu. This does not of course mean that his case is not true, but I would ask you to take particular care with it. On the one hand the old man is unscrupulous, but I believe he resorts to violence rather than deceit when he thinks himself injured. At the same time he is uneducated and ignorant, and, like all ignorant people, mixes up what he sees and what he fancies. On the other hand all the people in the neighbourhood are against him as an unnecessary and troublesome intruder, and probably the Police also, as he caused a head-constable to be dismissed for taking a bribe, and they at first refused to send up the case. It is also on the border of civil and criminal jurisdiction, and it will be necessary to see that it falls on the criminal side. * * * * *

I have written about your first class powers.

Yours, &c.,
L. F. MORSHEAD.

(*b*) Is it true that subsequent to the disposal of the case by the said Honorary Magistrate, Mr. Morshead tried to induce the trying Honorary Magistrate to modify some observations made by him in the course of his judgement, and that the said Honorary Magistrate wrote the following reply:—

MY DEAR MR. MORSHEAD,

After careful perusal of your comments on my judgment in Mr. Bidwell's case, I am sorry I cannot be induced to change my view. I am still of opinion that my remarks on Mr. Bidwell's case are justifiable under the circumstances, and I could not think of retracting them. Apart from this, having regard to section 369, Criminal Procedure Code, I am afraid I would be acting illegally were I to accede to your wishes. The records of the case, as also your comments thereon, are herewith returned.

Yours, &c.,
C. H. MASEYK.

Does the Government approve of interference of this nature by a district officer with the judicial discretion of a Subordinate Magistrate?

What action does the Government propose to take in the matter?

(*c*) Is not Mr. Morshead the same officer who was deprived of summary powers because of some observations made by the High Court in regard to his judicial work while in charge of the Hajipur subdivision?

The Hon'ble MR. COTTON replied:—

"A copy of the correspondence quoted by the Hon'ble Members was placed in the hands of Government by a third party before it was published in the *Hitabadi*, and the Lieutenant-Governor then caused an enquiry to be made into the facts. The letters are genuine. It is true also that the Deputy Commissioner did try to induce Mr. Maseyk to modify certain remarks in his judgment, imputing maliciousness to Mr. Bidwell. He did not, however, want him to alter the wording of his decision but only to add a note taking away the sting of the remarks, which it was feared might lead to further trouble. This was an indiscretion on Mr. Morshead's part, of which the Commissioner of the Division has taken due notice, and Mr. Morshead has been warned to be more careful in future. The Lieutenant-Governor does not propose to take any further notice of the matter. The case is not a serious one, and it appears clear that no injustice was done."

MR. NORMAN WARDE-JONES' CASE.

The Hon'ble MR. A. M. BOSE asked—

Is the Government now in a position to state the result of the enquiry into the case of Mr. Norman Warde-Jones, late Sub-divisional Officer of Gobindpur? Will it be pleased to lay the papers relating to his case before the Council?

The Hon'ble MR. COTTON replied:—

"The services of Mr. Warde-Jones have been dispensed with. The Government considers that it would serve no useful purpose to lay the papers of the case before the Council."

GRADUATE AND PRIVATE SCHOLARSHIPS.

The Hon'ble MR. A. M. BOSE asked—

Will the Government be pleased to state—

(*a*) Whether it is not the fact that the "graduate scholarships," the establishment of which was recommended by the Bengal Provincial Committee of the Education Commission, were specially meant to be not *private* scholarships, but public scholarships, or scholarships not limited to any particular institution, or to any particular section of the community?

(*b*) Are not the Mohsin and Madrassa Scholarships, which have been referred to as having been established since the date of the Education Commission's Report (in answer to the question on the subject put on the 29th of February), private scholarships? And are they not the result of the recommendations of the Education Commission about "special encouragement of Muhammadan Education" [Rule 7*b* (1), page 597] and about liberal encouragement to "higher English Education for Muhammadans." [Rule 7*b* (7) page 598], and not of the recommendation about the establishment of graduate scholarships, which were to be of a non-private character, referred to in the question?

(*c*) Are the Presidency College Scholarships, referred to in the same answer, also private scholarships? Were they not in existence from long before the appointment of the Education Commission?

(*d*) Has any scholarship which is not private been created since the date of the recommendation of the Bengal Provincial Committee, open to graduates reading for the M.A. degree?

The Hon'ble Mr. Bolton replied:—

"(*a*) The 'graduate scholarships' are contrasted, in the recommendation of the Bengal Provincial Committee, with 'private' or endowed scholarships. The establishment of graduate scholarships by Government is evidently intended by the recommendation. The establishment of Government scholarships for graduates of any particular institution, or belonging to any particular section of the community, would come within the terms of the recommendation.

"(*b*) The Mohsin scholarships are 'endowed' scholarships, created by Government and paid from the Mohsin Endowment Fund. The Madrasa scholarships are Government scholarships, paid from Provincial Revenues. The former are 'private' in the sense of being endowed scholarships; the latter are 'public' scholarships, though limited to Muhammadans. The recommendations of the Education Commission, referred to in the latter part of the question, did not go beyond the establishment of scholarships for Muhammadans awardable on the results of the First Arts Examination.

"(*c*) The Presidency College graduate scholarships are 'private' in the sense of being endowed scholarships. They were in existence long before the appointment of the Education Commission.

"(*d*) The Madrassa graduate scholarships, above referred to, are not private scholarships, and have been created since 1883. Six Government scholarships of the value of £200 a year each, and tenable for three years in England by graduates who are Natives of India, were created by Home Department Resolution No. $\frac{1}{45-67}$, dated 12th February, 1886. The scholarships were placed at the disposal of the Universities of Calcutta, Bombay, Madras, and the Punjab in rotation."

PUBLIC SCHOLARSHIPS.

The Hon'ble Mr. A. M. Bose asked—

Are there any public scholarships open to candidates on the result of the Entrance or the First Arts Examination of the University? And if so, what is their number and the date of their establishment?

Will the Government be pleased to take into its consideration, as soon as circumstances may permit, the desirability of affording the same encouragement to students reading for the M.A. or the highest examination of the University, by the creation of some graduate scholarships open to general competition, as that which it has been graciously affording for so long past to students reading for the B.A. or the F.A. Examination of the University, and thus give effect to the unanimous recommendation of the Bengal Committee of the Education Commission?

The Hon'ble MR. BOLTON replied:—

"There are 50 Government senior scholarships—10 of Rs. 25 a month and 40 of Rs. 20 a month—open to candidates passing the First Arts Examination. There are 152 Government junior scholarships—10 of Rs. 20, 47 of Rs. 15, and 95 of Rs. 10 a month—open to candidates passing the Entrance Examination. These were established in 1872.

"There are also 20 senior scholarships of Rs. 10 and Rs. 7 a month, and 20 junior scholarships of Rs. 7 a month, limited to Muhammadan candidates. These were created in 1886.

"There are also two senior and three junior scholarships, one of each grade in either case, limited to female candidates. These were created in 1887.

"There are also two junior scholarships of Rs. 8 a month each reserved for candidates of aboriginal races who pass the Entrance Examination. These were created in 1891.

"It is not thought necessary, in the present advancement of higher education in Bengal, to offer any special inducements to candidates reading for the M.A. degree. The number of such candidates has increased from 74 in 1883 to 173 in 1895.

"The Education Commission suggested (Report, page 312, No. 14) that the assignment for Government scholarships tenable in Arts Colleges should not exceed two per cent. of the Provincial grant for education. The Provincial expenditure on education in 1894-95 amounted to Rs. 22,76,285 (Report on Public Instruction for 1894-95, General Table IV, page vii), two per cent. of which would amount to Rs. 45,526. The Provincial expenditure on scholarships tenable in Arts Colleges in the same year was Rs. 73,825, which is over three per cent. of the Provincial expenditure on education. The Government is not prepared to increase the grant for scholarships tenable in Arts Colleges."

DISTRICT BOARD'S RECEIPTS FROM CERTAIN SOURCES.

The Hon'ble BABU GURU PROSHAD SEN asked—

Are the receipts under Cattle Trespass Act and tolls on Ferries made over to the District Boards on the introduction of the Local Self-Government Act, 1885, *plus* contributions to the Boards from Provincial revenues, equal in amount to the total of all charges on Education, Medical, Famine Works, and additional charges on Civil Works; as also charges on several smaller items thrown on these Boards on the introduction of the aforesaid Act, and to the total of the amount by which the Provincial revenues had been since then relieved of these charges? If not, will the Government be pleased to relieve the District Boards of charges over and above the receipts under the aforesaid heads, thus enabling them to spend a greater proportion (say one-fifth) of their income from the cess levied under Act IX of 1880 in excavating tanks and wells, and in otherwise providing for the construction and maintenance of any means and appliances for improving the supply of drinking water—one of the objects for which the cess is levied—than the paltry sum of Rs. 43,000 out of an income of Rs. 36 lakhs realised from the proceeds of the cess as in the year ending with 31st March, 1894.

The Hon'ble MR. RISLEY replied:—

"In March, 1888, certain charges on account of Education, Medical, Pounds and Ferries were made over to District Boards with the corresponding receipts, and a grant from Provincial revenues was made at the same time so as to equalise income and expenditure. During the year 1894-95, the expenditure of the Boards under these heads, including Famine Works, amounted to Rs. 13,65,923 and their income to Rs. 14,16,997, leaving a surplus of Rs. 51,072. This does not include Civil Works transferred from Provincial to Local, for each of which separate allotments have been made from time to time. During 1894-95 the Boards spent Rs. 63,768 on the improvement of water-supply, and in paragraph 48 of the Resolution reviewing the reports on the working of District Boards for that year, each Board was urged to set apart at least Rs. 5,000 a year for that purpose.

"The attention of the Boards will now be specially drawn to the existing scarcity of water, and they will be asked to take such steps as are possible in the circumstances."

STAMP REVENUE.

The Hon'ble Babu Guru Proshad Sen asked—

Will the Government be pleased to state whether there is any return published in any of the Reports of the Stamp Revenue, showing how much court-fees are realised from suits compromised, withdrawn, decided *ex parte*, or in which the judgment is confessed?

Is the Government in a position to say what amount of revenue, out of the total amount of Stamp revenue, is derived (1) from court-fees, (2) the process-fees, in these cases? Are not these for the most part cases in which the raiyats and the poorer classes of the community are concerned?

The Hon'ble Mr. Risley replied:—

"The reply to the first head of the question asked by the Hon'ble Member is, No.

"The reply to the second head is, No.

"The reply to the third is, that the accounts kept by Government do not show separately the amount of stamp-fees realised in contested and uncontested cases, nor is there any information before Government regarding the status and circumstances of the parties who are for the most part concerned in uncontested cases."

ZAMINDARI DAK CESS.

The Hon'ble Babu Guru Proshad Sen askd—

Will the Government be pleased to state whether the Zamindari Dâk cess is paid by Government, when it holds zamindari estates as a landlord? If not, does not the incidence of the cess fall heavily on the other holders of estates, especially in districts where a great part of it is held by Government as its zamindari?

The Hon'ble Mr. Bolton replied:—

"The position of the Government in regard to liability to the Zamindari Dâk cess is explained in the following rule, which will be found on page 39 of the Miscellaneous Volume of the Board's Rules, 1888:—

'It has been decided by Government, after consultation with the Legal Remembrancer, that the Collector is not a zamindar who pays revenue to Government within the meaning of section 3 of Bengal Act VIII of 1862 in respect to Government estates, and that in a Government estate under direct management the raiyats are not persons who come under the description of "persons paying revenue direct to Government," such as zamindars and sadar farmers mentioned in that section. It is, therefore, held (*a*) that as in a Government estate under direct management there is no sadar jama within the meaning of section 5 upon which the rate for Zamindari Dâk cess can be assessed, no Zamindari Dâk cess is payable by such an estate; (*b*) that in estates the property of Government let on farming leases, the farmer is liable to pay the assessment; (*c*) that in estates the property of individuals which are let on farming leases, in consequence of the refusal of the proprietors to take settlement, the farmer is liable; and (*d*) in the case of estates of the same kind as class (*c*) but managed directly by Government, and not let on farming leases, no person is liable. Under this explanation it is only sadar malguzars under revenue engagements to Government who can be called upon to pay the cess, which in fact only represents the old customary liability of such malguzars to forward police reports of crime, and district officers are to be guided accordingly. It follows that no provision is necessary for the payment of the Zamindari Dâk cess on account of estates, whether the property of Government or of private individuals, which are held under the direct management of the Collector.'

ZAMINDARI DAK CESS UNDER THE FIVE YEARS' SETTLEMENT.

The Hon'ble Babu Guru Proshad Sen asked—

What is the incidence of the Zamindari Dâk cess in a hundred rupees of Government revenue under the five years settlement of 1892, and what was this incidence in the five preceding years? What is the total amount of cess now raised, and what was the total amount of it in the five preceding years?

The Hon'ble MR. BOLTON replied:—

"The information asked for in the first part of this question can only be obtained by local enquiries in each district, which the Lieutenant-Governor does not think it worth while to make.

"The total amount of Zamindari Dâk cess realised during the past six years is as follows:—

	Rs.
1889-90	3,71,441
1890-91	3,61,029
1891-92	3,64,736
1892-93	4,37,411
1893-94	4,30,000
1894-95	3,90,886"

CONTROL OVER ZAMINDARI DAK CESS FUND.

The Hon'ble BABU GURU PROSHAD SEN asked—

Will it please Government to state whether this Government exercises any sort of control over the expenditure of the money raised by the levying of the Zamindari Dâk cess? Is any detailed account of the receipts and expenditure published? If so, in which of its reports?

The Hon'ble MR. BOLTON replied:—

"The estimates of the Postal Department for the establishments paid out of the Zamindari Dâk cess are checked annually by the Collector and the Commissioner and are reviewed by the Government. Annual detailed statements of the receipts and charges are also submitted to the Government.

"Detailed accounts of the receipts and expenditure of the cess are not published by the Government."

SANITATION IN BENGAL JAILS.

The Hon'ble RAI ESHAN CHANDRA MITTRA BAHADUR asked—

Has the attention of Government been drawn to an article on "Sanitation in Bengal Jails" by Brigade-Surgeon Lieutenant-Colonel W. H. Gregg, published in the *Calcutta Review* of January last, showing the extraordinary success that attended the introduction of some simple sanitary precautions in the Hooghly Jail, resulting in entire cessation of dysentery and some other diseases, and the marked improvement in the general health of the prisoners?

(*a*) Has the Government received any official report on the subject?

(*b*) If so, has the Government taken any action on the report?

(*c*) If not, will the Government be pleased to endeavour to bring about the introduction of those special sanitary improvements referred to in the article in question consisting of an improved dietary, improved ventilation, a supply of disinfected and wholesome water, and an allowance of sufficient clothing in all unhealthy jails in Bengal?

The Hon'ble MR. COTTON replied:—

"The Government has received an official report on the subject of the Hon'ble Member's question from the Commissioner of the Burdwan Division. That officer has taken exception to the accuracy of some of the statistics published by Dr. Gregg, and further enquiry has been ordered into the matter. In the meantime the Lieutenant-Governor desires to assure the Hon'ble Member that the greatest possible attention is bestowed on dietary, ventilation, water-supply and clothing in all the Jails in Bengal. A reference to recent Jail Reports will show what has been done, and the efforts in this direction, which were persistent during the past year, are systematically continued."

EXCESS SCHOOLING FEES FOR UNIVERSITY ENTRANCE EXAMINATION.

The Hon'ble Rai Eshan Chandra Mittra Bahadur asked—

Is the Government aware that since 1891, candidates for the University Entrance Examination in Government schools are required to pay schooling fees for sixteen months, from February of one year to May of the succeeding year, instead of 12 months, as was the rule before?

(*a*) Will the Government be pleased to consider whether or not this rule causes hardship to the said class of students, and will the Government be pleased to pass such orders on the subject as it thinks fit.

The Hon'ble Mr. Bolton replied:—

"The question is understood to refer to Rule X of the Transfer Rules for High Schools, which runs as follows:—'A student shall not be sent up to the Entrance Examination until he has paid all sums due to the institution in which he has been reading, including fees up to the end of the session in May.' The rule is not, as the question suggests, confined to Government schools, but is applicable to all classes of high schools, whether Government, aided or unaided.

"(*a*) The rule affirms the principle that fees are payable by students up to the close of a session, which the Government accepts as a salutary principle. The rule has been in operation from 1889, and no complaint against it has been made by the managers of schools. The Government, as at present advised, sees no necessity for altering it."

MUNSIFFS FOR ORISSA.

The Hon'ble Mr. M. S. Das asked—

In appointing Munsifs for Orissa, will the Government be pleased to take into consideration the superior claims of candidates who, having obtained their B. L. degree from the Cuttack Ravenshaw College, are practising as pleaders in Orissa, and who have consequently a knowledge of the language and of all that is peculiar to Orissa.

The Hon'ble Mr. Cotton replied:—

"The Lieutenant-Governor will place himself in communication with the High Court on the subject of the Hon'ble Member's question."

REDUCTION OF FEES IN SMALL CAUSE COURT SUITS.

The Hon'ble Mr. Womack asked—

Will the Government be pleased to state if any, and if so what, decision has been come to regarding a reduction of the institution and other fees on suits in the Court of Small Causes?

The Hon'ble Mr. Cotton replied:—

"The Lieutenant-Governor, after consulting the High Court and the Chief Judge of the Small Cause Court, is of opinion that some reduction should be made in the rate of institution fees in Small Cause Court cases in Calcutta which are valued at five hundred rupees and under. His Honour has caused a representation on the subject to be made to the Government of India."

REFORMS IN SMALL CAUSE COURT.

The Hon'ble Mr. Womack asked—

Will the Government give any information in its possession respecting the probability of the early introduction of reforms in the practice and procedure of the Court of Small Causes?

The Hon'ble Mr. Cotton replied:—

"A memorial submitted by the Calcutta Trades' Association suggesting certain reforms in the practice and procedure of the Calcutta Court of Small Causes was received by this Government and is still under the consideration of the Hon'ble Judges of the High Court, to whom it was transmitted for the favour of a report."

BENGAL FINANCIAL STATEMENT FOR 1896-97.

The Hon'ble Mr. Risley laid on the table the Bengal Financial Statement for 1896-97 with explanatory notes.

BENGAL FINANCIAL STATEMENT FOR 1896-97.

PART I.—General Review.

(1) ACCOUNTS OF 1894-95.

1. The accounts of 1894-95, as presented to the Council this time last year, were estimated to work out to a surplus of Rs. 7,49,000. As the actuals now stand, they are better by Rs. 9,49,000 owing mainly to an improvement of $3\frac{1}{4}$ lakhs on the revenue side, and a diminution of $6\frac{1}{4}$ lakhs in expenditure, chiefly under Customs establishment ($1\frac{1}{4}$ lakhs), Stationery stores supplied to Government offices and Presses (3 lakhs), Irrigation works ($1\frac{3}{4}$ lakhs) and Land Revenue ($\frac{1}{4}$ lakh).

(2) REVISED ESTIMATE OF 1895-96.

2. The receipts of the current year are now estimated at Rs. 4,56,39,000 against Rs. 4,41,97,000 anticipated when the Budget was first framed, and the total expenditure will probably amount to Rs. 4,44,10,000 against Rs. 4,43,08,000, the original sanctioned grant for the year. The net result is a surplus of Rs. 12,29,000 against a deficit of Rs 1,11,000 anticipated last year. The chief causes of this are (*a*) the restoration of the special contribution of 3 lakhs made to the Imperial Treasury in the preceding year, (*b*) an unexpected increase of more than $4\frac{1}{2}$ lakhs in railway receipts owing to the brisk traffic in jute, (*c*) a diminution in the charges for exchange compensation allowance (nearly $1\frac{3}{4}$ lakhs) owing to the rise in the rate of exchange, and (*d*) a large increase of receipts under Jails, Marine and Miscellaneous and minor improvement under almost all revenue heads.

(3) BUDGET ESTIMATE 1896-97.

3. The Budget estimate for 1896-97, as finally passed by the Government of India, accepts Rs. 55,51,000 as the opening balance, and provides for receipts aggregating Rs. 4,46,36,000 and expenditure Rs. 4,67,47,000, leaving a closing balance of Rs. 34,40,000.

4. It is estimated that on the whole the receipts, which are only Rs. 13,000 better than the actuals of 1894-95, will be less by Rs. 10,03,000 than the revised estimate for the current year, which has been swollen by the special causes referred to above.

5. On the expenditure side the total grant exceeds the revised estimate of 1895-96 by Rs. 23,37,000, of which Rs. 13,51,000 is under Civil Works, Rs. 2,18,000 under Irrigation and Navigation, Rs. 1,26,000 under Judicial Courts, Rs. 1,09,000 under Land Revenue, Rs. 1,61,000 under Education, Rs. 1,28,000 under Medical, Rs. 90,000 in half share under Forest, Rs. 51,000 under Salt, Rs. 37,000 under Marine, and Rs. 62,000 under Superannuation charges. The amount of the grant for civil works is a fair measure of the prosperity of the Provincial finances. The comparatively large provision under this head, though still falling short of the full requirements of the Province, makes up to some extent for the severe economy imposed by the financial necessities of several years past. A part of the larger grants for Revenue and Civil Departments is for expenditure of a nature which must increase with the natural development of the administration. At the same time the charges on account of Exchange Compensation Allowance have been reduced by Rs. 1,09,000, and now stand at Rs. 8,13,000 for 1896-97, against Rs. 9,22,000 for 1895-96.

6. The net result is that the total revenue of the year, together with the opening balance, is taken at Rs. 5,01,87,000, and the grant for expenditure at Rs. 4,67,47,000, so that the year is estimated to close with a credit balance of Rs. 34,40,000.

PART II.—Details of the Accounts and Estimates.

SECTION I.—THE ACCOUNTS OF 1894-95.

7. In the Financial Statement, which was laid before the Council on the 23rd March 1895, it was assumed that the year 1894-95 had opened with a credit balance of Rs. 26,24,000, and had closed with a credit balance of

Rs. 33,73,000; that the total amount available for expenditure during the year, less the minimum working balance of Rs. 20,00,000 reserved under the orders of the Secretary of State, was Rs. 4,49,21,000, and that out of this sum Rs. 4,35,48,000 had been spent. The actual result proves to have been better than this estimate by Rs. 9,49,000. The amount available for expenditure was Rs. 4,52,47,000, and the amount actually expended Rs. 4,29,25,000 against Rs. 4,29,09,000, the total expenditure of the preceding year, so that the closing balance for 1894-95 was Rs. 43,22,000 instead of Rs. 33,73,000 taken in the revised estimate. This improvement was caused by the actual receipts exceeding the estimate by Rs. 3,26,000, while, at the same time, the expenditure fell below the estimate by Rs. 6,23,000.

8. The increase in receipts was chiefly (1) under Land Revenue collections (Rs. 71,000), mainly from Government Estates; (2) under Salt (Rs 21,000), from Rents of warehouses; (3) under Assessed Taxes (Rs. 32,000), due partly to careful assessment and partly to the rise in exchange compensation allowance raising the aggregate of taxable salaries; (4) under Jails (Rs. 72,000), from increased sale of manufactures chiefly to the Military Department; (5) under Miscellaneous (Rs. 78,000), owing to larger lapses of unclaimed deposits and larger receipts from Partition fees and fees for the survey of tea lands; (6) under Railways (Rs. 32,000), a nominal increase due to fluctuations under "traffic suspense heads," and (7) under Irrigation Receipts (Rs. 58,000), due to the recovery of outstanding demands and better collection of tolls on the Midnapore canal. There were also smaller increases of Rs. 18,000 under Interest on Loans, especially on drainage and embankment advances, and Rs. 19,000 under Scientific and other Minor Departments for increased sale of cinchona alkaloids, &c. Under the head of adjustments between Imperial and Provincial, there was a decrease of Rs. 78,000, due mainly to a credit for only Rs. 68,000 having been given to Provincial instead of for Rs. 1,64,000 taken in the estimate for the increase of Customs establishments, consequent on the re-imposition of import duties. Increased credits were, however, obtained for Imperial Buildings transferred to Local, and on account of the reservation of the Western Duars for khedda operations under the Military Department.

9. The decrease of expenditure was chiefly (1) under Customs (Rs. 1,28,000), owing to the full establishment and increases of salaries sanctioned for the Department not having been entertained or paid during the year; (2) under Stationery and Printing (Rs. 2,91,000), chiefly in the value of stationery stores supplied for Government offices and Presses; (3) under Irrigation and Navigation (Rs. 1,86,000), owing to diminished outlay on works repairs of the Sone Canals and Minor Works; and (4) under Management of Government Estates—(Rs. 32,000).

10. The net result was a surplus of Rs. 16,98,000 on the year, against Rs. 7,49,000 anticipated when the revised estimate was passed.

SECTION II.—THE REVISED ESTIMATE OF 1895-96.

11. The budget estimate for 1895-96, as adopted by the Government of India, assumed that the year would open with a credit balance of Rs. 33,73,000, and that the total revenue would amount to Rs. 4,41,97,000 and the total expenditure to Rs. 4,43,08,000, so that the year would close with a balance of Rs. 32,62,000. The latest estimate available for the accounts of the year puts the total receipts at Rs. 4,56,39,000, which is better than was originally expected by Rs. 14,42,000, and the expenditure at Rs. 4,44,10,000, which gives an increase of Rs. 1,02,000 only. Including the increase of Rs. 9,49,000 in the opening balance, the net result is an improvement of Rs. 22,89,000 on the original estimate for the year.

12. Half of the increase in receipts is under "Principal Heads of Revenue," and is caused by the repayment of the special contribution of three lakhs made to the Imperial Revenues in 1894-95; and by increases of Rs. 1,50,000 in the one-fourth share of Excise, of Rs. 75,000 in the half share of Assessed Taxes, of Rs. 60,000 in the three-fourth share of Stamps, of Rs. 80,000 under rents of Salt warehouses, of Rs. 45,000 in the half share of Forest receipts, and of smaller amounts under other heads, against a decrease of Rs. 30,000 under Registration. The Railways show an improvement of Rs. 4,63,000

caused by the carriage of a specially large jute crop. There is an increase of Rs. 1,59,000 in Miscellaneous Receipts, and of Rs. 93,000 under Civil Departments, of which Rs. 65,000 comes under Jail Manufactures and Rs. 50,000 under Marine, against decreases under other heads.

13. The net increase in expenditure is, as stated above, Rs. 1,02,000, which is made up of an increase of Rs. 3,47,000 under Civil Works and of Rs. 99,000 under Contributions to Local Funds for increased grants to primary education and Civil Works, against decreases of about a lakh in heads which are classed as "Direct demand on the Revenues;" of nearly a lakh in "Salaries and expenses of the Civil Department;" of nearly Rs. 60,000 under Miscellaneous, chiefly under Stationery and Printing; of Rs. 64,000 under Irrigation and Navigation; and of Rs. 17,000 under Interest payable to the Imperial Government on allotments for loans. A part of the decrease in Revenue and Civil heads is due to the rate of exchange above the figure assumed for the calculation of the cost of exchange compensation allowances. The average taken for this purpose in the original budget was 13*d.* the rupee, whereas the four quarterly rates, with reference to which the allowances have been paid, yielded an average for the whole year just over 13¼*d.* This saving which affects almost all the expenditure heads of the estimate, amounted to Rs. 1,71,000 in the Bengal Provincial account only, the total payments being now estimated at Rs. 9,22,000, against Rs. 10,93,000 originally provided for in the budget. The net result of these variations from the budget of 1895-96 is an increase in the closing balance of Rs. 22,89,000, from Rs. 32,62,000 to Rs. 55,51,000.

SECTION III.—THE BUDGET ESTIMATE OF 1896-97.

Receipts.

14. *Land Revenue.*—The total collections under Land Revenue in 1894-95 amounted to Rs. 3,89,10,000, and the estimate for 1896-97, as passed by the Government of India, is Rs. 3,89,47,000, which includes Rs. 2,00,000 for recoveries of the landlords' and tenants' shares of the cost of the Bihar Survey. The 12 per cent. on collections from Government estates yielded in 1891-92, Rs. 4,69,000; in 1892-93, Rs. 4,74,000; in 1893-94, Rs. 4,79,000; and in 1894-95, Rs. 4,84,000, while the estimate for 1896-97 stands at Rs. 4,90,000.

15. The *adjustments* between Imperial and Provincial will probably result in a net transfer of Rs. 12,00,000 to Imperial in 1896-97, as shown below:—

	Estimate, 1896-97. Rs.
From Imperial to Provincial—	
Advance for the Hijili Tidal Canal	24,000
Grant for transfer of Imperial buildings to the charge of local bodies	10,000
Assignment for Gnatong Police	16,000
(*a*) Grant to meet the cost of additional Customs establishment	2,12,000
Salary of a Probationer Gardener for the Royal Botanic Gardens	2,000
(*b*) Towing charges of *Rhotas*	10,000
	2,74,000
From Provincial to Imperial—	
Lump contribution under the contract	14,39,000
Interest on advance for the Hijili Tidal Canal ...	30,000
(*c*) Contribution towards the cost of a tower clock to be set up at the General Post Office	5,000
	14,74,000
Net transfer from Provincial to Imperial ...	12,00,000

(*a*) The Government of India, while passing orders on the budget for 1895-96, allowed for an assignment to Provincial revenues of Rs. 2,64,000 for the additional establishment to be entertained in the Calcutta Custom House, owing to the passing of the Tariff Acts, VIII and XVI of 1894. Since then, in the Finance and Commerce Department letter No. 3356Ex., dated the 16th July 1895, the Government of India have sanctioned an additional establishment, costing Rs. 17,667-6-8 a month. A credit of Rs. 17,667-6-8 × 12, or Rs. 2,12,000, has accordingly been taken in the estimate for 1896-97.

(*b*) The charge for towing the *Rhotas* for His Honour the Lieutenant-Governor's tour has been provincialized with an annual assignment of Rs. 10,000, and this amount has accordingly been entered in the estimate for 1896-97.

(*c*) A grant of half the cost of an illuminated clock to be erected on the General Post Office in Calcutta, not exceeding Rs. 5,000, has been promised to the Postal Department, and a debit of this amount has accordingly been made against the Provincial share of Land Revenue in 1896-97.

16. Owing to these adjustments the estimates of the Provincial share of Land Revenue will stand thus:—

	Estimate, 1896-97.
	Rs.
Gross Land Revenue	3,89,47,000
Deduct 12 per cent. on estimated collections from Government estates (Provincial)	4,90,000
„ Recoveries on account of Bihar survey and settlement charges (Imperial)	2,00,000
Total deductions ...	6,90,000
Net amount divisible between Imperial and Provincial Funds	3,82,57,000
Provincial share of above (one-fourth)	95,64,000
Add 12 per cent. collections (wholly Provincial) ...	4,90,000
Total Provincial share	1,00,54,000
Deduct on account of adjustments	12,00,000
Net Provincial share	88,54,000

17. *Salt.*—The budget estimate of Provincial receipts for 1895-96 was Rs. 95,000, but the actuals of the twelve months ending 30th September amounted to Rs. 1,73,615, and later actuals point to a further increase in consequence of the continued high importation of salt, involving a larger demand for accommodation in bonded warehouses. Both the revised estimate for 1895-96 and the estimate for 1896-97 have been placed at Rs. 1,75,000.

18. *Stamps.*—The estimate of stamp revenue for 1895-96 was passed by the Government of India for Rs. 1,67,00,000. The latest returns from the Comptroller-General show that the receipts during the first eleven months of the year exceeded those of the corresponding period of last year by about Rs. 80,000. The actual receipts in 1894-95 amounted to Rs. 1,67,03,000. In view of the increase that has already occurred, both the revised estimate for 1895-96 and the estimates for 1896-97 have been placed at Rs. 1,67,80,000, and the Provincial share of three-fourths amounts to Rs. 1,25,85,000. Of the increase two-thirds is in general stamps and nearly one-third in court-fee stamps and plain paper to be used with court-fee stamps.

19. *Excise.*—The revenue from Excise for 1895-96 was estimated at Rs. 1,27,00,000. The actuals of 1894-95 amounted to Rs. 1,25,62,000, and the figures of the first 11 months of 1895-96 show an increase of nearly seven lakhs over the actuals of the corresponding period of the preceding year, while the settlement of Excise shops for the year has yielded a net increase of Rs. 3,95,000 under License fees over and above the demand for 1894-95. The estimate has accordingly been raised to Rs. 1,33,00,000 for 1895-96, and the same figure has been adopted for 1896-97. The Provincial share of one-fourth is Rs. 33,25,000.

20. *Provincial Rates.*—The budget estimate of receipts from Provincial Rates for 1895-96 amounts to Rs. 42,81,000. The actual collections of the Public Works Cess in 1894-95 amounted to Rs. 41,79,000, and the average actuals of the past three years were Rs. 41,69,000. In view of these figures and of revaluations now in progress, the Revised Estimate has been placed at Rs. 41,70,000, and the budget estimate for 1896-97 at Rs. 41,80,000. The estimate of receipts under "General rates for the management of private estates" is Rs. 1,40,000 against Rs. 1,35,000, the budget estimate for the current year, and Rs. 1,29,000, the actuals of 1894-95. The collections in the first eight

months of the current year amounted to Rs. 64,670, against Rs. 32,814 in the corresponding period of last year, showing an increase of Rs. 31,856. The revised estimate has accordingly been raised to Rs. 1,40,000, and this figure has been adopted for 1896-97.

21. *Customs.*—The original estimate of Provincial receipts for 1895-96 was Rs. 61,000. The actuals of 1894-95 were Rs. 73,000, and those of the first seven months of 1895-96 exceeded the actuals of the corresponding period of 1894-95 by Rs. 12,000. Both the revised estimate for 1895-96 and the estimate for 1896-97 have been placed at Rs. 81,000 with reference to the fact that the imposition of the import duties tends to raise the receipts from fines and confiscations.

22. *Assessed Taxes.*—The budget estimate of receipts from Income-Tax for 1895-96 was passed by the Government of India for Rs. 45,00,000. The actual collections of last year amounted to Rs. 45,63,000, and those of the twelve months ending 31st January were Rs. 46,46,000. Both the revised estimate for 1895-96 and the estimate for 1896-97 have been placed at Rs. 46,50,000 with reference to past actuals. The Provincial share of one-half is Rs. 23,25,000.

23. *Forest.*—The receipts of the Forest Department are now estimated at Rs. 9,00,000 for 1895-96 and Rs. 12,70,000 for 1896-97 against Rs. 7,96,000, the actuals of 1894-95. The increase is due to contracts undertaken by the department for the supply of sleepers to the East Coast and Rai Bareili-Benares Railways. Increased provision has also been made on the expenditure side for the preparation and carriage of these sleepers, so that the net receipts are estimated at Rs. 3,10,000 for 1895-96 and Rs. 5,00,000 for 1896-97 against Rs. 3,99,000, the actuals of 1894-95. The low estimate of net receipts for 1895-96 is due to the heavy outlay incurred on the preparation and collection of sleepers, most of which cannot be supplied during the year. The Provincial share is one-half.

24. *Registration.*—The budget estimate of receipts for 1895-96 was Rs. 14,00,000 against Rs. 13,56,000, the actuals of 1894-95. While framing the budget for 1895-96, it was anticipated that, notwithstanding the reduction of the minimum *ad valorem* fee on documents not exceeding Rs. 50 in value from 12 annas to 8 annas, the loss in the receipts would be recouped by an increase in the number of registrations. This expectation has not been fulfilled, as the actuals of the twelve months ending 31st January 1895 were only Rs. 13,39,000. The revised estimate has accordingly been placed at Rs. 13,40,000. The estimate for 1896-97 is Rs. 13,65,000, which includes a small receipt from fees for registering mutations under the Land Records Maintenance Act, 1895, which has recently been extended to certain thanas in North Bihar.

25. *Interest.*—The estimate of loans for 1896-97 as passed by the Government of India provides for a return of Rs. 2,67,000 under interest in 1896-97, thus:—

	Rs.
Interest on advances to cultivators	24,000
Do. on drainage and embankment advances	40,000
Do. on loans to Notabilities	5,000
Do. on loans to Municipalities and other local authorities	1,41,000
Miscellaneous including interest on Government securities in deposit for the Education Department	57,000
	2,67,000

26. *Post Office.*—The Provincial receipts consist of recoveries made from the Zamindari Dák Fund on account of establishment employed in the Post-master-General's office, and have been estimated at Rs. 5,000 for 1896-97 against Rs. 4,402, the actuals of 1894-95.

27. *Law and Justice—Courts of Law.*—The estimate of Rs. 8,80,000 is based on the average actuals of the last three years, which came to Rs. 8,68,000 in 1892-93, Rs. 8,97,000 in 1893-94, and Rs. 8,73,000 in 1894-95.

28. *Law and Justice—Jails.*—The estimate under this head is Rs. 8,58,000, and is based on the average actuals of the last five years. It is lower by Rs. 77,000 than the revised estimate for 1895-96, which included receipts on

account of very large supplies of manufactured articles to the Military Department.

29. *Police.*—The estimate under this head amounts to Rs. 2,01,000 against Rs. 2,37,000, the actuals of 1894-95. The reduction is chiefly due to the transfer of the District Chaukidari Reward Fund to Local Fund Accounts.

30. *Marine.*—The budget estimate of total receipts for 1895-96 was Rs. 9,40,000. This has been raised to Rs. 9,90,000 in the revised estimate, with reference to the actuals of the 12 months ending 31st January 1896, which amounted to Rs. 9,92,000, owing to unusually high receipts under Pilotage. The estimate for 1896-97 is Rs. 9,35,000, and is based on the average actuals of past years.

31. *Education*—The estimate under this head amounts to Rs. 5,69,000, which is based on the actuals of 1894-95.

32. *Medical.*—The estimate of Rs. 2,05,000 follows the actuals of 1894-95.

33. *Scientific and other Minor Departments.*—The estimate for 1896-97 amounts to Rs. 2,34,000 against Rs. 2,37,000, the revised estimate for 1895-96, and Rs. 2,04,000, the actuals of 1894-95. The increase over the actuals of 1894-95 is due to the increased demand for quinine in pice-packets, while the decrease, compared with the revised estimate of 1895-96, is due to lower receipts from Emigration fees.

34. *Superannuation receipts.*—The estimate of Provincial receipts for 1895-96 amounts to Rs. 68,000, and this has been raised to Rs. 70,000 both in the revised estimate for 1895-96 and in the estimate for 1896-97, with reference to the actual demands as calculated by the Accountant-General.

35. *Stationery and Printing.*—The estimate for 1896-97 has been taken at Rs. 1,32,000, with reference to the actuals of 1894-95.

36. *Miscellaneous.*—These receipts necessarily fluctuate largely. The actuals were as follows:—

	Rs.
1890-91	... 7,70,000
1891-92	... 8,36,000
1892-93	... 8,27,000
1893-94	... 8,63,000
1894-95	... 10,12,000

The estimate for 1896-97 is Rs. 8,75,000, while the revised estimate for 1895-96 is Rs. 10,21,000. The revised estimate includes Rs. 93,000, being the balance of the deposits which lapsed on the 31st March 1895, but which were not transferred to the credit of Government till 1895-96. Partition fees were unusually high in 1894-95 and in 1895-96.

37. *Railways.*—Under the terms of the Provincial contract, the Local Government has been relieved of all responsibility in the matter of railway administration, but the Province receives half the net earnings of the Eastern Bengal State Railway. The Government of India entered the Provincial share of these receipts for 1895-96 at Rs. 41,13,000 against Rs. 43,32,000, the actuals of 1894-95. For next year the estimate has been placed at Rs. 36,63,000, which may be taken as a normal figure. The high actuals of 1894-95 and 1895-96 were due to an unusually large jute crop.

38. *Irrigation.*—Receipts from Major Works are taken at the same figure as in the budget for 1895-96, as the falling off in the collections of water-rate on the Sone Canals, which is shown in the revised estimate for that year, is believed to be unlikely to recur. Under Minor Works in charge of the Public Works Department, the budget estimate of 1895-96 has been slightly raised. The decline under Minor Works in charge of Civil Officers is due mainly to the transfer of certain recoveries to the Provincial Loan Account.

39. *Civil Works.*—The estimate of Rs. 1,80,000 is the same as in the current year. The actuals of 1894-95 and the revised estimate of 1895-96 were swollen by special items of receipt.

Expenditure.

40. *Land Revenue.*—The total expenditure under Land Revenue for 1896-97 is estimated at Rs. 37,29,000 against Rs. 36,88,000, the budget grant for

1895-96. The increase is due to a special provision of Rs. 50,000 for the purchase of a sea-going steamer for the Commissioner of the Sundarbans. Larger provision has also been made for expenditure on improvements in Government estates.

41. *Salt.*—The revised estimate of expenditure for 1895-96 is Rs. 52,000 against Rs. 36,000, the budget grant for the current year, and Rs. 63,408, the actuals of the twelve months ending 30th September 1895. The latter figure includes Rs. 11,106 on account of the salary and travelling allowance of Mr. Ashton of the Northern India Salt Department, who was deputed to enquire into the illicit manufacture of salt in the saliferous tracts on the sea coast of Bengal. Excluding this amount, the normal actuals of the above period amounted to Rs. 52,302 only. The expenditure for 1896-97 is estimated at Rs. 53,000 against Rs. 36,000, the budget grant for the current year. The increase of Rs. 17,000 is due partly to the increased provision made for extra accommodation required for the storage of salt at the Kidderpore Docks, and partly to a provision for two extra clerks and four servants in Balasore. A further sum of Rs. 50,000 has been added in order to provide for a possible increase in the preventive establishment in the saliferous tracts.

42. *Stamps.*—The estimate of expenditure for 1896-97 amounts to Rs. 6,67,000 against Rs. 6,95,000, the budget estimate for the current year, and Rs. 6,52,000, the actuals of 1894-95. The fluctuations under the main heads are shown below:—

	Actuals, 1894-95.	Budget estimate, 1895-96.	Estimate, 1896-97.
	Rs.	Rs.	Rs.
Superintendence ...	80,000	86,000	90,000
Charges for the sale of general stamps	1,04,000	1,08,000	1,07,000
Charges for the sale of court-fee stamps	1,18,000	1,18,000	1,22,000
Discount on plain paper ...	15,000	14,000	15,000
Stamp paper supplied from Central Stores ...	3,35,000	3,69,000	3,33,000
Total ...	6,52,000	6,95,000	6,67,000

The increase under "Superintendence," as compared with the actuals of 1894-95, is mainly due to the provision made for the full salary of the post of the Superintendent of Stamps and Stationery, on account of the return of the permanent incumbent from furlough. In view of the increased receipts, small increases have been provided for under the heads of charges for the sale of stamps. On the other hand, a smaller expenditure is estimated for "Stamp paper supplied from Central Stores," the estimate under this head being Rs. 3,33,000 against Rs. 3,35,000, the actuals of 1894-95.

43. *Excise.*—The following table compares the estimate for 1896-97 with the budget estimate for 1895-96:—

Heads of expenditure.	Budget esimate, 1895-96.	Budget estimate, 1896-97.
	Rs.	Rs.
Superintendence ...	70,000	69,000
Presidency Establishment	92,000	94,000
District Executive Establishment ...	3,41,000	3,70,000
Distilleries	1,61,000	1,78,000
Total ...	6,64,000	7,11,000

A sum of Rs. 10,000 has been provided under District Establishment for the supply of uniforms to the Excise Detective Staff, and a further sum of

Rs. 10,000 has been provisionally entered with reference to possible changes in the method of taxing tari in certain districts. The estimate also includes a larger provision for the payment of rewards to informers.

Under "Distilleries" the estimate for construction and repairs of distillery buildings has been raised from Rs. 27,000 in 1895-96 to Rs. 30,000 for 1896-97 in view of probable requirements, as reported by the Excise Commissioner. This grant is, however, exclusive of the cost of reconstructing the vat and still sheds of the Russa Distillery, estimated at Rs. 24,000, for which provision has been made under Civil Works.

44. *Provincial Rates.*—The Provincial expenditure for 1896-97 has been estimated at Rs. 85,000, the same as the actuals of 1894-95 and the grant for the current year. Provision has been made for revaluations in Midnapore, the 24-Parganas, Khulna, Jessore, Rangpur, Dinajpur, Bogra, Dacca, Backergunge, Faridpur, Mymensingh, Tippera, Noakhali, Patna, Gaya, Muzaffarpur, Shahabad, Bhagalpur, Monghyr, and Purnea.

45. *Customs.*—The expenditure for the year 1896-97 is estimated at Rs. 8,02,000 against Rs. 8,55,000, the budget estimate for 1895-96, and Rs. 6,46,749, the actuals for 1894-95. The following table shows the heads under which this sum is distributed:—

	Actuals, 1894-95.	Budget estimate, 1895-96.	Estimate for 1896-97.
1	2	3	4
	Rs.	Rs.	Rs.
Calcutta	6,05,912	8,12,640	7,54,964
Balasore	4,640	4,900	6,700
Chittagong	26,648	27,800	30,410
Cuttack	7,247	7,500	7,636
Dacca	679	720	830
Puri	1,623	1,440	1,460
Total ...	6,46,749	8,55,000	8,02,000

The comparatively low actuals of 1894-95 are mainly due to the fact that the orders of the Government of India sanctioning increased pay to certain officers of the Customs establishment were held in abeyance pending confirmation by he Secretary of State.

Calcutta.—The estimate on account of salaries and establishment for the Calcutta Custom House is based on the scale of establishment recently sanctioned by the Government of India since the passing of the Tariff Acts of 1894.

Balasore.—Up to a recent date a Sub-Deputy Collector was the Customs Officer, Chandballi, on his grade pay, no part of which was charged to the Customs Department. The posts of the Port Officer and Customs Officer of the place have been amalgamated with effect from 1st November 1895, and the salary of the combined appointment has been fixed at Rs. 300 a month, which is divided equally between the Customs and the Port Fund. A provision of Rs. (150×12)=1,800 has accordingly been made under the head "Collector's establishment."

Chittagong.—A provision of Rs. 2,400 has been made for an additional establishment costing Rs. 200 a month, consequent on the increase of work caused by the passing of the Tariff Acts of 1894.

46. *Registration.*—The estimate for 1896-97 is Rs. 8,59,000 against Rs. 8,05,000, the actuals of 1894-95. The increase is due chiefly to a provision made for higher salaries drawn by the Inspectors and to larger expenditure on allowances to Sub-Registrars consequent on the intended opening of six new offices in the districts of Muzaffarpur and Champaran for the maintenance of Land Records under Act III (B.C.) of 1895.

47. *Interest.*—The following table exhibits the amount payable during 1896-97, in accordance with the Loans estimate passed by the Government of India:—

	Opening balance.	Net outgoing.	Closing balance.	Mean balance.	Interest at 4 per cent.	Estimate for 1896-97, in round numbers.
1	2	3	4	5	6	7
1896-97	Rs. 54,61,111	Rs. Rs. Rs. 14,23,000 — 5,42,000 = 8,80,000	Rs. 63,41,111	Rs. 59,01,111	Rs. 2,36,044	Rs. 2,36,000

48. *Administration.*—The estimate under this head amounts to Rs. 17,09,000 against Rs. 17,36,000, the revised estimate for 1895-96, and Rs. 17,21,000, the actuals of 1894-95. The increase in the revised estimate over the actuals of 1894-95 is due to the adjustment of the salaries and contingencies of the Secretariat Book Depôt under the head of Civil Secretariat, to which it has been transferred from the Secretariat Press; while the decrease in 1896-97 is due to a reduction in the charges for exchange compensation allowance.

49. *Law and Justice—Courts of Law.*—The original estimate of expenditure for 1896-97 as passed by this Government amounted to Rs. 90.40,000 against Rs. 89,10,380, the actuals for 1894-95, and Rs. 89,55,267, the actuals of twelve months ending 30th September 1895.

The following table shows the distribution of the figures under the minor heads:—

Heads.	Original estimate for 1896-97, passed by the Local Government.	Estimate for 1896-97, passed by the Government of India.
	Rs.	Rs.
High Court	11,85,000	11,74,000
Law Officers	3,13,200	3,11,000

The estimate has been reduced by the Government of India to Rs. 89,81,000, with reference to the rise in the rate of exchange and the consequent reduction in the charges for compensation.

50. *Jails.*—The estimate of total expenditure for 1896-97 has been placed at Rs. 22,36,000 against Rs. 21,47,000, the sanctioned grant for 1895-96, and Rs. 20,07,528, the actuals for 1894-95.

The increase in 1896-97 over the grants for 1895-96 occurs chiefly under the heads of "Establishment," "Dietary Charges," "Hospital Charges," "Bedding and Clothing of Prisoners," "Sanitation Charges," "Charges for moving Prisoners," and "Extraordinary Charges for Livestock." An increase is anticipated under all the heads except "Miscellaneous Services and Supplies" and "Jail Manufactures." The increase under "Establishment" is due to increments to salaries, provision for the salaries of four additional Deputy Superintendents of Subsidiary Jails, increased pay of compounders and of female warders of Central

Jails, and to the local allowance for warders in the Orissa Division, sanctioned in Government order No. 2435P., dated 23rd August 1895. Provisions of Rs. 15,000 and Rs. 11,000 have, for the first time, been made in this budget for "Sanitation Charges" and "Extraordinary Charges for Livestock." Against these increases, there are decreases, chiefly under "Jail Manufactures."

51. *Police.*—The following table compares the estimate of expenditure for 1896-97 as originally passed by this Government with the sanctioned grant for 1895-96 :—

Under head (1), Presidency Police, the estimate passed by the Local Government for 1896-97 is higher than the budget estimate for 1895-96 by Rs. 6,528. A portion of this increase is due to a provision made for the entertainment of twenty-four additional constables and three corporals at an estimated cost of Rs. 3,840.

The grant under (2), Municipal Police, has been raised from Rs, 37,000 to Rs. 45,000, in order to relieve the Howrah Municipality of police charges to the extent of Rs. 8,000.

The employment of an additional force, consisting of one Inspector, five head-constables, and twenty-six constables, has been sanctioned in Government order No. 5789J., dated the 16th December 1895, for duties in connection with the mills on the left bank of the river Hooghly : Rs. 6,456 on this account has accordingly been provided under head (4), District Executive Force, which also includes an increased allotment of Rs. 28,200 for the substitution of Sub-Inspectors for Head-Constables as investigating officers, in accordance with the recommendations of the Police Commission, and larger grants for petty construction.

The total estimate has been reduced by the Government of India to Rs. 60,40,000, in consequence of the payments from the District Chaukidari Reward Fund having been transferred from Provincial to Local Accounts, and with reference to the rise in exchange.

52. *Marine.*—The estimate of expenditure for 1896-97 is Rs. 9,21,000 against Rs. 8,91,000, the sanctioned estimate for 1895-96. The increase is due to a provision having been made for repairs of the *Rhotas* and to a larger grant for contributions to meet deficits of Port Funds.

53. *Education.*—The grant for expenditure under the direct control of the Education Department was Rs. 26,72,000 in the budget estimate for 1895-96. This was reduced to Rs. 26,15,000 in the revised estimate, partly by the transfer of Rs. 31,000 to District Boards for grants-in-aid of Primary Education, and partly by reductions under salaries in Government Colleges.

The estimate for 1896-97 provides for an increase of Rs. 1,61,000 over the revised estimate, including the following items:—

(1) an addition of Rs. 40,000 to the grant for the Civil Engineering College at Sibpur so as to provide for the opening of an agricultural class (Rs. 10,000), for the practical training of mining students (Rs. 1,000), and for apparatus required in connection with the course of lectures on mining (Rs. 29,000);

(2) a larger provision for rewards to *gurus* and boarding charges;

(3) a provision of Rs. 20,000 for the training of teachers;

(4) a larger provision under grants-in-aid;

(5) a grant for a kerosine engine for the Presidency College.

54. *Medical.*—The estimate for 1896-97 amounts to Rs. 19,63,000, against Rs. 18,19,000, the sanctioned estimate for 1895-96. The increase of Rs. 1,44,000 is due to a larger provision having been made for the renewal of bedding, clothing and instruments in the Calcutta hospitals (Rs. 64,000), to grants of Rs. 23,500 for the Bhawanipur Hospital, which will be opened in 1896-97, and of Rs. 13,684 for the Leper Asylum, and to additional grants in aid of hospitals and dispensaries.

55. *Scientific and other Minor Departments.*—The estimate for 1896-97 is Rs. 4,49,000 against Rs. 4,23,000, the actuals of 1894-95, and Rs. 5,34,000, the revised estimate for the year. The revised estimate includes the following special expenditure:—

	Rs.
(i) For temporary establishment required on account of the extension of the cinchona plantation at Mangpu ...	6,500
(ii) Purchase of cinchona bark from Messrs. Kilburn & Co. ...	34,000
(iii) Grant to the Buddhist Text Society, by transfer from the Education Budget	2,000
(iv) Cost of taking casts of Asoka's inscriptions	8,000
(v) Inspection of Explosives	2,000
(vi) Garden improvements, Royal Botanic Garden, Calcutta ...	3,000
(vii) Purchase of sulphate of quinine from Madras	21,000
(viii) Purchase of Nimbong plantation	71,000
Total ...	1,47,500

The budget estimates for 1896-97 also includes Rs. 50,000 for the purchase of cinchona bark.

56. *Stationery and Printing.*—The estimate for 1896-97 is Rs. 12,22,000 against Rs. 12,28,000, the revised estimates for 1895-96, and Rs. 11,23,000, the actuals of 1894-95. The fluctuations are chiefly in the value of Stationery supplied from Central Stores.

57. *Miscellaneous.*—The estimate for 1896-97 is Rs. 2,47,000 against Rs. 2,50,000, the revised estimate for 1895-96, and Rs. 2,29,000, the actuals of 1894-95. The increase in the revised estimate is caused by the payment of Rs. 24,000 towards the cost of the land for the Leper Asylum at Gobra, while that in the estimate for 1896-97 is due to a lump provision of Rs. 10,000 which has been made for special commissions of enquiry.

58. *Minor Irrigation and Navigation Works in charge of Public Works Department.*—The increased grant under this head is chiefly for improvements of the Bhangore Khal, for which Rs. 3,50,000 have been provided.

59. *Civil Works in charge of Public Works Department.*—The allotment under this head includes the following special grants for original works:—

THE BENGAL LOCAL SELF-GOVERNMENT ACT, 1885, AMENDMENT BILL.

The Hon'ble Mr. Risley moved for leave to introduce a Bill to amend the Bengal Local Self-Government Act of 1885. He said:—

"The measure is a short and simple one, and I have little to add to the Statement of Objects and Reasons before the Council. The immediate object of the Bill is, as is there stated, to enable District Boards to spend the funds at their disposal on veterinary purposes, that is to say, on the establishment of dispensaries for the treatment of the diseases of cattle, horses and other animals, on the employment of duly qualified Veterinary Assistants in the district, and also on creating scholarships to be held at the Bengal Veterinary College at Belgatchia, which was founded some three years ago. This forms part of a large scheme initiated by the Government of India with the object of dealing with the prevention of cattle disease throughout India. Measures have been taken in each province in this direction. In Bombay a considerable number of District Boards have established veterinary dispensaries; and I believe the same has been done in the Panjab. The general idea is to have Veterinary Assistants, somewhat on the lines of the Medical Civil Hospital Assistants, who would, as a rule, be employed by Local Boards, the supervising staffs being paid from Provincial Revenues. I stated that in Bombay considerable action has been taken, and there has been no lack of interest in our Boards as well. Six Boards have sanctioned scholarships and stipends at Belgatchia, and sixteen Boards have expressed the desire to offer employment to Veterinary Assistants. It was held, however, doubtful whether it is within the legal powers of local bodies generally, and of District Boards in particular, to spend funds for this purpose, and in communication with the Government of India, it has been decided to amend the Bengal Local Self-Government Act and to bring it into line with the Local Self-Government Acts of other Provinces in this respect, to enable the Imperial scheme to be carried out and District Boards to take the necessary action. The sections of the Bill which give effect to these proposals are sections 8 and 10.

"It is further proposed to take advantage of the Act coming under amendment to remove certain defects which the experience of the last ten years has brought to notice. There are but few of such defects, for on the whole the Act has worked remarkably well. It happens, however, that the defects are more conspicuous in the complicated provisions of the Act, which deal with the constitution of District and Local Boards. Section 10 of the Act expressly lays down that if within a certain time two-thirds of the members of a Local Board are not appointed by the persons entitled to vote, the Local Government may step in and cure the defect by appointment, but the more important case in which the members of a Local Board, acting under section 7, make default in electing their representatives on the District Board is not met by the Act at all.

The case which I have mentioned is absolutely omitted, and it is now proposed to amend the defect. Again, section 19, which deals with casual vacancies—bye-elections—occurring among District and Local Boards, and further, sections 23, 26 and 29, which define the procedure to be followed in original and bye-elections of Chairmen and Vice-Chairmen, are also defective in the same respect. It was thought that these defects might be got over by rules framed under the Act, but it has been held that such rules would be *ultra vires* to deal with these particular defects in that form. Sections 2 to 8 of the Bill supply these omissions. They provide that whenever an election of a member, Chairman or Vice-Chairman is not held within the prescribed time, as laid down by rule by the Local Government, the Lieutenant-Governor may intervene to fill the vacancy by appointment. The opportunity has also been taken to supply an omission, in the rule-making section, which has been brought to notice in a recent case. Section 11 of the Bill gives power to the Local Government to determine the authority who shall decide disputes which arise with reference to elections under the Act. It follows exactly the precedent furnished by the last amendment of the Bengal Municipal Act. The next point which the Bill deals with is that of empowering District Boards to spend money on the training, by means of scholarships and stipends, of medical practitioners, and especially female medical practitioners, and within it is included the training of veterinary practitioners; and in point of fact, certain District Boards have spent money on such purposes. The desirability of conferring such power has been admitted for a long time past, and has only been deferred pending an opportunity for amending the Act. The precedent which has been followed is section 95 of the Madras District Boards Act, V of 1884. Section 9 of the Bill also contains a provision empowering District Boards to spend money on the promotion of free vaccination. The system of vaccination ordinarily prevalent in Bengal is known as licensed vaccination. A number of vaccinators are licensed, and are empowered to charge fees, but in some districts the system has been found not to work well, and there District Boards have found it desirable to appoint selected men to go about vaccinating people free of charge. This has been done, to some extent, successfully in the districts of Dacca and Chittagong, where there are special difficulties in the way of the system of licensed vaccination. The defect in the Act was brought to notice by the Commissioners of those Divisions, who urged that sections 92 to 96 of the Act should be extended, so as to legalise the action taken by the District Boards. On a reference, however, to the Law Officers, it was found that the effect of this proposal would be to bring into force the system of compulsory vaccination, which was utterly unsuited to rural areas. The amendment has the object of legalising the action already taken in some places, and also of enabling Local Boards to devote a portion of their funds to providing free vaccination in districts where the licensed system is difficult to work."

The Motion was put and agreed to.

THE BENGAL MUNICIPAL ACT, 1884, AMENDMENT BILL.

The Hon'ble MR. RISLEY also moved for leave to introduce a Bill to further amend the Bengal Municipal Act, 1884. He said:—

"This also is a small measure and a very simple one. The main object which has given rise to it is the same as I have explained, with reference to the amendment of the Local Self-Government Act. It is proposed to enable Municipal Commissioners in Bengal to devote a portion of their funds to veterinary purposes. In point of fact one municipality has already done so, and as a matter of form it is desirable that their action should be legalised. The provisions necessary for this purpose are embodied in section 5 of the Bill, and, as in the case of the other Bill, it is proposed to take advantage of the opportunity for amendment to remove two flaws in the Act, which was passed in 1894 for the amendment of the Bengal Municipal Act. It seems that when the amending Bill was passed, these defects escaped observation, and one of them at any rate calls for immediate correction. One of these defects consists in the fact that section 53 of the Act, as amended by Act IV of 1894, is

extremely obscure as to its meaning. The amendment in question was, I believe, introduced towards the end of the discussions in Select Committee and shortly before the final passing of the Bill. I have had the advantage of discussing the clause with the Hon'ble Member who introduced it, and with another Hon'ble Member who was also a member of the Select Committee, and I think I understand what was intended. It confers the occupancy franchise for municipal purposes on all persons who hold appointments and receive salaries of not less than Rs. 50 a month, and the section, as now drafted, does that simply, and is not complicated by the conditions now embodied in the Act. The clause thus amended will create what may be described as a lodger franchise, the receipt of a salary of Rs. 50 a month being taken as a guarantee of respectability. The general municipal elections in Bengal will take place in October next, and it is extremely desirable that all doubts should be removed, so that persons who are entitled to vote should be enabled to vote in that election, and I believe the clause will have that effect. Another oversight which also requires correction is found in section 37 (*l*) of the Act. It forms part of the procedure for compelling a municipality, under certain circumstances, to provide themselves with a water-supply, and it enacts that when that procedure is resorted to, the ordinary procedure relating to water-supply should of itself take effect. The ordinary procedure, I may explain, is that when a municipality applies for the extension of Part VII of the Act, it becomes the duty of the Commissioners to levy a water-rate. Obviously when the compulsory procedure is applied, the Commissioners would be reluctant to levy a water-rate. The first draft of section 37 (*l*) contained the words 'under the last preceding section,' but for some reason those words were omitted in the final draft, and the result is that the ordinary procedure for introducing a water-rate has been rendered inoperative and thrown out of gear. The Bill proposes to insert the words 'under the last preceding section' and thereby to limit the effect of that section to the cases to which it was intended to apply. The ordinary procedure is that a water-rate is introduced on the Commissioners applying for the extension of Part VII of the Act, and that procedure remains as it stands in the Act.

"By the last section of the Bill (section 5) a provision is inserted which will enable a municipality of its own choice to spend money on the training and employment of medical and veterinary practitioners. One municipality has, in point of fact, as I said just now, spent money on the training of certain veterinary students, and it is desirable that their action should be legalised."

The Motion was put and agreed to.

The Council adjourned to Saturday, the 4th April, 1896.

NOTIFICATION.

THE following rules framed by the Board of Revenue, Lower Provinces, under section 100 of the Sea Customs Act, VIII of 1878, with the approval of Government, are published for general information:—

OPERATIONS ON GOODS IN A WAREHOUSE.

1. Before any operation is performed in a warehouse, an application, stating the exact nature of the proposed operation, must be made to the Collector of Customs.

2. The officer of Customs deputed will compare the marks in the application with those on the goods, and ascertain the actual quantity of the goods prior to the operation, and record the same.

3. When the operation is completed, the officer will ascertain the quantities, and record and sign the new account of the goods.

Racking and vatting.

4. Racking from cask to cask may be performed in a warehouse, and casks in bad condition may have their contents racked out into sound casks.

5. Empty casks must be properly drained before removal from a warehouse.

6. The operation of putting wines or spirits together in a vat may only be performed in a compartment of a warehouse fitted and used for that purpose only, unless the vat is a close covered vessel which has been accurately gauged, and of which the hatch and discharge cock can be secured by locks, the keys of which will remain with the bonding department.

7. Vats must be distinctly marked with their numbers and capacity in gallons. The strength of spirits taken from a vat is to be ascertained by a sample from each cask.

8. After any spirits have been racked from a vat, the remainder must be drawn off before any more spirits are put into the vat.

Rules for the blending of spirits or wines in bond or the reduction of strength of spirits by water.

9. Applications for permission to blend spirits or wines in bond or reduce for exportation the strength of such spirits by water in the same warehouse are to be presented to the Collector of Customs.

10. Each application must contain a full description of the spirits or wine to be mixed or reduced, and must be accompanied by a fee at the rate of Rs. 7 per diem, to cover the pay of an officer of Customs, to be deputed by the Collector, in whose presence the blending or reduction of strength must be effected. The Collector may at his discretion accept the fee for half a day at the above rate.

11. Spirits in casks may be reduced with water for exportation only. Spirits so reduced are inadmissible for home consumption. When water is to be added so much spirit may be drawn off from each cask as is required to make room for the purpose. The overdrawings, if more than 9 gallons, may be rewarehoused, and if less than the quantity specified, they must either be used in another operation or cleared on payment of duty.

12. The amount of liquor drawn from each cask for the purpose of blending or reducing the strength will be shown as cleared or exported on the original bond. If any deficiency be found on emptying a cask, duty thereon will at once be levied under section 116, but allowance under section 117 for such deficiency, or any portion of it, may be subsequently made by the Chief Customs Authority, if sufficient grounds exist.

13. The blend, when effected, will be retested and regauged, and a fresh bond will be made out for the duty found leviable thereon.

14. For the purpose of calculating the period of three years under section 103, and the allowances for ullage and wastage under section 116, the date of the new bond will be taken to be the date on which the earliest of the bonds relating to any of the spirits in the operation was executed.

15. The spirits or wines blended must be the produce and manufacture of the same country.

16. The words "blend" or "reduced by water," must be cut into or indelibly marked on the vat or cask containing the blended spirits or wines, or spirits reduced in strength. Original marks and brands must be removed, unless all the spirits or wines be of the same mark.

17. Wines and spirits may only be bottled from casks *in a bottling warehouse*. No other operation may be performed in such warehouse at the same time.

18. Wines and spirits intended for bottling must be removed from the warehouse to a bottling warehouse in presence of a Customs Officer.

19. Bottles must be packed immediately after filling. Each package must contain a dozen, or multiple of a dozen, of quarts or pints, and the bottles in each package must be of uniform size.

20. The officer deputed must record in his bottling book the number of bottles filled before they are packed; the bottles must then be packed without unnecessary delay. The officer is to satisfy himself that the proper number of bottles are placed in each case, and see that packed cases are at once closed and fastened.

21. The bonding officer will have the key of the door of the bottling warehouse.

22. The officer must see that in the labelling and corking of bottles, the provisions of the Merchandise Marks Act are observed.

23. Wines and spirits in bottle may, if it be necessary, be started into casks.

24. Wines and spirits imported in cases may, if it be necessary, be adjusted and repacked, but not more than once while in bond. Labels and capsules may be renewed, but not changed for others not identical in terms.

25. Samples may, with the previous sanction of the Collector, be drawn from any case or cask, whether in the Bonded Warehouse or in the warehouse for operations on wet goods in bond, a note being kept on the bond or Customs documents denoting the quantity so drawn.

26. Spirits may be methylated in a warehouse. The spirits are to be gauged and the strength ascertained prior to the operation; deficiency not exceeding legal allowance may be written off.

27. After methylation, a sample must be drawn off and sent for the usual report to the Chemical Examiner.

The notification dated 11th July 1895, and published at pages 678 and 679, Part I of the *Calcutta Gazette* of the 17th idem, is hereby cancelled.

28. These rules will come into force with effect from the 10th April 1896.

N.B.—All applications under the above rules must, under Schedule II, 1 (a) of the Court Fees Act, bear a stamp of one anna.

NOTIFICATION.

THE TRAINING OF TEACHERS FOR ENGLISH SECONDARY SCHOOLS.

HITHERTO the course of instruction in Normal or Training Schools in Bengal has been vernacular only; the object of these institutions having been to turn out a supply of teachers for middle schools, in all of which, whether middle English or middle vernacular, the system of instruction is on a vernacular basis and all subjects are taught through the vernacular. A new departure in this respect has now been sanctioned. Under the orders of Government, classes for the training of English teachers for high and middle English schools will be opened in June next, after the close of the summer vacation, in the Training Schools at Calcutta, Hooghly, Dacca, Patna, and Cuttack; and teachers' certificates of three grades will be issued to successful candidates after examination in the principles and practice of teaching. In the Educational Estimates for 1896-97 provision has been made for the necessary outlay, including the appointment of a qualified teacher on Rs. 100 a month in each of the five schools mentioned.

2. The certificates to be issued to candidates will be of three grades:—

(*a*) Candidates for the third or lowest grade certificate will be required to have passed the Entrance Examination, and will be admitted to a course of one year's

duration in the Training School which they may select. During the course they will be instructed in the theory and practice of teaching, the necessary practice being given in the middle English school attached to the Training School. The examination for the certificate, theoretical and practical, will be held at the close of the year.

(*b*) Candidates for the second-grade teachership should have passed the First Arts Examination, and will be required to go through a course of study for one year, and to pass an examination, corresponding to those prescribed for the third-grade certificate.

(*c*) Candidates for the first-grade certificate should have passed the B.A. Examination. They will not for the present be required to go through a preliminary course of study at the Training School; but the certificate will be issued after an examination in the principles and practice of teaching.

3. In default of qualified candidates who have passed the Entrance, First Arts, or B.A. Examination, candidates may be accepted who have failed in not more than one subject at either examination, provided they have passed in English.

4. The subjects to be included in the course or standard of examination will be:—general principles and methods of the art of teaching, with applications to particular subjects; moral and physical training; the maintenance of school discipline; and the details of school management.

5. Thirty stipends of Rs. 6 a month will be awarded by the Circle Inspector, on the recommendation of the Head Master, to qualified candidates for the second and third-grade teachership classes at the Calcutta, Hooghly, and Dacca Training Schools, 15 stipends being allowed to each class. At the Patna and Cuttack Training Schools there will be 10 scholarships of the like value for each class, or 20 in all. Some of the stipends will be reserved for Muhammadans, if there are qualified candidates of that creed.

6. It has been stated above that candidates for second and third-grade certificates will be required to pass through the Training School course. Exceptions will, however, be made in favour of persons who have served with credit as teachers for three years or upwards, who will be allowed to compete, without passing through a Training School, for the grade of certificate corresponding to their academical standing. A teacher who has held a certificate of a certain grade with credit for five years will also be allowed to compete for the next higher grade of certificate, if his capacity as a teacher is certified as satisfactory by the Inspector of Schools.

7. Candidates for admission to the new certificate classes should apply to the Head Master of the school which they select, not later than the 15th May. The first examination for certificates will be held in April 1897. Details of the course and standards of examination will be published hereafter.

8. If, as is hoped, the necessary accommodation can be found for them, students of these classes will be required, like other students of the Training School, to reside on the premises under the ordinary rules as to discipline.

9. If all the stipends are taken up and all the stipend-holders pass the examinations 130 teachers' certificates will be issued annually, in addition to those which may be issued to candidates of various classes who do not read in the Training Schools or who do not hold stipends therein. The orders of Government are, that in the case of all new appointments, whether in schools under public management, or in aided or unaided schools, preference shall in future be given to the holders of teachership certificates. Managers of aided schools who neglect to comply with this rule will render themselves liable to the loss of their grant; and similarly, managers of unaided schools to the deprivation of the right of competing for Government scholarships.

PART IV.

Bills of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

THE following Report of the Select Committee, together with the Bill as amended by them, is, by order of the President, published for general information :—

REPORT OF THE SELECT COMMITTEE.

WE, the Members of the Select Committee appointed to consider the Bill to provide for the protection of Muhammadan Pilgrims, have the honour to submit the following report:—

Letter from Commissioner of Police, Calcutta, No. 2628, dated Calcutta, the 13th March, 1896.
Letter from Honorary Secretary to the Muhammadan Literary Society, dated Calcutta, the 18th March, 1896.
Letter from Honorary Secretary, Central National Muhammadan Association, No. 229, dated Calcutta, the 18th March, 1896.

2. We have considered the marginally noted reports on the Bill.

3. We have recast the form of the Bill so as to enable it to be extended more easily to other places than Calcutta.

4. The expression "Calcutta" is declared to mean not only the area of Calcutta as defined in the Calcutta Municipal Act, but also the Port of Calcutta. This is necessary in order to leave no room for doubt in regard to the jurisdiction of the Protector of Pilgrims under the Bill. The similar Act for Bombay is declared to extend to the Ports of Bombay and Karachi, and we think there should be no room for misunderstanding in regard to the corresponding expression in this Bill.

5. We have reduced the maximum penalty which may be imposed for offences under the Bill from five hundred rupees to two hundred rupees for each offence.

6. We have provided that the Local Government may from time to time make rules to regulate the grant of licenses to act as pilgrim brokers, and to prescribe the conditions to be embodied in such licenses.

7. The expediency of retaining clause (*e*) in section 6 of the Bill, which prohibits the receipt by a pilgrim broker of any fee or commission exceeding five per cent. of the price of a passage ticket for a pilgrim, has been under our consideration, and, after consulting the Commissioner of Police in Bombay, we have decided to retain the clause in order to maintain a check over the brokers. We trust that, under the operation of this Bill when it becomes law, the number of pilgrim brokers will be materially reduced, and we think that if there are a few brokers only doing a comparatively large business the amount of commission proposed is not insufficient.

8. We have made many verbal changes in the Bill to which it is not necessary to refer, and recommend that the Bill as now revised be passed.

The opportunity has been taken to remove certain omissions in the sections of the Act which deal with the original elections of members of District and Local Boards, the election of Chairmen and Vice-Chairmen, and the filling of casual vacancies in such Boards and offices; and a clause has been inserted in section 138 empowering Government to prescribe by what authority disputes relating to elections shall be decided. Provisions have also been added empowering District Boards to spend money on the training and employment of medical and veterinary practitioners and the promotion of free vaccination.

INSPECTION REPORT OF THE SANITARY COMMISIONER, BENGAL, ON THE DARBHANGA MUNICIPALITY.

MUNICIPAL DEPARTMENT.—MUNICIPAL.

The 7th April 1896.

RESOLUTION—No. 1437M.

THE Lieutenant-Governor directs the publication of the Inspection Report of the Sanitary Commissioner, Bengal, on the town of Darbhanga, for general information. His Honour is of opinion that the Commissioners must seriously set to work to improve their conservancy arrangements and the slaughter-house, and to provide the town with a supply of filtered water.

H. H. RISLEY,

Secy. to the Govt. of Bengal.

INSPECTION REPORT OF THE SANITARY COMMISSIONER FOR BENGAL ON THE DARBHANGA MUNICIPALITY.

I INSPECTED this town on the 24th, 25th and 27th February 1896. It is a straggling city occupying an area of about 6 square miles. The population is 73,561, about 10 per cent. of whom are rate-payers. The income of the Municipality during the last official year (1894-95) was Rs. 41,835, including an opening balance of Rs. 60, and the expenditure was Rs. 29,800, so that the

year closed with the large balance of Rs. 12,035. There are 22 Municipal Commissioners, 8 of whom are nominated by Government and 14 are elected by the people. Of the total, 4 are Europeans and 18 natives. There are 4 Government officials on the Municipal Board, 5 zamindars, 3 pleaders, 1 merchant, 1 medical practitioner, and 8 residents who have no specified occupation or profession. The town is divided into 7 wards, and there is a Committee of Municipal Commissioners in charge of each, whose duty it is to attend to the requirements of the areas for which they are supposed to be responsible, and to satisfy themselves by regular personal inspection that the paid establishment is doing its work, and that the ward generally is kept in a sanitary condition.

2. *Conservancy.*—The last time Darbhanga was visited by the Sanitary Commissioner was in November 1890, when Dr. Gregg, after an inspection, in company with the then Vice-Chairman and Civil Surgeon, expressed himself satisfied with the conservancy arrangements. If by this was meant the sanitary condition of the roads, I am with him, for the thoroughfares are certainly regularly and well swept. The practice of employing *mehtar* boys principally on work of this nature is a good one, as they are more amenable to discipline than adult sweepers seem to be. Dr. Gregg also seems to have been fairly well satisfied with the arrangements in connection with the public latrines, though he pointed out that as they were constructed of bricks, which were porous, they could never be kept in a very satisfactory condition. I cannot understand how my predecessor could have been even tolerably satisfied with the latrine arrangements of this town, unless they were then very much better than they are now, which it is difficult to realize, as their present condition seems to be the result of the neglect of many years. Nowhere have I seen such insanitary and disgustingly filthy public latrines as there are in Darbhanga. In the first place, the principle of them is utterly and radically wrong, and it is clear that they are neither thoroughly nor regularly cleaned. Being built of material which is porous, they are saturated with the impurities of years, and their surroundings also are in a disgustingly filthy condition, while the latrines themselves are for the most part roofless and in a generally dilapidated condition. The worst are the Raj market latrine, which is actually allowed to discharge its filthy contents into the adjoining shallow river from which the people of the locality obtain their drinking water-supply (!), the Golobara latrine, and the Naya bazar latrine. The atmosphere around these is so sickening that I had to hurry away from them as soon as possible. These latrines are by no means the only insanitary ones: the numerous others which I have not specially mentioned are just as bad, and nearly all of them are situated on the banks of tanks from which, although the municipal staff deny it, there is evidence to show that the people of the locality draw their supplies of water for drinking and culinary purposes. In short, the public latrines of Darbhanga are a standing disgrace to the municipal administration, and the sooner they are dismantled and more suitable iron structures substituted, the better it will be for the health and convenience of the people. There is no necessity to provide such expensive latrines as Horbury's patent, as recommended by my predecessor. Mr. Donaldson, of the Presidency Jail, Calcutta, has recently patented a latrine which is much cheaper than Horbury's and more suitable for the requirements of mufassal towns. The great fault of Horbury's and similar latrines on the combination system (by which both the solids and the liquids descend into one receptacle) lies in the very natural objection which natives have to squat over a pail from which splashing may result. Mr. Donaldson's patent separates the liquids from the solids, and there can be little doubt that a system on these lines is best for general use. Mr. Donaldson has accomplished this by employing a platform designed so that the solids descend into one receptacle while the liquids flow away into another. This specially designed platform also admits of the user performing the necessary ablution on the spot. All that is necessary are a couple of tarred *gumlas* underneath each platform, one in front for the urine and the other behind the fœces; better still, the platform can be provided with a *gumla* for the solids, and a long trough running under the seats for the conveyance of urine and washings into a suitable receptacle at the end of the drain. In other respects, *i.e.*, in the outward appearance, Donaldson's patent, as recently

modified in accordance with some suggestions made by me, is not unlike the Horbury's latrine recently put up in the vicinity of the Civil Courts at Laheria Serai, except that it has the advantage of more ventilation, and, for the sake of cheapness, a mat *purda* screen in front instead of an iron one. I enclose a copy of the plan of Donaldson's latrine in the hope that the Municipality will purchase some of them without delay. The price of a six-seated Donaldson's latrine is Rs. 160, which is less than half the cost of a Horbury's latrine of the same size. Further particulars regarding Donaldson's latrine can be had from his agent, Mr. A. W. MacLeod, of 31, Dalhousie Square South, Calcutta.

3. *Private latrines.*—With regard to private latrines, Dr. Gregg pointed out that only about a fourth of the population had them, the majority of the inhabitants resorting to neighbouring fields and gardens for purposes of nature. This system of promiscuous defœcation, he told the Municipality, could not but be prejudical to the health of the people, and he advised the former to provide more public latrines and to bring the private privies under their control by introducing Part IX of the Municipal Act into the town. Nothing, I am sorry to say, has, during the 5½ years which have since elapsed, been done in this important direction, although I see from the municipal office records that the Civil Surgeon also has from time to time done his best to induce the Municipal Commissioners to introduce this much-needed sanitary reform. Their excuse that it will "expose family privacy" and impose "additional taxation which the people will not be able to bear" is idle and futile, and I can only express my astonishment that an intelligent body of men, like the Municipal Commissioners of Darbhanga claim to be, should continue to trifle and temporise with such an important matter in this manner. The vital statistics of the town show that the health of the people is far from being satisfactory. The mortality of 1891 was 24·18; of 1892, 41·32; of 1893, 32·54; of 1894, 39·11; and of 1895, which was an exceptionally healthy year, 33·67, per thousand of the population. Doubtless a great portion of this may be ascribed to the better registration of vital statistics, but it cannot account for the whole of the high mortality, a portion of which, I have no doubt, is due to the obvious evil of promiscuous defœcation and the insufficient and irregular removal of the night-soil from the public and private latrines. Under the circumstances, it is imperatively necessary that more public latrines should be provided, and that Part IX of the Municipal Act should be introduced without further delay—at first in the most crowded wards, and afterwards to the rest of the Municipality gradually. If the Commissioners still resist, it will be my duty, in the interest of the health of the town, to bring the matter specially to the notice of the Government. I hope, therefore, that they will save me from the unpleasantness of doing this by complying with the above recommendation by an early date.

4. *Urinals.*—The urinals I saw were very unsatisfactory. They consist of a mere partition with no receptacle for the urine, which consequently saturates the ground and causes an unpleasant smell in the locality. When funds permit, Donaldson's patent urinal, which has been designed in accordance with suggestions made by me, should be introduced. I will send the Municipality a plan as soon as it is lithographed.

5. *Trenching-grounds.*—In connection with latrines is the disposal of night-soil in trenching grounds. The present system of trenching is far too deep, the trenches being dug 20 feet long by 2 feet broad and 4 feet deep. As a consequence of this deep method of trenching, the humification of the fœces is very much delayed, which is the principal reason why cropping has not hitherto been attended with the success anticipated. It is the top of the soil which destroys and assimilates organic matter, not the subsoil, which has no such power. Deep burial is therefore obviously a mistake, for instead of humifying the fœces, it tends to ensure its preservation, and further endangers any well water supply there may be in the locality. Under these natural circumstances, I advocate the importance of superficial burial of night-soil instead of the present deep method. Trenches 3 to 4 inches only should be dug, the soil for about a foot below this being loosened so as to allow the liquid portion of the fœcal matter to percolate and enrich the subsoil. The process is extremely simple. The scavenger has only to dig a trench or furrow up to four

feet wide, as is done by a gardener when cultivating his land, and loosen the soil below to the depth of one foot, the excreta are placed in the furrow and then covered up, and thus at one operation the land is tilled and the excreta disposed of. All foul smell is at an end the instant the excreta are covered, there is nothing to offend the eye or the nose, no danger is caused to health, and the same ground can be gone over at frequent intervals after cropping. All who have tried this system of trenching agree that it is the best from the sanitary, agricultural and financial points of view, and it will, I am sure, succeed admirably in Darbhanga, on account of the dry nature of the ground and climate. I hope, therefore, that the Municipal Commissioners will give it a trial.

6. *Drainage*, my predecessor thought, was "the most important requirement of the town from a sanitary point of view." I am sory to disagree with him in this respect. The present drainage is certainly very defective, and there is no doubt that a scientific scheme would be of great advantage ; but after a careful investigation of the matter, and as the climate is dry and Darbhanga is not, from all accounts, a very seriously water-logged town, I do not feel justified in urging the Municipal Commissioners to go to any great expense on this account, when there are more pressing needs which require consideration before a scientific drainage scheme. All that seems to me to be at present necessary in this respect is to correct the levels of the existing kutcha drains, and gradually to add to the pucca drains in a systematic manner, so that at any future time, when the Municipality is in a position to provide a scientific drainage scheme, the existing pucca drains may be made use of. There ought to be no difficulty in this respect, for a survey with levels, I understand, has already been made.

7. An improved *water-supply*, in my opinion, is the most urgent necessity of Darbhanga, and the Municipal Commissioners would be wise to give it their first and most serious consideration. The present sources are (1) the river, which nearly dries up during the hot weather when good water is most needed, and is freely fouled for a considerable distance above, below and opposite the town, (2) wells which are not protected, and (3) tanks, which are the worst of all. Some of these are supposed to be reserved for drinking, but as a matter of fact are not strictly guarded against pollution. During my brief visit I saw two of them being fouled by bathing and the washing of dirty clothing. Undoubtedly the polluted water-supply of Darbhanga is the principal exciting cause of the unhealthiness of the town. A filtered water-supply is therefore urgently necessary, and I would strongly recommend the Municipal Commissioners to do all they can to provide it by borrowing some money, if necessary, from the Government for the purpose, and appealing to His Highneess the Maharaja of Darbhanga and the other wealthy zamindars of the district who live in the town, to help them with donations. I feel confident that if these liberal and public-spirited gentlemen were judiciously approached on the subject, they would contribute, if they could not be induced to provide the whole of the money required for a filtered water-supply. I discussed the matter with one of the most prominent and oldest inhabitants of Darbhanga, who was enthusiastic in his concurrence that a pure water-supply was Darbhanga's greatest need. He felt bound, however, he said, to point out to me that there would be some difficulty about an intake, for the river which flows past the town is not to be depended upon in years of drought, when it all but dries up. But this difficulty can be easily overcome by the sinking of special wells in the bed of the river—a practically inexhaustible source.

8. *Disposal of the dead.*—Five and-a-half years ago Dr. Gregg drew attention to the insanitary and dangerous practice of permitting burial in the private grounds which are situated in the heart of the city. The custom still continues ! I saw half-a-dozen new graves in two of these private grounds. This practice is so obviously objectionable that it should and must be put a stop to without further delay. No burial should be allowed except in the prescribed public grounds. The burning ghat is wrongly situated above the town. It should be below it. The Christian cemetery is as clean as it is possible to keep it without the assistance of funds. The walls need a little repair and whitewashing annually, but what is most necessary is the removal of the mango

trees within the enclosure. The drippings from these during the rains tarnish the tombstones, the shedding of the leaves at certain seasons of the year create a mess, and the practice in connection with the reaping of the mango crop amounts to nothing short of desecration of the cemetery, to say nothing of the damage caused during that time by the men who are let loose within the enclosure to gather the crop. I do not know to whom the trees belong, but whosever they are, an effort should be made to induce him either to sell them to the cemetery authorities, or else to consent to their being cut down.

9. *Markets and slaughter-houses.*—The Raj market is the principal, in fact practically the only bazar in the town. It is not a credit to the place, being dirty and badly arranged. There are no stalls for the sale of fish, fruits or other produce; the drainage is bad, and there is no water-supply. The matter should be brought to the notice of the Manager of the Darbhanga Raj. I am sure the defects have only to be mentioned to him to be remedied. The arrangements in connection with the slaughter-house or enclose (for it is not a house) are shocking. This was condemned by Dr. Gregg in 1890 in strong terms. He found the place in "a disgracefully insanitary condition," and wrote, "the utter confusion, the most disgusting smell and dirt, and the wonton cruelty I witnessed there, was shocking." Dr. Harold-Brown, the Civil Surgeon, has also, I find, been urging the Municipality to do something to improve this place, but nothing has yet been done, and the arrangements are as bad as they can be. In a masonry enclosure which has low walls and no roof, an average of about 20 bullocks, cows, or buffaloes are slaughtered daily, and the blood and offal are evidently not all removed, for at the time of my inspection there was a thick coating of it on the floor, and a disagreeable odour about the place. I saw this locality at the most favourable time of the year, and found it in an insanitary condition then. In the rains, the Civil Surgeon tells me, it is a hundred per cent. worse, the enclosure being often submerged! When this happens, slaughtering takes place on an adjoining bit of high ground in the open. These facts speak for themselves, and point to the necessity for something being done to remedy this unsatisfactory state of affairs. One way out of the difficulty is to raise the plinth of the enclosure and the walls, and to provide a roof, but as the approach to the place is under water during the rainy season, the better plan would be to erect a more suitable structure on higher land. In this connection I wish to mention that I was surprised to see that the slaughtering of goats was allowed to be carried on anyhow and anywhere; these "goat shops," as they are called, are for the most part wretched shanties scattered all over the town, which is not desirable. The custom appears to have been in vogue for so long a time that I am told it will be a very difficult matter now to interfere with it. However that may be, I cannot pass it by without strongly condemning the practice as decidedly insanitary and undesirable. But I do not see why the slaughtering of goats, like the slaughtering of kine, should not be prohibited except in places specially set apart for the purpose. There can surely be no great hardship in insisting on regularity and order in this respect.

10. *Registration of vital statistics.*—As already stated, this has improved, and the death-rate of 33·67 for 1895 may be accepted as approximately correct. The birth-rate of 30·02, however, I am afraid, is considerably below the true rate. In a population in which the sexes are nearly equal, as they are in Darbhanga (38,267 males and 35,294 females), the birth-rate ought to be nearer 40 per mille than the rate returned.

11. *Vaccination.*—There seems to be no prejudice against vaccination, which is being smoothly carried on. I examined the arms of 54 children, of whom I found 21 to have been successfully vaccinated in four points, 1 in three points, 29 in two points, and 3 in one point. As nothing under four points can be regarded as thorough protection, it will be seen that the majority of the children examined are not safe against small-pox.

12. *Miscellaneous.*—Under this heading there is a point to which I wish to invite attention, and it is the condition of the hackney carriages which are licensed to ply for hire within the Municipality. The owners of these pay a license-fee; but as the Hackney Carriage Act is not in force, the Municipality has no control

over them, and the result is about as bad a service of public conveyance as it is possible to conceive. The carriages are very rickety and filthy, and the ponies which draw them are such miserable creatures that they can scarcely do more than crawl. It is positively painful and unwholesome to go about in these conveyances, on which inspecting officers and casual visitors to the town are dependent. It would be a boon to the public if the Hackney Carriage Act was introduced and the ticca gharries brought under proper control.

13. *Conclusion.*—In conclusion, I have only to express my regret that I have not been able to give a more favourable report of the sanitary condition of the Darbhanga Municipality, but I feel it would not be fair to the Government, the Municipal Commissioners, the public or myself, to write a rose-colored report, when the true state of affairs is as I have described them. My remarks are not made in any spirit of captious criticism, but with a friendly desire to point out to the authorities the defects in their sanitary administration. I hope, therefore, that they will receive the report in the spirit in which it is written, and correct as soon as possible the defects to which I have drawn attention, which for convenience of reference may be briefly epitomised as follows, with the remedy suggested in each case:—

Defects.	*Remedies suggested.*
(*a*) Insanitary condition and radically wrong principle of the public latrines.	(*a*) Gradual dismantling of the present structures, and substitution in their stead of Donaldson's patent sanitary latrine for mufassal use, as modified by the Sanitary Commissioner. Plan attached.
(*b*) Inadequate and irregular removal of night-soil from the private latrines (which are not built up to any standard pattern, but in accordance with the fancy of the individual proprietor), and the pernicious practice of promiscuous defœcation, which is due principally to the paucity of good public latrines.	(*b*) Introduction of Part IX of the Municipal Act, relating to the cleansing of private latrines by municipal agency, and the prescription of two standard patterns of private privies, one of a very simple nature for people of small means, the other a more elaborate structure for people who can afford, and would prefer to have, a more expensive pattern. The provision of more public latrines.
(*c*) Unsuitability of the present urinals.	(*c*) The substitution of Donaldson's patent urinals for mufassal use modified in accordance with the suggestions of the Sanitary Commissioner. Plan will follow.
(*d*) Deep system of trenching of night-soil.	(*d*) Superficial burial of night-soil in future, in the manner described in paragraph 5 of this report, should be substituted for the present deep system.
(*e*) Defective drainage.	(*e*) The levels of the existing drains should be corrected, and the pucca drains added to every year in a systematic manner. It is not necessary to incur the great expense of a scientific drainage scheme.
(*f*) A polluted and in the dry weather insufficient water-supply.	(*f*) A filtered water-supply is necessary. This is indeed the most pressing need of the town.
(*g*) Burial in private burial-grounds which exist in the heart of the town.	(*g*) This should not be allowed. It is obviously an insanitary and dangerous practice.
(*h*) Wrong situation of the burning ghá.	(*h*) It should be below, not above, the town.
(*i*) Too much foliage in the Christian cemetery, and disrepair of the wall.	(*i*) The mango trees should be removed, and the walls whitewashed and repaired when necessary.
(*j*) Bad arrangement of the Raj market.	(*j*) The defects pointed out in paragraph 9 of this report should be brought to the notice of the Maharaja's Manager with a view to their being remedied.
(*k*) Bad situation of, and grave insanitary arrangements in connection with, the enclosure in which kine are slaughtered.	(*k*) A better situation on higher ground should be selected, and proper slaughter-house erected on it.
(*l*) Promiscuous slaughtering of goats.	(*l*) This is obviously objectionable, and should not be allowed. There should be prescribed places for the slaughter of goats.

(*m*) Registration of vital statistics.

(*n*) Unsatisfactory and dirty condition of the hackney carriages.

(*o*) Want of supervision in connection with the conservancy arrangements of the town, which is one of the chief reasons why it is in such an insanitary conditon.

The 7th March 1896.

(*m*) It would seem from the statistics returned that a great many births escape registration. The attention of the District Superintendent of Police will be drawn to the matter.

(*n*) The Hackney Carriage Act should be introduced, and the ticca gharries brought under proper control.

(*o*) If a local European officer could be got to supervise the work of the overseer, or to act as overseer himself, it would be far better than the present arrangement. The past and present overseers have clearly neglected their duty, and from all accounts had no influence over their subordinates. I have noticed that in all Municipalities in which a European officer is employed as supervisor, the conservancy arrangements are good.

Explanation.— .. indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least ·10 inch of rain has fallen.

CALCUTTA, *the 7th April 1896.*

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 4TH OF APRIL 1896.

At the close of the previous week the hot-weather conditions in Bengal were rather strongly pronounced for the season of the year, and the same conditions have prevailed throughout the period under review. On the 29th of March, or the first day of the present week, a brisk to rather rapid fall of pressure occurred over Bengal, and a small to moderate defect was established. Winds were about normal in direction, and skies were usually almost cloudless, and weather was fine and settled. In the case of the day temperatures excess amounts ranging in many cases up to 8° and 9° were registered, while the excess in the night temperatures was usually about 2° or 3°. On the 30th a further brisk fall of pressure occurred, and a small centre of depression appeared to be developing, and conditions became somewhat disturbed, and a few local showers had fallen in North Bengal and in the adjacent hills. A further increase of temperature also occurred at many stations on this day. On the 31st the pressure changes were rather variable, and pressure was still relatively low in West Bengal; temperature had generally fallen, and local storms were reported at some of the northern and eastern stations, and Silchar received 1·61 inches during a thunderstorm with hail. A brisk to rapid fall of pressure occurred on the 1st of April, and pressure was in defect by amounts ranging up to 0·116 inch at Burdwan, and in connection with the low-pressure area winds became feebly cyclonic over Bengal. On this day temperature had risen distinctly, but weather was generally fine in Bengal, though rain had again fallen in Assam and at Gnatong. On the 2nd and 3rd there were no important changes and conditions resembled those of the 1st, while rain continued to fall in Assam, where Silchar reported 1·33 inches of rain on the 2nd, and 0·36 inch of rain on the 3rd of April. On the 4th a further fall of pressure occurred, and it became in defect, generally by more than a tenth of an inch, and hence a distinct depression continued to exist over Bengal. Winds also still showed a distinct tendency to cyclonic circulation round the centre of the province, but only two or three stations reported local storms with rain. Temperature on this day was unusually high, and excess amounts of 6° to 8° in the mean temperature were registered at many stations.

Pressure.—The mean pressure for the week for the whole province has been rather largely below the normal, and the defect has usually been from 0·06″ to 0·08″.

Temperature.—The average mean temperature for the whole province for the week has been almost 5° in excess of the normal. In South-West Bengal, North Bengal, and Chota Nagpur the excess has ranged up to from 5° to 7°.

The actual temperatures registered in the province during the week, and the variations from their normal values, are, however, best seen in the table below, where the average temperature data for nine selected stations in different districts of the province are given. Temperatures, it will be seen, have been unusually high both in the case of the days and the nights :—

Rainfall.—Except for a few showers in the Darjeeling, Rangpur, and Jalpaiguri districts, there has been practically no rainfall in Bengal during the week. Assam, however, appears to have received considerable amounts of rain.

The following table gives the summary of the temperature and rainfall data of each of the six meteorological divisions of the province for the week ending Saturday, the 4th of April 1896:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following :—

	Rs.
For a single course of lectures on each subject in one year ...	40
For six months' attendance in each department of hospital practice	60

6. Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a medical school in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject on payment, in advance, of fees at the rates fixed in paragraph 5. If he has passed the Entrance Examination of the University, he shall receive certificates of attendance at lectures. If he has not passed the Entrance examination, he shall receive no class certificates.

8. At the end of their first year, students will be required to pass a College test examination in Anatomy, Chemistry, and Botany. Those who gain not less than 20 per cent. in two subjects, and not less than 15 per cent. in a third, will be eligible for promotion to the second-year class. Those who fail to gain the aforesaid percentage of marks will not be eligible for promotion, but will go through the first-year class again.

9. Students of the second-year will be required to pass a College test examination in Anatomy, Physiology, and Materia Medica. Those who pass the examination with 20 per cent. in two subjects and 15 per cent. in a third will be entitled to go up in the following March or April for the Preliminary Scientific Examination of the Calcutta University, the subjects of which are Chemistry and Botany. Those who (after passing the College test) fail at the University Examination will be entitled, equally with those who pass it, to join the third-year class, at the end of which the former will have to present themselves, as at present, for the combined Preliminary Scientific and 1st L.M.S. (or 1st M.B.) Examination.

10. Those students who fail at the College Test Examination of the second year will not be debarred from going up for the Preliminary Scientific Examination, but will be encouraged to do so in order to get that stage over ; but whether they pass or fail at the University Examination, they will be relegated for a further year to the second-year class, provided that those who pass the University Examination will not be required to attend the courses in those subjects in which they have passed.

11. Students of the third year will present themselves for the 1st L.M.S. or 1st M.B. Examination of the Calcutta University. Those who fail at this examination will be relegated for a further year to the third-year class.

13. Students of the fourth-year class will be required to pass a College test examination in Surgery, Medicine, Midwifery, and Medical Jurisprudence. Those who pass the examination with 20 per cent. of the marks in three subjects and 15 per cent. in a fourth will be eligible for promotion to the fifth-year class. Those who fail will be relegated to the fourth-year class for a further year. The examination in Surgery and Medicine will be both theoretical and clinical ; but those students who can obtain from the Visiting Surgeon or Physician, to whose wards they have been attached, a certificate that they have really profited by their instruction in either subject, will be excused the clinical examination in that subject.

14. Students who fail at the 2nd L.M.S. or 2nd M.B. Examination will have to attend a further course of lectures in the subject or subjects in which they have failed, in accordance with the regulations of the University.

15. The Principal will determine the maximum number that may be admitted to the first-year class. Students who have failed at the test examination of the first year will have a prior claim to readmission over new students.

16. Students readmitted to a class after failure at the test examination will be required to pay the full fees for the session. Those, however, who, after failing either at the Preliminary Scientific Examination or at the final examination, have to attend a further course of

although not protected as aforesaid, is admitted by all the recorded proprietors of the estate to be a permanent tenure created by all the proprietors of the estate subject only to the payment of an amount of rent fixed in perpetuity, and

is of such nature that the rent thereof is not liable to be enhanced under any circumstances by the proprietors of the estate or any person deriving his title from such proprietors,—

the rent payable by the holder of such tenure, whether he be known as talukdar, patnidar or mukarraridar or by any other designation;

(*e*) in the case of land held on a permanent tenure which is subject to the payment of rent not fixed in perpetuity but liable to enhancement from time to time or progressive—the rent payable by the holder of such tenure;

(*f*) in the case of unoccupied land and land forming portion of a village site—such amount, if any, as the Deputy Collector may determine with reference to all the circumstances of the case,

and includes—

(*g*) all profits derived out of land by proprietors from rights of pasturage, forest rights, fisheries and all other legal sources;

(xix) "assets," when used with reference to an estate, means the assets of all land included in the estate;

(xx) "Chapter" means a chapter of this Act; and

(xxi) "section" means a section of this Act;

Future partitions to be made under this Act.

4. All partitions of estates which shall be ordered to be made after the commencement of this Act shall be made under the provisions of this Act, and no such partition made otherwise than under this Act shall relieve any land from liability to the Government for the total demand of land-revenue assessed upon the estate of which it forms a part.

Amount of land-revenue to be assessed on each separate estate.

5. Except as otherwise provided in this Act, the amount of land-revenue assessed on each separate estate shall bear the same proportion to the whole amount of land-revenue for which the parent estate was liable as the assets of such separate estate bear to the whole assets of the parent estate.

CHAPTER II.

OF THE RIGHT TO CLAIM PARTITION.

Who entitled to claim partition.

6(*1*). Subject to the provisions of this Act, every recorded proprietor of a joint undivided estate who is in actual possession of the interest in respect of which he is so recorded shall be entitled to claim a partition of the said estate and the separation therefrom and assignment to him as a separate estate of land representing the interest of which he is in such possession.

(*2*) Any two or more of such recorded proprietors may claim that land representing the interests of all such claimants be formed into one separate estate to be held by them as a joint undivided estate; and every provision of this Act which applies to an applicant for partition shall apply to any two or more persons making any such claim.

Partition according to interest.

7. (*1*) If the interest of any recorded proprietor who is entitled to claim partition is an undivided share in an estate held in common tenancy, he shall be entitled to have assigned to him as his separate estate land of which the assets shall bear the same proportion to the assets of the parent estate as his undivided share in the parent estate bears to the entire parent estate.

(*2*) If the interest of such recorded proprietor is the proprietary right over specific mauzas or lands forming part of the parent estate, and held by him in severalty, he shall be entitled to have assigned to him as his separate estate the said mauzas or lands.

(*3*) If the interest of such recorded proprietor consists of an undivided share held in common tenancy in specific mauzas or tracts forming part of the parent estate, but not extending over the whole area of the parent estate, he shall be entitled to have assigned to him as his separate estate land, situated within such specific mauzas or tracts, of which the assets shall bear the same proportion to the assets of such specific mauzas or tracts as his undivided share in such specific mauzas or tracts bears to the entire mauzas or tracts:

Provided that, if the interest of such recorded proprietor consists of such an undivided share in more than one mauza or tract, he shall not be entitled to have land assigned to him in every such mauza or tract, but the Collector may assign to him as his separate estate land situated in any one or more of the said mauzas or tracts, subject to the condition that the assets of such land are in proportion to the aggregate of the interests which he holds in all such mauzas or tracts.

(*4*) If the interest of such recorded proprietor consists partly of land held in severalty, and partly of an undivided share either in the whole estate or in specific land held in common tenancy, he shall be entitled to have the portion of the common land falling by partition to his share added to the land held by him in severalty, and the estate thus formed shall be assigned to him as his separate estate, so that the assets shall bear the same proportion to the assets of the whole estate as his interest in all the land and undivided shares held by him bears to the aggregate interests of all the proprietors.

(*5*) If the interest of such recorded proprietor is of more than one of the kinds specified in the preceding sub-sections, land shall be assigned to him as far as possible in accordance with the principles therein laid down.

Separation of land held in common between the proprietors of two or more estates, when the estates are not under partition.

8. Whenever any land is held in common between the proprietors of two or more estates not being under partition, any one or more of such proprietors may, without applying for partition of their several estates *inter se*, apply

for separation of the land held by them in common, and for the allotment of the proper shares of such land to each of their separate estates, the land-revenue of those estates remaining unaltered; and such application shall be dealt with as far as may be in accordance with the provisions of this Act.

Tenants for life not entitled to claim partition.

9. Notwithstanding anything hereinbefore contained, no person having a proprietary interest in an estate for the term of his life only shall be entitled to claim partition under this Act.

No partition of a permanently-settled estate allowed if separate estate would be liable for land-revenue not exceeding one hundred rupees, or if partition would be dangerous to land-revenue.

10. No application for the partition of a permanently-settled estate shall be admitted under this Act, and, if any such application be admitted, no partition shall be carried out in pursuance thereof,—

(*a*) if the annual amount of land-revenue for which the separate estate of any of the proprietors would, after partition, be liable would not exceed one hundred rupees, or

(*b*) if the Collector considers that for any reason any of the separate estates would be likely to prove an insufficient security for the payment of the land-revenue which would be separately charged upon it:

Provided that, notwithstanding anything in sections 265 and 396 of the Code of Civil Procedure, any Civil Court which has made a decree for partition or for separate possession of a share of an undivided estate paying revenue to Government may execute such decree in the same manner and subject to the same conditions as in the case of a revenue-free estate, but the joint and several liability of the entire estate for the whole of the revenue shall not thereby be prejudiced or affected unless such partition is made or the separate possession of such share given by the Collector under the provisions of this Act.

Power to refuse partition which would result in formation of estates scattered so as to endanger the safety of the land-revenue.

11. The Collector may refuse to admit an application for the formation of land held in severalty into a separate estate, or to admit or proceed with any other application for partition, if, in consequence of the land being intermingled with that held by other proprietors, the result of the partition would be to form out of a compact estate one or more estates consisting of scattered parcels of land in such a way as, in the opinion of the Collector, to endanger the safety of the land-revenue:

Provided as follows:—

(*a*) a partition may be allowed in any such case if the recorded proprietors agree to such a distribution of land as would make the estates formed by the partition reasonably compact;

(*b*) nothing in this section shall be deemed to prohibit the partition into separate estates of any parent estate which before such partition is not compact and consists only of scattered parcels of land.

Interest alienated with special condition as to liability for land-revenue.

12. No proprietor who has alienated any portion of his interest in an estate, or in any specific land of an estate, by private contract, with the condition that the transferee shall be liable in respect of the interest acquired by him to pay a specified amount or a

specified share of the land-revenue for which the estate is liable (such amount or share being other than the proportionate amount or the proportionate share for which such transferred interest if formed into a separate estate would be liable under section 5),

and no proprietor who has derived his title from any proprietor who has made any alienation as aforesaid,

shall be entitled to claim a separation under this Act of the interest which he continues to hold in the estate;

and no such transferee as aforesaid, and no person deriving his title from such a transferee, shall be entitled to claim a separation of the interest which has been so acquired:

Provided that a separation of such interests may be made if the parties concerned agree—

(*a*) to waive the conditions of the contract as regards the proportion of land-revenue for which the transferor and transferee or their representatives respectively are liable, and

(*b*) to hold the estates which may be allotted to them respectively by the partition subject to the payment of such amount of land-revenue as may be assessed upon them respectively under this Act.

Sale, for arrears of land-revenue, of an estate which is under partition.

13. If any estate has been declared to be under partition as provided in section 27, any arrears of land-revenue accruing due thereon before the date specified in the notice issued under section 94 may be realized by sale of the estate as if the same had not been declared to be under partition; and, if such sale takes place, the partition proceedings shall cease from the date thereof.

Sale, for arrears of land-revenue, of share in an estate which is under partition.

14. Nothing contained in section 13 shall be deemed to affect the provisions of section 10, section 11, section 12, section 13 or section 14 of Act XI of 1859 (*An Act to improve the law relating to sales of land for arrears of revenue in the Lower Provinces under the Bengal Presidency*), or any similar law for the time being in force, in respect to the opening of separate accounts for different shares in an estate and the protection afforded to such shares thereby:

Provided that, if any share in any estate is sold for its own arrears of land-revenue while such estate is under partition in accordance with the provisions of this Act, such share shall be sold subject to the partition proceedings, which shall proceed as if no such sale had taken place; and the purchaser of the share sold may, from the date of such sale, exercise all the rights which the proprietor whose share he has purchased might have exercised, and shall be subject to all the liabilities to which such proprietor would have been subject in respect of the partition proceedings.

CHAPTER III.

OF APPLICATIONS FOR PARTITION; THE ADMISSION OF AN ESTATE TO PARTITION; AND THE DISCONTINUANCE OF PARTITION PROCEEDINGS AFTER SUCH ADMISSION.

Application for partition how to be made.

15. Every application for partition shall be made in writing to the Collector of the district on the revenue-roll of which the

(CH. III; SECS. 16—18.)

estate is borne, and shall be presented in person or by a duly authorized agent having personal knowledge of the facts stated in the application and accompanying documents.

Application to be signed and to contain certain particulars.

16. Every such application shall be signed by the person presenting it, and shall contain the following particulars, so far as they are known to the applicant or can be ascertained by him, namely:—

(*a*) the name of the parent estate;

(*b*) the number under which such estate is borne on the revenue-roll, and the revenue demand for which it is liable;

(*c*) the number under which such estate is borne on the Collector's General Register of revenue-paying lands;

(*d*) the name and address of every proprietor, whether recorded or unrecorded, of such estate, and the name of the post office of the area within which each such proprietor resides;

(*e*) the character and extent of the interest of which each such proprietor is in possession;

(*f*) a specification of any land held by proprietors of the parent estate in common with proprietors of other estates, and of the rights of such proprietors respectively in such land; and

(*g*) such further particulars, if any, as may be prescribed by rules made by the Board.

Application to be accompanied by copy of rent-roll and by specification of previous measurements and record-of-rights.

17. (*1*) Every such application shall, subject to the provisions of sub-section (4) of this section, be accompanied by a copy of the rent-roll of the estate, and by a specification referring to the papers of every measurement and record-of-rights which has respectively been made of and prepared for the estate by any officer appointed in that behalf by the Government or other competent authority and of which the person presenting the application has knowledge.

(*2*) The said application, rent-roll and specification shall be verified at the foot of the application, by the person presenting the same, in the manner following, or to the like effect:—

"I, A. B., declare that the particulars contained in this application and in the rent-roll and specification accompanying it are correct to the best of my knowledge and belief."

(*3*) If the said application, rent-roll or specification contains any entry which the person making the verification knows or believes to be false, or does not believe to be true, such person shall be liable to be punished in the same manner as if he gave false evidence.

(*4*) If the person presenting the application is unable to produce a rent-roll as required by sub-section (*1*) of this section, he shall state the reason of such inability, and the name and address of the person who has in his possession the information necessary for the preparation of such rent-roll; and the Collector may, if he thinks fit, require such person to produce such rent-roll.

Procedure if application is not in order.

18. If any such application does not in the opinion of the Collector fulfil the requirements of the foregoing sections of this Chapter, he may either reject it or return it for amendment.

(CH. III; SECS. 19—22.)

Notification and notice of application.

19. If in the opinion of the Collector the application fulfils the said requirements, and if there appears to him to be no objection to making the partition, he shall—

(*a*) publish a notification of the application in the manner prescribed by section 104, and also by causing copies to be posted up at the Court of the Judge of the district and at the Court of every Munsif and Sub-divisional Officer within whose jurisdiction, and at every police-station within the jurisdiction of which, any land appertaining to the estate is known to be situated;

(*b*) by such notification invite any person claiming any proprietary right in the estate, who may object to the partition, to state his objection, either in person or by duly authorized agent, on a day to be specified in the notification, not being less than thirty or more than sixty days from the date of the publication of the notification on the estate; and

(*c*) serve a notice of the application on such of the recorded proprietors of the estate as have not joined in the application, and on any unrecorded proprietor who has been named in the application.

Power to reject application on receipt of objection.

20. If any person claiming a proprietary right as aforesaid states an objection to the partition on or before the day specified in the notification published under section 19, or at any subsequent time if it shall then seem fit to the Collector to admit such objection, and the Collector, on consideration of the objection, is of opinion that there is good and sufficient reason for rejecting the application, he may reject the same, and if he does so shall record the grounds of such rejection.

Procedure when objection raises any question of right or title or of extent of interest.

21. If any such objection raises any question of right or title or of extent of interest as between any applicant and any other person claiming to be a proprietor of the parent estate, and if it appears to the Collector that such question has not been already determined by a Court of competent jurisdiction, the Collector may hold such inquiry into the objection as he may deem necessary, and, if he be satisfied that the applicant is in possession of the extent of the interest for the separation of which he has applied, may, instead of rejecting the application as provided in section 20,

(*a*) direct that the partition proceedings shall proceed for the purpose of forming and assigning to the applicant a separate estate in accordance with the extent of interest claimed by him in the parent estate; or

(*b*) direct that such proceedings be postponed for four months.

Resumption of proceedings after postponement.

22. At the expiration of the said four months the Collector shall resume the proceedings, unless the person who has made the objection, or some other person,—

(*a*) has obtained an order from a Civil Court directing that such proceedings be stayed, or

(*b*) shows that a suit has been instituted before a Civil Court to try some question of such a nature as to lead the Collector to think the proceedings

ought to be stayed until the question has been finally decided or until the proceedings in such Court in respect thereof shall have terminated.

Suits instituted after four months not to affect or stay proceedings for partition.

23. No suit instituted in a Civil Court, after the lapse of four months after the Collector has—

(*a*) made a direction under clause (*a*) or clause (*b*) of section 21, or

(*b*) recorded a proceeding under section 27,

by any person claiming any right or title in or to a parent estate, shall avail to affect or stay the progress of any proceedings which may have been taken under this Act for the partition of the estate.

Decree made while partition proceedings are in progress.

24. (*1*) Every decree affecting a parent estate made by a Civil Court after the estate has been declared under section 27 to be under partition, but before the date specified in the notice served under section 94—

(*a*) shall be made in recognition of the proceedings in progress under this Act for the partition of the estate, and

(*b*) shall be framed in such manner that the decree may be applied to, and carried out in reference to, the separate estates which the Collector in his proceeding under section 27 has ordered to be formed out of the parent estate.

(*2*) If the effect of any such decree be to declare any person or body of persons to be entitled to any extent of interest in the parent estate in excess of the extent of interest which the Collector in the said proceeding has declared to be held by such person or body of persons, the decree shall specify, separately in respect of every proprietor or body of proprietors of whose interests the Collector has separately specified the extent in the said proceeding, the proportion of such excess which such person or body of persons is entitled to recover from every such proprietor or body of proprietors;

and every person or body of persons so entitled to recover any extent of interest from any such proprietor or body of proprietors shall, for the purposes of the partition proceedings, be deemed to have the same rights, and to be subject to the same liabilities, as a person who has acquired such extent of interest from a proprietor or body of proprietors by private purchase after an estate has been brought under partition under section 27 and on the date on which the decree was passed;

and such person or body of persons may apply, as in this Act provided, for the separation and assignment to him or them of the lands representing the extent of interest so acquired;

and such application shall be dealt with as provided in section 28.

Decree made after partition proceedings completed.

25. (*1*) Every decree affecting a parent estate made by a Civil Court after the date specified in the notice under section 94, in a suit which was instituted as mentioned in section 23,—

(*a*) shall be made in recognition of the partition proceedings, and

(*b*) shall be framed so as to give effect to the division of the parent estate into separate estates which has been ordered by the Collector, and so as not to disturb such division.

(*2*) If the effect of any such decree be to declare any person or body of persons to have been entitled to any extent of interest in the parent estate in excess of the extent of interest which is represented by the separate estate assigned to such person or body of persons by the Collector in the partition proceedings, the decree shall specify, separately in respect of the proprietor or joint proprietors of every separate estate formed by the partition, the proportion of such excess of interest which such person or body of persons is entitled to recover from such proprietor or joint proprietors;

and every person or body of persons so entitled to recover any extent of interest from the proprietor or joint proprietors of a separate estate shall be entitled to recover such extent of interest out of the separate estate which has been assigned to such proprietor or joint proprietors, and out of such separate estate only;

and the decree shall be executed by placing the person or persons so entitled in the position of a recorded joint proprietor or recorded joint proprietors of such separate estate, holding the same as a joint undivided estate in common tenancy with the proprietor or joint proprietors to whom such separate estate was assigned by the Collector in the partition proceedings, the extent of the interest of the joint proprietors respectively in such estate being such as is declared in the decree.

Power of Civil Court to order partition on application.

26. (*1*) A Civil Court may at any time, upon an application made to it in the manner prescribed by sections 15, 16 and 17 for applications to a Collector, direct the Collector—

(*a*) to assign to any person land representing a specified interest in any estate, or in any specified village or tract of land in an estate, to be held by such person as a separate estate, or

(*b*) to divide off from any estate any specified land or villages, and to assign it or them to any person to be held as a separate estate:

Provided that no Civil Court shall in any such case—

(*i*) specify the amount of land-revenue for which any separate estate which it may direct to be formed under the provisions of this section shall be liable, or

(*ii*) direct the Collector to carry out a partition otherwise than in accordance with the provisions of this Act.

(*2*) The Collector shall assess the land-revenue on every such separate estate in accordance with the provisions of this Act.

Admission of application for partition, and procedure thereupon.

27. If no objection be made, within the time specified in the notification published under section 19, to an application for partition, or when all objections have been disposed of, and if the Collector has no reason to believe that any obstacle exists to his making the partition as applied for,

he shall direct that the application be admitted, and shall record a proceeding—

(*a*) declaring the estate to be under partition for the purpose of forming and assigning to the applicant a separate estate;

(*b*) declaring the extent of interest in the parent estate which he finds to be held by the applicant or joint applicants; or, if more than one separate application for separation has been admitted, the extent of interest in the parent estate which he finds to be held by every separate applicant or body of joint applicants, respectively;

(*c*) declaring the extent of interest which remains to any recorded proprietor or body of recorded proprietors who are not applicants;

(*d*) ordering that land proportionate to the interest so declared to be held by each applicant, or body of joint applicants respectively, shall be formed into a separate estate, to be assigned to such applicant or body of joint applicants; and

(*e*) ordering that land proportionate to the interest so declared to remain to any recorded proprietor or body of recorded proprietors who are not applicants shall be left forming a separate estate;

and shall at the same time issue a notice to each of the proprietors by registered post letter informing him that the application for partition has been admitted and that the partition will be proceeded with, and requiring him to register his name and address and to appoint an agent to accept service of process and to make any appearance or application or do any act required or authorized to be made or done by a party to a partition under this Act.

Subsequent application for separation of another share.

28. (*1*) At any time after the Collector has made an order for partition under section 27, and before the Deputy Collector has partitioned the land into separate estates under section 57, any recorded proprietor in the estate, other than the original applicant, may apply for the separation of his share.

(*2*) The Collector may reject or admit any such application; and if he admits it may order either that proceedings for effecting such separation shall be carried on simultaneously with those for separating the share of the original applicant or that compliance with the application be postponed.

Collector may refer application for partition to Deputy Collector.

29. The Collector may refer any application for partition to any Deputy Collector for the purpose of making inquiries and doing any other thing authorised or required by this Chapter:

Provided that every order—

(*a*) rejecting an application under section 20,

(*b*) directing, under section 21, that partition proceedings shall proceed or shall be postponed,

(*c*) directing, under section 27, that an application for partition be admitted,

(*d*) made under section 28, or

(*e*) appointing a Deputy Collector under section 30,

and every proceeding recorded under section 27,

shall be made and recorded, respectively, by the Collector and not by any Deputy Collector.

Collector may appoint Deputy Collector to carry out partition.

30. As soon as the Collector has declared an estate to be under partition as provided in section 27, he may appoint a Deputy Collector to carry out the partition and all or any of the proceedings necessary thereto.

Partition case may be struck off the file, on petition of parties. Recovery of costs.

31. (*1*) If, at any time after an order has been passed for making a partition of a parent estate, all the recorded proprietors of the estate present a petition to the effect that they do not wish the partition to proceed, the Collector may, after such enquiry as he considers necessary, and unless, for reasons to be recorded by him in writing, he considers it inexpedient to do so, strike the partition case off the file, and at the same time require the proprietors to pay all costs incurred in and about the partition.

(*2*) Any such costs which have not already been levied as provided in section 35 shall be levied in proportion to the shares of the respective proprietors.

Partition case may be struck off the file by the Commissioner. Recovery of costs.

32. (*1*) If, at any time after an order has been passed for making a partition, it appears, whether or not from information which was not before the Collector at the time the partition was ordered, that any sufficient reason exists why the partition should not be proceeded with, and if no petition has been presented under section 31,

the Commissioner may, on the report of the Collector or otherwise, after issuing a notice calling on the persons interested to show cause why the partition case should not be struck off the file, and after considering any objections which may be made, order the partition case to be struck off the file.

(*2*) All costs which have not already been levied as provided in section 35 shall thereupon be levied in proportion to the shares of the respective proprietors.

CHAPTER IV.

OF ESTABLISHMENTS FOR EFFECTING PARTITIONS, AND THE COST OF PARTITIONS.

Power to appoint establishments.

33. (*1*) The Deputy Collector, with the approval of the Collector, and subject to any rules made in that behalf by the Board, may appoint such amins and other persons as may be needed for—

(*a*) making measurements and surveys of lands,

(*b*) ascertaining and recording rates of rent,

(*c*) making any other local enquiries,

(*d*) preparing papers, and

(*e*) doing other things

required for the purposes of any proceedings under this Act.

(*2*) The Collector, subject as aforesaid, may appoint such peshkars or other superior officers as may be required for testing the work of the amins and for the performance of other similar duties.

(*3*) The scale of remuneration of all persons appointed under sub-section (*1*) or sub-section (*2*), and the time for which they shall be employed, shall be subject to the previous sanction of the Commissioner.

(CH. IV; SECS. 34-38.)

Power to appoint special establishment.

34. In any district or division in which partitions are so numerous or extensive as to render necessary the appointment of a special establishment in the office of the Collector or of the Commissioner, the Collector, with the previous sanction of the Commissioner and the Board, or the Commissioner, with the previous sanction of the Board, as the case may be, may appoint such establishment.

Estimating and levy of cost of partition.

35. (*1*) As soon as possible after an estate has been declared to be under partition as provided in section 27, the Collector shall estimate the cost of making the partition; and the amount shall be levied from the proprietors in such instalments and at such times during the progress of the partition as may be fixed by rules made by the Board.

(*2*) If the amount first estimated is found insufficient, supplementary estimates may be made from time to time, and the required amount may be levied as provided in sub-section (*1*).

Power to direct levy of costs from proprietor in excess of his proportionate share.

36. Whenever it appears to the Collector that any partition proceedings have been unnecessarily delayed and the cost of the partition enhanced, by obstacles vexatiously put in the way of the completion of the proceedings by one or more of the proprietors, or by want of due diligence on the part of one or more of the proprietors in carrying out any requisition made upon him or them,

the Collector may direct that such portion of the cost as he may think proper, in excess of the amount proportionate to the share or shares of such proprietor or proprietors, shall be paid by him or them.

Deputy Collector may declare cost of local inquiry and by whom it is to be paid.

37. Whenever any local inquiry is held by the Deputy Collector or any other officer, in consequence of an objection raised by any person to any record of measurements, rent-roll or other information which has been laid before the Deputy Collector,

the Deputy Collector may declare the cost which has been incurred by such inquiry, and may direct that the entire cost so declared—

(*a*) shall be paid by the person making the objection, or by any one of the proprietors, or

(*b*) shall be paid, in such proportions as the Deputy Collector thinks fit, by the said person and the proprietors or any of them, or

(*c*) shall be deemed to be a part of the cost of the partition as prescribed by rules made by the Board.

On completion of partition, total cost to be declared and account adjusted.

38. (*1*) Upon the completion of a partition, the Collector shall make an order declaring the total cost thereof.

(*2*) The account shall then be adjusted, either by returning to the proprietors any sums which they may have paid in excess of the total cost, or, if necessary, by levying from them, in the manner provided in section 108, any sums remaining due.

(CH. IV; SECS. 39-41.)

Power to direct that salary of Deputy Collector, and cost of special establishment, be recovered as part of costs of partitions.

39. (*1*) Whenever it appears to the Lieutenant-Governor that the work required to be done in connection with partitions under this Act in any district is so great that it would, if concentrated in the hands of one or more Deputy Collectors, fully occupy the time of such one or more Deputy Collectors, he may make an order directing that the salary of such one or more Deputy Collectors, as the case may be, shall be recovered from the proprietors of estates under partition in such district, as part of the costs of such partitions.

(*2*) Whenever it appears to the Lieutenant-Governor that the said work in any district is so great as to occupy a considerable portion, though not the whole, of the time of a Deputy Collector,

or whenever a special establishment is appointed under section 34,

the Lieutenant-Governor may direct that a portion of the salary of such Deputy Collector and the whole of the cost of such special establishment shall be recovered from the proprietors of estates under partition in such district, as part of the costs of such partitions.

Estates Partition Fund.

40. (*1*) Notwithstanding anything contained in the foregoing sections of this chapter, the Lieutenant-Governor may direct that in any district a fund, to be called the "Estates Partition Fund," shall be formed, into which all sums levied from the proprietors of estates in respect of partitions of their estates shall be paid, and from which all costs of making partitions of estates in such district shall, except as hereinafter otherwise provided, be defrayed.

(*2*) Fees shall be levied and costs apportioned in partition cases according to rules made by the Board.

(*3*) An abstract of the Estates Partition Fund of each district, made up to the end of each year, shall be published in the Calcutta Gazette and posted up at the office of the Collector of the district.

Order by Civil Court for payment by parties of costs of partition.

41. (*1*) Whenever any Civil Court makes a decree awarding or declaring any proprietary right in an estate, and requires the Collector to make a partition of the estate, the Court shall, subject to the provisions of sections 36 and 37, at the same time direct either—

(*a*) that the party or parties who has or have withheld the right so decreed shall defray the whole of the costs or the whole of the fees payable in respect of the partition under section 40, or

(*b*) that the said costs or fees shall be defrayed by all or any of the parties to the suit in which the decree was made, in such proportions as the Court may, upon a consideration of the particular circumstances of the case, deem equitable.

(*2*) Copies of all orders passed under sub-section (*1*) shall be transmitted to the Collector for his guidance, together with the precept which the Court issues to him requiring him to divide the estate; and the Collector shall levy the said costs and fees from the parties, in accordance with the order, in the same manner and by the same means as if the levy of such expenses and fees had been ordered by himself.

CHAPTER V.

OF PARTITION PROCEEDINGS UP TO THE DETERMINATION OF THE PARTITION.

Powers of Deputy Collector in making a partition.

42. Every Deputy Collector making a partition shall, as regards the estate under partition, have all the powers exercisable by a Survey Officer under the Bengal Survey Act, 1875, and by a Revenue Officer employed in preparing a record-of-rights under Chapter X of the Bengal Tenancy Act, 1885.

Deputy Collector when to make survey and prepare record of rights.

43. As soon as the Collector has recorded a proceeding under section 27, declaring an estate to be under partition, the Deputy Collector shall, except in the cases mentioned in section 48, and may, if so directed by the Collector in any case so mentioned, make a survey and prepare a record-of-rights of all lands included in the estate.

Particulars to be recorded.

44. In making a survey and preparing a record-of-rights under section 43, the Deputy Collector shall ascertain and record the following particulars, namely:—

(*a*) the name of each proprietor, landlord and tenant of the estate, and of every owner of revenue-free land and occupier of rent-free land therein;

(*b*) the situation, area and boundaries of the land owned or occupied by each of the said persons, and the character and extent of the interest held by each;

(*c*) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy-raiyat, non-occupancy-raiyat or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure; and the name of his landlord; and

(*d*) the rent then payable for all rent-paying lands and the assets, if any, of all other lands;

and shall be guided by such rules as the Board may make under section 121, clause (*c*).

Attestation of record-of-rights.

45. (*1*) When the Deputy Collector has prepared a record-of-rights under section 43, he shall issue a notice, in a form to be prescribed by the Board, fixing a day on which he will be present in the village, or at a convenient place within limits of distance to be fixed by general or special order of the Board, for the purpose of attesting the record.

(*2*) On the date fixed by the notice, or on any other date to which the proceedings may be adjourned, the entries in the record-of-rights shall be read out, and the record corrected or added to, as may appear necessary, in the presence of such of the interested parties as are in attendance.

(*3*) If the correctness of any entry is disputed, the Deputy Collector shall pass a summary order on the dispute, after making such local enquiry, if any, as he thinks fit.

(*4*) If the correctness of any measurement is called in question and a fresh measurement is demanded, the Deputy Collector may require the costs of the re-measurement to be deposited.

(*5*) If the re-measurement shows the original measurement to have been inaccurate, the amount deposited shall be refunded to the objector.

Publication of record-of-rights and hearing of objections.

46. (*1*) When a record-of-rights has been attested as provided in section 45, the Deputy Collector shall cause a copy thereof to be locally published in such manner and for such period as the Board may by rule direct.

(*2*) If, at any time before the expiration of the said period, objection is made as to the correctness of any entry in the record, or as to the propriety of any omission which has been made from it, the Deputy Collector shall hear and dispose of the objection. He shall ordinarily dispose of such objections summarily:

Provided that any person considering himself aggrieved may at any time within the said period file a plaint, which shall be duly stamped in accordance with the provisions of the Court Fees Act, 1870; and in that case the Deputy Collector shall, subject to rules made by the Lieutenant-Governor, follow the procedure laid down in the Code of Civil Procedure for the trial of suits, and his decision shall have the force of a decree.

(*3*) After the expiration of the period aforesaid, and the disposal of all objections made or plaints filed within that period, the Deputy Collector shall finally frame the record and cause it to be locally published in such manner as the Lieutenant-Governor may by rule direct, and the publication shall be conclusive evidence that the record has been duly made under this section.

Entries in record-of-rights to be presumptive evidence.

47. Every entry in a record-of-rights made and finally published under this chapter shall be deemed to be correct until the contrary is proved.

(CH. V; SECS. 48, 49: CH. VI; SEC. 50.)

48. (*1*) (*a*) If at any time a survey of any estate or part thereof has been made or a record-of-rights prepared by an officer appointed in that behalf under the orders of the Government; or

Deputy Collector may accept previous survey or record-of-rights or measurements and rent-rolls, instead of making a new survey and preparing a new record-of-rights.

(*b*) if any measurement papers and rent-rolls are filed under section 17, or at any time before a survey has been begun under section 43, and if the correctness of such measurement papers and rent-rolls is admitted in writing by all the proprietors, and is verified by the Deputy Collector after sufficient testing on the spot, and if the Deputy Collector is satisfied that the land-revenue would not be endangered and that no injustice would be done to the tenants,

the Deputy Collector may accept in case (*a*) the survey papers or record-of-rights so prepared, or in case (*b*) the measurement papers and rent-rolls so filed, instead of making a new survey and preparing a new record-of-rights under section 43.

(*2*) If the said survey or measurement appears on being tested to be correct or susceptible of correction, but the record or rent-rolls to be incorrect or obsolete, the Deputy Collector may accept the one after necessary correction, and cause the other to be prepared afresh.

(*3*) In every case dealt with under this section the procedure prescribed by sections 45 and 46 shall be followed, as if a record had been prepared under section 43.

49. After the publication of a record-of-rights under section 46, sub-section (3), and the disposal of appeals, if any, against orders or decisions of the Deputy Collector, he shall record an order stating that the said record-of-rights has been adopted for the purposes of the partition, and shall—

Record of order, fixing of day for determining partition, publication of notification, and service of notice.

(*a*) fix a day on which to determine the partition of the lands into the several separate estates,

(*b*) publish a notification calling on all the proprietors to be present on the day so fixed, such day being not less than thirty or more than sixty days after the publication of the notification in his office, and

(*c*) serve a similar notice collectively on the proprietors of each of the adjoining estates, inviting them to appear and file their objections, if any, if they dispute the possession of any land of the estate under partition.

CHAPTER VI.

OF PARTITION BY AMICABLE ARRANGEMENT OR BY ARBITRATION.

50. (*1*) If all the recorded proprietors present, on or before the day fixed under section 49, a petition requesting to be allowed to make the partition privately among themselves on the basis of the papers adopted by the Deputy Collector under Chapter V, the Deputy Collector may either grant the request or appoint an arbitrator or arbitrators to make the partition on that basis.

Partition may be made by proprietors themselves, or by arbitrators.

(CH. VI; SECS. 51-55: CH. VII; SEC. 56.)

(*2*) If such request is granted, and the proprietors fail to make the partition within such time as may be fixed by the Deputy Collector in that behalf, the Deputy Collector may either appoint an arbitrator or arbitrators as aforesaid or make the partition himself.

51. When a partition has been referred to arbitration, the proceedings shall, except as hereinafter otherwise expressly provided, be conducted in accordance with the provisions of sections 506 to 522 (both inclusive) of the Code of Civil Procedure, so far as they are applicable.

Procedure on reference to arbitration.

52. (*1*) The arbitrator or arbitrators shall, within a period to be fixed by the Deputy Collector, which period may be further extended by him, deliver to the Deputy Collector a full and complete paper of partition, in such form as the Board may, by rule, prescribe.

Arbitrators to deliver a partition paper

(*2*) If default is made in complying with sub-section (*1*), the Deputy Collector may withdraw the case from arbitration and may make the partition himself.

53. (*1*) The arbitrator or arbitrators, on delivering the paper of partition as aforesaid, shall be entitled to reasonable fees for his or their services.

Remuneration of arbitrators.

(*2*) The amount of such fees shall be fixed, with the approval of the Commissioner, by the officer who made the reference to arbitration, and shall be deemed to form part of the costs of making the partition.

54. Every partition made under this Chapter by proprietors or by an arbitrator or arbitrators shall be subject to the approval of the Deputy Collector, to the confirmation of the Collector, and to the orders of the Commissioner and the Board:

Approval of Deputy Collector and other authorities.

Provided that no such partition shall be disallowed except—

(*a*) on the ground of fraud, or

(*b*) on the ground that the partition cannot be confirmed without endangering the safety of the land-revenue.

55. When a partition has been made under this Chapter, the land-revenue on each separate estate into which the parent estate is divided by such partition shall be assessed by the Collector in the manner prescribed by section 5.

Assessment of land-revenue.

CHAPTER VII.

OF THE PROCEDURE IN REGARD TO THE MAKING OF PARTITIONS BY THE DEPUTY COLLECTOR, AND THE APPROVAL THEREOF BY THE COLLECTOR.

56. If no petition is presented under section 50, the Deputy Collector shall, on the day fixed under section 49, or on the day, if any, to which the hearing is postponed by

Procedure when no petition presented under section 50.

notice posted at his office, consult orally each proprietor who is present, and endeavour, as far as possible with the concurrence of the proprietors present, to partition the lands, in accordance with the provisions of this Act, into the separate estates to be formed by the partition.

When objections requiring further enquiry are disposed of, the Deputy Collector to partition the lands and prepare a paper of partition.

57. (*1*) When any objections which require further enquiry have been disposed of, the Deputy Collector shall record an order to that effect, and, after hearing what each proprietor present may urge, shall determine how the lands of the parent estate shall be partitioned into the separate estates, and all matters arising out of such partition; and shall cause to be prepared —

(*a*) a paper of partition, in a form prescribed by rules made by the Board, specifying in detail—

(*i*) the villages and lands which he has included in each separate estate,

(*ii*) the rental of such villages and lands, and the other assets, if any, of each separate estate,

(*iii*) the name or names of the recorded proprietor or proprietors of each separate estate,

(*iv*) any stipulations which may have been made regarding places of worship, tanks or other matters mentioned in Chapter VIII, and

(*v*) the amount of land-revenue to be assessed on each separate estate in the manner prescribed in section 5; and

(*b*) a map showing the lands which fall within each separate estate and the boundaries of such lands.

(*2*) In making the partition the Deputy Collector shall be guided by the provisions of Chapter VIII, and shall make the partition in the manner which, in his opinion, is on the whole most in accordance with those provisions and most equitable and convenient to all parties concerned.

Splitting up of tenure or holding, and apportionment of rent thereof.

58. (*1*) No tenure or holding shall be split up for the purposes of a partition unless it is reasonably necessary to do so in order to effect an equitable partition.

(*2*) When a tenure or holding is split up for the purposes of a partition, the Deputy Collector shall, without altering the total existing rent of the tenure or holding as ascertained under Chapter V, apportion the same among the several parts into which the tenure or holding has been divided, and shall notify such apportionment to the tenants concerned.

Submission of case to Collector; his duties.

59. (*1*) The partition, as made under this Chapter, shall be submitted for the sanction of the Collector, and he shall by notice fix a day for the consideration of the same, not being less than fifteen days after the publication of the said notice in his office, and, after hearing and

disposing of any objection which may be preferred, shall pass such orders as he may think proper—

(*a*) approving the partition, with or without amendments, or

(*b*) making a new partition, or

(*c*) returning the papers to the Deputy Collector for amendment of the partition, or for making a new partition, with such directions as to the Collector may seem fit in regard to the issue of a notice to appear to the proprietors or any of them who are specially interested.

(*2*) If the papers are returned to the Deputy Collector, the Collector shall, on their re-submission, proceed again to consider the partition as provided in sub-section (*1*) of this section.

Duties of Deputy Collector when partition has been approved by Collector.

60. (*1*) When the partition has been approved by the Collector, the Deputy Collector shall, after making such alterations as may be necessary in the partition paper or map, or preparing a new partition paper or map, in accordance with the orders passed by the Collector,

(*a*) cause to be prepared a separate extract of the portion of the partition paper which relates to each separate estate;

(*b*) cause to be tendered to any recorded proprietor of a separate estate, or any authorized agent of such proprietor, who may be in attendance at the Deputy Collector's office, the extract which relates to such separate estate; and

(*c*) publish a notice at his office calling upon every proprietor to whom or to whose agent an extract from the partition paper has not been tendered as aforesaid, to take out of the Deputy Collector's office the extract of the portion of the partition paper relating to his separate estate.

(*2*) If the circumstances of the partition so require, an extract of the map prepared by the Deputy Collector, or a copy of such map, shall be annexed to every separate extract from the partition paper mentioned in sub-section (*1*).

(3) The Deputy Collector shall also proceed in the manner hereinbefore provided when the Collector makes a new partition.

Proprietor not appearing on fixed day not entitled to make objection.

61. No proprietor who has failed to appear before the Deputy Collector in person or by agent on a day fixed, under section 49 or section 56, for the partition of the lands into the several separate estates, and no proprietor who has failed so to appear before the Collector on a day fixed under section 59, shall be entitled at any subsequent time to make any objection to the orders which may be passed on such days respectively.

Submission of the papers to the Commissioner after approval of the partition by the Collector.

62. When a partition has been approved by the Collector, or when he has made a new partition, and after the tender of extracts and the issue of notices as provided in section 60, the Collector—

shall cause a notice to be served on each of the recorded proprietors, stating that the papers will be submitted at once for confirmation of the partition by the Commissioner, and that any appeals or objections must be presented to the Commissioner, or to the Collector for transmission

to the Commissioner, within thirty days from the date of the service of the said notice;

and shall, after the issue of such notice, forward to the Commissioner all papers relating to the partition.

CHAPTER VIII.

OF THE GENERAL PRINCIPLES ON WHICH PARTITIONS SHALL BE MADE.

Lands held in common tenancy.

63. Each separate estate shall be made as compact as is compatible with the primary object of making an equitable partition among the proprietors and with the provisions of this Chapter:

Separate estates to be made compact.

Provided that no partition made or approved by a Collector shall be set aside on the ground only that the separate estates are not compact, except by order of the Board.

64. In selecting the villages or land to be assigned to each separate estate formed out of a parent estate which has been held in common tenancy, the Collector shall take into consideration the advantages or disadvantages arising from—

Circumstances to be considered in making partitions.

(*a*) situation;

(*b*) the vicinity of roads, railways, navigable rivers or canals;

(*c*) the nature and quality of the soil and produce;

(*d*) the quantity of cultivable and uncultivable waste land;

(*e*) the facilities for irrigation;

(*f*) the state of the embankments and watercourses; and

(*g*) liability to accretion and diluvion;

and any other circumstances affecting the value of the land.

65. (1) If a dwelling-house belonging to one proprietor is situated on any land which it may be necessary to include in the separate estate of another proprietor, the owner of the house may retain occupation thereof, with the offices, buildings and grounds immediately attached thereto, upon agreeing to pay rent for the land occupied by the house, offices, buildings and grounds to the proprietor of the separate estate in which such land is included.

Rights when dwelling-house belonging to one proprietor is situated on land to be allotted to another proprietor.

(2) The limits of the land so occupied and the rent to be paid for it annually in perpetuity shall be fixed by the Deputy Collector, and shall be stated in the paper of partition.

(3) In every such case a defined pathway shall, as far as possible, be secured to the owner of the house, leading from the house to some portion of the separate estate allotted to him.

66. The provisions of section 65 shall apply also to sir land, gardens, orchards of trees, land planted with bamboos, and any other land which, in the opinion of the Deputy Collector, is of special value to the proprietor in whose occupation it is found to be, in consequence of improvements made by such proprietor or of the particular use to which such land is put.

Application of section 65 to sir land, etc.

67. The rent fixed in perpetuity on any land by the Deputy Collector under section 65 or section 66 shall be deemed, for the purposes of the partition, to be the assets of such land.

Rent for land fixed under section 65 or 66 deemed to be the assets of the land.

68. When the dwelling-house of one proprietor, with the offices, buildings and grounds immediately attached thereto, has been included in the separate estate of another proprietor, and the rent to be paid in perpetuity for the land occupied thereby has been fixed by the Deputy Collector and stated in the paper of partition,

Redemption of rent fixed under section 65.

the first-mentioned proprietor may apply to the Deputy Collector for permission to redeem the rent so fixed, and the Deputy Collector shall give such permission unless he is of opinion that the redemption would endanger the safety of the land-revenue for the payment of which the separate estate in which such dwelling-house, offices, buildings and grounds have been included will be liable.

69. (*1*) If the Deputy Collector gives permission as aforesaid, he shall certify the amount payable by the applicant in redemption of the rent.

Amount payable in redemption of rent.

(*2*) Such amount shall be calculated and fixed by the Deputy Collector at ten *per centum* above the sum which would be required to purchase, at the market prices then prevailing, so much stock of the Government loan which was then last issued as would yield an annual sum of interest equal to the said rent.

70. The amount certified under section 69 may be paid to the Deputy Collector at any time before, but not after, possession is, under section 94, given to the several proprietors of the separate estates allotted to each.

Such amount when payable.

71. On receipt of such payment, the Deputy Collector shall give notice to the proprietor in whose separate estate the land is situated—

Notice of payment to be given, and land to be held rent-free.

(*a*) that such payment has been made;

(*b*) that the sum will be paid to him or to his authorized agent on application; and

(*c*) that, from the date on which possession as aforesaid is given, the proprietor who has redeemed the rent of such land will be entitled to hold the land as a rent-free tenure secured against the proprietor to whom the notice is given and against any auction-purchaser at a sale for arrears of revenue, including the Government;

and from such date the land shall be so held as a rent-free tenure.

72. The Deputy Collector shall at the same time give notice to the Collector of the district of the creation of such tenure, and the Collector shall thereupon cause such tenure to be specially registered in the manner provided by section 42 of Act XI of 1859 (*An Act to improve the law relating to sales of land for arrears of revenue in the Lower Provinces under the Bengal Presidency*) or by any similar law for the time being in force.

Collector to register the rent-free tenure.

(CH. VIII; SECS. 73, 74.)

Drawing of lots for equal shares.

73. When two or more of the separate estates consist of the same proportions of the parent estate, the Deputy Collector may, if he thinks proper, direct the parties entitled thereto respectively to draw lots in his presence for the equal separate estates which have been formed by assignment of land,

unless the recorded proprietors of the equal shares agree among themselves as to the allotment of the equal separate estates and present a petition to that effect, or

unless for any other reason the Deputy Collector, with the sanction of the Collector, thinks proper to assign the equal separate estates to the proprietors of the equal shares without causing lots to be drawn.

Order and method of drawing lots when aggregate of two or more shares equals one other share, or equals the aggregate of two or more other shares.

74. (*1*) When the aggregate of two or more shares equals one other share, or equals the aggregate of two or more other shares, the Deputy Collector, with the sanction of the Collector, may cause such aggregate shares to be treated as one share for the purpose of determining by lots as aforesaid which portion of the parent estate shall be assigned to each proprietor as his separate estate;

and may decide which shares shall be formed into one aggregate share for the purpose of causing such lots to be drawn;

and may cause lots to be drawn in like manner as often as he thinks proper for such purpose.

(2) After lots have been drawn once (or more than once if necessary) as aforesaid, the Deputy Collector shall proceed to divide the portion of the parent estate which has fallen by lot to each aggregate share, among the proprietors of the different shares which were formed into such aggregate share for the purpose of drawing lots, and shall assign to every such proprietor his separate estate within such portion in such position as the Deputy Collector may think proper:

Provided that lots shall in no case be drawn until after full opportunity has been given to the proprietors to advance their objections in respect of the papers accepted as the basis of the partition and in respect of the assets of the different parcels of land as stated in such papers, and until any such objections which may have been made have been disposed of.

Illustrations.

I.—The partition of a parent estate is being made into the following shares:—

8 annas.	3 annas.
4 annas.	1 anna.

For the purposes of drawing lots, the 4 annas, 3 annas and 1 anna share may be taken together, and considered to be an aggregate 8 annas share.

The Deputy Collector will divide the parent estate into two halves of equal value, and will then cause lots to be drawn, in order to determine which of the two halves shall be assigned to the proprietor of the integral 8 annas share, and which shall be divided among the proprietors of the 4 annas, 3 annas and 1 anna shares.

Subsequently, if necessary, the Deputy Collector may again cause lots to be drawn by the proprietor of the 4 annas share on the one hand, and the proprietors on the other hand of the aggregate share made up by taking together the 3 annas share and the 1 anna share.

II.—The partition is being made of a parent estate into the following shares:—

6 annas.	3 annas.
4 annas.	2 annas.
1 anna.	

(CH. VIII; SECS. 75-77.)

Two tracts in the estate may first be marked off, the value of each being equivalent to a 6 annas share; and then, for the purpose of drawing lots in respect of the assignment of these two tracts, the 4 annas share and the 2 annas share may be taken together as an aggregate 6 annas share, and lots may be drawn between the proprietor of the aggregate 6 annas share so formed on the one hand, and the proprietor of the integral 6 annas share on the other.

One of the two 6 annas tracts having thus been finally assigned to the proprietor of the integral 6 annas share, the Deputy Collector will proceed to assign the rest of the estate among the remaining sharers; and he may again, for the purpose of causing lots to be drawn, mark off two tracts, the value of each of which shall be equivalent to 5 annas of the parent estate, and may cause lots to be drawn for these two tracts between the proprietors of the 4 annas share and the 1 anna share taken together as an aggregate 5 annas share on the one hand, and the proprietors of the 3 annas share and the 2 annas share taken together as another 5 annas share on the other.

Finally, their separate estates will be assigned to the proprietor of the 4 annas share and of the 1 anna share respectively, within the tract which fell to them jointly by lot; and their separate estates will be resigned to the proprietors of the 3 annas share and of the 2 annas share respectively within the tract which fell to them jointly by lot.

Deputy Collector may require proprietors to attend or appoint agent for the purpose of drawing lots

75. The Deputy Collector may, by notice, require any proprietor, in respect of whose share lots are to be drawn as provided in section 73 or section 74, to attend at the office of the Deputy Collector in person or by authorized agent, at a time to be fixed by the Deputy Collector, for the purpose of drawing lots;

and may similarly require the proprietors of any shares which he may have ordered to be formed into an aggregate share for the purpose of drawing lots, jointly to appoint an agent to draw lots on their joint behalf; and if at the time fixed for drawing such lots, such proprietors have failed to agree to any such joint appointment, or fail to cause the attendance of an agent authorized to act jointly for all such proprietors, all such proprietors shall be deemed to have failed to comply with the Deputy Collector's requisition.

In default, Deputy Collector may appoint a person to draw lots.

76. If any proprietor or proprietors fail to comply with a requisition of the Deputy Collector under section 75, the Deputy Collector may appoint a person to draw lots on behalf of such proprietor or proprietors.

Lands held in severalty.

Partition according to separate possession, and apportionment of land-revenue.

77. (*1*) When each proprietor is in possession of separate land held in severalty as representing his interest in a parent estate, the partition of the estate may be made, on the application of all the recorded proprietors, by assigning to each proprietor or to two or more proprietors jointly as his or their separate estate the land of which they are in separate possession;

and each separate estate so formed may be made liable for such portion of the entire land-revenue of the parent estate as was paid by the proprietor or proprietors thereof:

Provided that the Deputy Collector who is appointed to carry out the partition shall satisfy himself that the assets of each separate estate which it is proposed to form will be sufficient to secure the payment of the annual amount of land-revenue for which it is proposed to make such separate estate liable.

(2). If the Deputy Collector is not satisfied that the assets of each such separate estate will be sufficient as aforesaid, or that, with reference to the circumstances of the case, the partition of the land and the assessment of the land-revenue thereon may be made in the manner proposed without endangering the safety of the land-revenue, he shall reject the application, unless all the accorded proprietors aggree that the land-revenue for which the parent estate is liable shall be apportioned among the separate estates so to be formed in such a manner that the safety of the total amount of the land-revenue shall not be endangered.

Lands of which each proprietor is in possession to be allotted to him.

78. Whenever the Deputy Collector who is appointed to carry out a partition finds that, in accordance with a private arrangement made by the proprietors of an estate, the proprietors respectively, or any of the proprietors, are in possession of separate parcels of land held in severalty as representing portions only of their respective interests in the parent estate, while other land of the parent estate is held in common tenancy between such proprietors, the Deputy Collector shall allot to the separate estate of each proprietor the land of which such proprietor is found to be in possession in severalty in accordance with such private arrangement.

Explanation.—Land held in the occupation of the several proprietors of an estate as sir, khamar or nij-jote, or under any other similar denomination, shall not be deemed to be land held in severalty as representing portions of their respective interests in the parent estate within the meaning of this section, which applies only to cases in which there has been a *bonâ fide* division, by private arrangement among the proprietors, of land held by tenants.

Collector may cause transfer of lands agreed to by parties.

79. Notwithstanding anything in section 78, the Collector may cause any transfer of land agreed to by the parties to be made from the possession of one proprietor to that of another.

Lands held in common tenancy and Lands held in severalty.

Places of worship, etc.

80. Places of worship, burning-grounds and burial-grounds which have been held in common previous to the partition of an estate, and land of which the proceeds have been assigned by the proprietors jointly for religious, charitable or public purposes, shall continue to be held in common unless the proprietors otherwise agree among themselves, in which case they shall state in writing the agreement into which they have entered, and the Deputy Collector shall enter a note of the agreement in the paper of partition.

Tanks, wells, water-courses and embankments.

81. (1) Tanks, wells, water-courses and embankments shall be deemed to be attached to the land for the benefit of which they were originally made.

(2) In cases in which, from the extent, situation or construction of any such works, it is found necessary that they should remain the joint property of the proprietors of two or more separate estates, the paper of partition shall specify, as far as the circumstances admit, the extent to which the proprietors of each of such estates may make use

of the same, and the proportion of the charges for repairs to be borne by them respectively.

Land held rent-free not to be divided, except with consent of recorded proprietors.

82. When the Deputy Collector finds in a parent estate land which is actually held rent-free (whether the proprietors of the estate do or do not claim a right to receive rent from the land), he shall not make any division or assignment of such land among the separate estates, but shall specify in the partition papers and proceedings that such land is left appertaining jointly to all the separate estates which are formed out of the parent estate, in the proportion which each separate estate bears to the parent estate:

(2) Provided that such land or any of it may be allotted among the different separate estates with the consent of all the recorded proprietors of the parent estate.

Land held at fixed rent on permanent intermediate tenure.

83. (1) When the Deputy Collector finds in a parent estate any land which is held at a fixed rent on a patni or other permanent intermediate tenure created by all the recorded proprietors of the estate or admitted by them to have been so created, he may either—

(*a*) assign such land and the assets thereof entirely to one or more of the separate estates formed out of the parent estate; or

(*b*) leave such land unassigned to any separate estate, and specify in the partition paper and proceedings that the land is left appertaining jointly to all the separate estates which are formed out of the parent estate in the proportion which each separate estate bears to the parent estate.

(2) In the event of such land being so left unassigned, the Deputy Collector shall assign to each separate estate such share of the rent of the tenure as bears the same proportion to the entire rent of the tenure as the separate estate bears to the parent estate.

(3) In dealing with a tenure under this section, the Deputy Collector shall take into consideration the extent of the land comprised in the tenure, and all other circumstances of the case.

Land held in common between the proprietors of two or more estates how to be dealt with when one estate is under partition.

84. When any land is held in common between the proprietors of two or more estates, one of which is under partition in accordance with the provisions of this Act, the Deputy Collector shall first allot to the estate under partition a portion of such common land of which the assets are in proportion to the interest which the proprietors of such estate hold in the said common land;

and all the provisions of this Act in respect of the allotment, between the shareholders in one estate, of land which is held jointly by such shareholders, shall, as far as possible, apply to the allotment of the proportionate share of such common land to the estate under partition;

and, in respect of the service of notices, the hearing of objections, and all other procedure in view to such allotment, the proprietors of the estate under partition, and all other proprietors of estates who have an interest in the said common land, shall be deemed to be joint proprietors of a parent estate consisting only of the land so held in common:

Provided that all costs of any division of lands so held in common between the proprietors of two or more estates shall be deemed to be costs of making the partition of the estate

which is under partition, and shall be leviable, as provided by this Act, from the proprietors of such estate; and the proprietors of any other estate having an interest in such lands shall not be required to bear any portion of such costs.

When proprietors of other estates may be required to pay a portion of the costs of making a division under section 84.

85. Notwithstanding anything contained in section 84, if it appears to the Collector that the proceedings for any such division have been unnecessarily delayed and the cost of such division enhanced, by obstacles vexatiously put in the way of the completion of such division by any proprietor of any estate other than that under partition, or by want of due diligence on the part of any such proprietor in carrying out any requisition made upon him,

the Collector may direct that such sum as he shall think fit shall be levied from every such proprietor who is responsible for such delay or additional cost;

and every sum so levied shall be taken in diminution of the amount payable by the proprietors of the estate under partition as costs of such partition.

Allotment made under section 84 to be submitted to the Collector.

86. Every allotment made under section 84 shall be submitted for the approval of the Collector, who may confirm, amend or reject the same, and, if he rejects it, may make or direct to be made another allotment

Land so allotted how to be dealt with.

87. When any allotment made under section 84 has been approved by the Collector, the land so allotted shall be dealt with in every respect as if it were held in common tenancy by such of the proprietors of the estate under partition as were found to hold interests in the common land.

Procedure when dispute or doubt exists as to whether any land forms part of a parent estate.

88. (*1*) If a dispute or doubt is found to exist as to whether any land forms part of a parent estate, the Deputy Collector shall, after giving special notice to any parties claiming such land other than the proprietors of the parent estate, enquire into the fact of possession, and shall report his conclusions to the Collector; and thereupon the Collector shall dispose of the matter as follows:—

(*a*) he may order that the partition case be struck off the file, if such an order appears to him advisable, and whether the possession of the disputed land is with the proprietors of the parent estate or otherwise; or

(*b*) he may order that the partition shall proceed, and that the disputed land be treated as part of the estate under partition, if the possession of such land is with the proprietors of the parent estate and the claim of the other parties to the right in such land appears to him untenable; or

(*c*) he may order that the partition shall proceed, but that the disputed land shall not be treated as part of the estate under partition, if the possession of such land is with the other parties and the claim of the proprietors of the parent estate to the right in such land appears to him untenable:

Provided as follows:—

(i) if a claim to land alleged to be in dispute is filed after the Deputy Collector proceeds under section 57 to determine how the lands of the parent estate shall be partitioned into the separate

estates, the claim shall not be enquired into under this section unless the delay on the part of the claimant is explained to the satisfaction of the Deputy Collector;

(ii) no partition shall be made in any case mentioned in this section if such partition would involve the assignment to any separate estate of such a quantity of the disputed land that the removal of such land from such estate at any subsequent time would, in the opinion of the Collector, endanger the safety of the land-revenue for which such estate would be liable after the partition.

(*2*) If a partition case is struck off the file under clause (*a*) of this section, no fresh application for partition shall be admitted unless and until the applicant shows that the dispute or doubt aforesaid has been decided by a Court of competent jurisdiction, or has been amicably settled; but, if a fresh application is admitted, the proceedings shall be revived from the point at which they were interrupted.

Procedure when partition completed in pursuance of order under section 88, clause (*b*), and proprietor of an estate dispossessed of any land by decree.

89. If, after a partition has been completed in pursuance of an order passed by the Collector under section 88, clause (*b*), the proprietor of any separate estate is dispossessed by a decree of a Court of competent jurisdiction of any land which has been assigned to his estate by the partition,

the partition shall not be disturbed, but such proprietor shall be entitled to recover from the proprietors of other separate estates formed by the partition such compensation as may be fair and equitable, having regard to the reduction in the proportionate value of his separate estate which is caused by such dispossession;

and such compensation may be recovered in a Court of competent jurisdiction from the proprietors of those separate estates on which a proportionate share of the total loss caused by the dispossession does not fall.

CHAPTER IX.

OF THE PROCEDURE BEFORE THE COMMISSIONER UP TO THE COMPLETION OF PARTITION.

Procedure if proceedings require amendment or if appeal or objection presented.

90. (1) If it appears to the Commissioner that the proceedings of the Collector should be amended, or if an appeal or objection is presented within the time allowed by section 62, the Commissioner shall fix a day for hearing and disposing of the case, and shall cause a notification of the same to be published and a copy of such notification to be posted up in his own office.

(2) The day so fixed shall be not less than thirty days after the publication of the said notification in the Collector's office.

(3) On the day so fixed, or on any subsequent day to which the hearing of the case may extend or is postponed by a notice posted up in his own office, the Commissioner shall, after hearing and disposing of all appeals and objections, and calling for any further information which he may consider necessary, either confirm the partition as approved or made by the Collector, with

or without amendments, or return the papers of the partition to the Collector for any amendments which the Commissioner may think proper to be made.

(4) If the papers are returned to the Collector for amendment, the Collector shall proceed to make the required amendments or to cause them to be made in the same manner as if he had himself passed such orders on a partition submitted to him for approval by a Deputy Collector, and shall thereafter return the papers to the Commissioner, who may then confirm the partition.

Procedure in other cases.

91. If it does not appear to the Commissioner that the proceedings of the Collector require amendment, or if no appeal or objection is presented within the time allowed by section 62, the Commissioner may proceed to consider the case without issuing any notice, and may confirm the partition as approved or made by the Collector.

Commissioner may return the papers for amendment or enquiry as often as he thinks fit.

92. The Commissioner may, before confirming a partition, return the papers for amendment or enquiry as often as he thinks fit, and as often as he so returns them the procedure prescribed in the foregoing sections of this chapter shall be applicable.

Procedure by Collector on receipt of Commissioner's order confirming, or Board's order sanctioning, a partition.

93. (*1*) After the expiration of not less than sixty days from the date of the order of the Commissioner confirming a partition,

or if an appeal has been preferred to the Board, or if any proceedings in respect of the partition be pending before the Board, then on receipt of the final order of the Board, if such order does not set aside but maintains, with or without amendments, the partition as confirmed by the Commissioner,

the Collector shall cause to be published at his office, and at some conspicuous place in each of the estates separately constituted by the order of the Commissioner or the Board, as the case may be, a notice that the partition has been confirmed by the Commissioner or sanctioned by the Board, as the case may be, with or without amendments, as the case may be.

(*2*) If the partition as so confirmed or sanctioned involves any amendments which may conveniently be made on any extracts of the partition paper or on any maps which have been prepared and delivered to recorded proprietors under section 60, the Collector shall cause a notice to be served on every recorded proprietor whose estate is affected by such amendments, requiring him to produce such extracts and maps in order that such amendments may be noted on them;

and, if the alterations made in the partition as so confirmed or sanctioned be such as to make it desirable to prepare fresh extracts or maps as aforesaid, the Collector shall cause such fresh extracts or maps to be prepared; and shall cause a notice to be served on each proprietor declaring the extract and map which was delivered under section 65 to be cancelled, and requiring him to take out of the Collector's office the fresh extract or map which has been prepared.

Procedure as to giving possession of separate estates.

94. (*1*) The Collector shall then proceed to give the several proprietors possession of the separate estates allotted to each, and, if necessary, may require the assistance of the Magistrate in giving such possession;

and shall cause to be served on every recorded proprietor of a separate estate a notice—

(*a*) informing him that from the date specified in such notice the separate estate assigned to him, as described in the extract from the partition paper prepared and delivered or tendered to him under section 60 or section 93, as the case may be, will be deemed to be separated from the parent estate, and to be separately liable for the amount of land-revenue specified in the notice, and

(*b*) calling upon him to enter into a separate engagement for the payment of such land-revenue.

(*2*) The date specified in such notice shall be not more than three months after the proprietors have been given possession of their respective separate estates as provided in sub-section (*1*).

Each separate estate to be borne on the revenue roll and General Register as separately liable for the land-revenue assessed upon it.

95. From the date specified in such notice, each separate estate shall be borne on the revenue roll and General Register of the Collector as a distinct estate separately liable for the amount of land-revenue assessed upon it under this Act, and shall be so liable whether or not the proprietor has entered into a separate engagement for the payment of the amount of land-revenue so assessed upon the estate.

Boundary marks.

96. (*1*) The Collector may direct the erection of such boundary marks as he thinks proper, to distinguish the lands of each separate estate; and the cost of such boundary marks shall be deemed to be costs of the partition.

(*2*) Boundary marks so erected shall be assigned to zamindars, or to zamindars jointly with tenure-holders, for preservation, as provided in the second clause of section 29 of the Bengal Survey Act, 1875; and, after they have been so assigned, the provisions of sections 19, 20, and 52 to 57 (both inclusive) of the said Act shall apply in the case of such boundary marks.

CHAPTER X.

MISCELLANEOUS

Powers of Deputy Collector as to production of documents and attendance of witnesses.

97. For the purposes of any enquiry under this Act, the Deputy Collector shall, in addition to the powers specifically conferred upon him by this Act, have the powers conferred by Chapters X and XIV of the Code of Civil Procedure for compelling the production of documents and enforcing the attendance of witnesses.

General power to refer to arbitration.

98. The Deputy Collector, with the consent of all the parties concerned, may refer to arbitration any point arising in the course of a partition; and the provisions of sections 51, 52 and 53 shall, as far as possible, be applicable to such references.

Saving of tenures created and leases given by proprietor.

99. If any proprietor of an estate held in common tenancy and brought under partition in accordance with this Act has given his share or a portion thereof in patni or other tenure or on lease, such tenure or lease shall hold good as regards the lands finally allotted to the share of such proprietor, and only as to such lands.

Illustrations.

I.—A, the proprietor of a quarter share in a joint-undivided estate held in common tenancy, gives to B a patni tenure of the whole of his interest in the estate, entitling B, as long as such estate is held in common tenancy, to collect one-fourth of the rent payable by every raiyat on the estate; and

partition of the said estate is made under this Act, and certain specific lands are assigned to A as his separate estate.

B will become patnidar of the entire separate estate which has been assigned to A, and will be entitled to collect the whole of the rents from the raiyats on that estate.

II.—A, a proprietor of a quarter share in a joint-undivided estate held in common tenancy, gives to B, a patni tenure of one-half of his share in the estate entitling B, as long as such estate is held in common tenancy, to collect one-eighth of the rent payable by every raiyat on the estate; and

partition of the estate is made under this Act, and certain specific lands are assigned to A as his separate estate.

B will become patnidar of one-half of A's separate estate, and will hold his patni in common tenancy with the half of A's interest which A has not given in patni, so that B will be entitled to collect one-half of the rent payable by every raiyat on A's estate, and A will be entitled to collect the other half.

Uniting of estates.

100. (*1*) If two or more estates come into the possession of one proprietor or of the same body of proprietors, such proprietor or body of proprietors may, after being recorded as proprietors, apply to have the estates united and to hold them as a single estate.

(*2*) Every such application shall be made in writing to the Collector, and the Collector shall, if he sees no objection to doing so, comply with it not less than thirty days after the publication of a notification thereof, and shall then cause the necessary entries to be made in the records of his office and report the case to the Commissioner.

If separate estate falls into arrear, Collector to enquire into cause and report to Commissioner.

101. If any separate estate created under this Act falls into arrear so as to necessitate a sale of the land for the discharge of the arrear at any time within twelve years from the date of the confirmation or sanction of the partition by the Commissioner or the Board, as the case may be,

the Collector shall, if possible, ascertain the cause of the estate having fallen into arrear, and shall enquire whether the same is due to any fraudulent or erroneous allotment of the assessment or assignment of lands at the time of the partition, and shall make a report upon the case to the Commissioner for such action as the Commissioner may think proper.

Power of Lieutenant-Governor to order a new allotment of the land-revenue.

102. If it is proved to the satisfaction of the Lieutenant-Governor at any time within twelve years from the date of the confirmation or sanction of a partition by the Commissioner or the Board, as the case may be, whether or not upon enquiry made under section 101, that through any fraud or error at the time of making the partition the assets of the lands assigned to any separate estate were not in proportion to the amount of land-revenue for which such estate was made liable, or that the amount of land-revenue assessed on any separate estate was not in proportion to the assets of the lands assigned to such estate,

the Lieutenant-Governor may order a new allotment of the land-revenue upon the separate estates in accordance with the principles prescribed

in this Act, on an estimate of the assets of each such estate as they stood at the time of the partition, such estimate being made on such evidence and information as may be procurable.

Power to require proprietors of under-assessed estates to make refund to proprietors of over-assessed estates.

103. (*1*) Whenever the Lieutenant-Governor passes an order under section 102 for the re-allotment of the land-revenue on any separate estate, he may direct that the proprietors whose estates are found to have been under-assessed shall, for each year during which they have held possession of the separate estates, be required to pay, to the recorded proprietors of the estates which have been over-assessed, a sum equal to the annual amount in which the latter are found to have been over-assessed; and in default of payment such sum shall be recoverable as provided in section 108.

(*2*) No order passed by the Lieutenant-Governor under sub-section (*1*) shall be liable to be contested in any Court.

Publication of notifications.

104. Every notification required by this Act to be published shall, unless it is otherwise specially directed, be published by posting up copies of the same—

(*a*) at the office of the Collector,

(*b*) at the office of the Deputy Collector who is to make, is making or has made the partition,

(*c*) at the village office or village offices, if any, of the proprietors of the parent estate, and

(*d*) in one or more of the principal villages in the said estate.

Service of notices.

105. (*1*) Any notice required by this Act to be served on any person may be served—

(*a*) by delivering the notice to the person to whom it is directed, or, on failure to effect such delivery, by posting it on some conspicuous part of the house in which the said person usually resides; or

(*b*) by sending a registered letter, containing the notice, to such person, directed to the address, if any, which he has registered under this Act; or

(*c*) by delivering the notice to a general agent of the person to whom it is directed, or to any person who has been appointed in that behalf, or who has been appointed an agent of the person to whom the notice is directed for the general purposes of any partition under this Act; or

(*d*) by affixing a copy of the notice at the village office of the person to whom the notice is directed;

or, if no such village office be found, and if the notice cannot be served in any of the other modes mentioned in this section, by affixing a copy of the notice on some conspicuous place on the estate to which the notice relates.

(*2*) Where two or more persons are joint applicants for the separation of an estate to be held by them jointly as a separate estate, the service of a notice, in any of the modes mentioned in sub-section (*1*), on any one of such joint applicants shall be deemed to be good and sufficient service on both or all of them.

Mistakes and irregularities not to vitiate proceedings.

106. If the directions of this Act are in substance and effect complied with, no proceedings thereunder shall be affected—

(*a*) by reason of any mistake or informality, unless any person has suffered, or is in danger of

suffering, material injury in consequence of such mistake or informality; or

(*b*) by reason of the omission to issue any notification required by this Act, or to serve any notice on any person whose name is not recorded on the Collector's registers as proprietor of the estate in respect of which the notice is required by this Act to be served.

Fine in case of non-compliance with requisition.

107. If any proprietor or other person fails to comply, within the time fixed therefor by notice, with any requisition made upon him under this Act by the Collector or Deputy Collector, the Collector or Deputy Collector, as the case may be, may impose upon him such daily fine as he may think fit, not exceeding fifty rupees;

and such fine shall be payable daily until the requisition is complied with;

and the Collector or Deputy Collector, as the case may be, may proceed from time to time to levy the amount which has become due in respect of any such fine:

Provided that, whenever the amount payable exceeds five hundred rupees, the Collector shall report the case specially to the Commissioner, and no further levy in respect of the fine shall be made otherwise than by the authority of the Commissioner.

Fees, &c., to be recoverable as public demands.

108. Except as herein otherwise expressly provided, all fees, fines, costs and other sums ordered under this Act to be paid by any person shall be deemed to be public demands, and shall be recoverable under any law for the time being in force for the recovery of such demands.

Powers and functions of Deputy Collector may be exercised by Collector.

109. All or any powers and functions which are assigned by this Act to a Deputy Collector may be exercised and discharged by the Collector;

and whenever it is provided by this Act that any act done or order made by a Deputy Collector shall require the sanction of the Collector, or shall be appealable to the Collector, if such act has been done, or such order has been made, by the Collector, it shall be deemed to have been sanctioned by the Collector or to have been confirmed by the Collector in appeal, as the case may be.

Power to vest Collector or Deputy Collector with settlement powers.

110. (*1*) The Lieutenant-Governor may vest any Collector or Deputy Collector with all or any of the powers which, under the provisions of any law for the time being in force, might be exercised by them respectively, or might be conferred on them respectively, if they were making a settlement of a parent estate.

(*2*) Such powers may be conferred either generally in respect of all estates in the partition of which the Collector or Deputy Collector may at any time and in any district be engaged, or specially in respect of any particular estate.

Appeals to the Collector, and admission by him of objections.

(*1*) An appeal, if presented to the Commissioner, or to the Collector for transmission to Commissioner, within one month from the date of the order appealed against, shall lie to the Commissioner against every order of a Collector (whether such order be passed by the Collector in the first instance or in appeal from the order of a Deputy Collector)—

(*2*) No such application shall be entertained unless it is accompanied by a certificate from the Commissioner that there is reasonable ground for moving the Board.

(*3*) When an order of a Collector, whether passed by him in the first instance or in appeal from the order of a Deputy Collector, is modified or reversed by the Commissioner, a further appeal shall lie to the Board in the following cases only, namely, when the order of the Collector was one—

116. (*1*) Any proceedings of a Revenue Officer connected with giving possession to the proprietors of their respective separate estates as provided in section 94 may be set aside or amended as above provided by the Board, provided that the Board shall, within three months from the date on which such possession may have been given, make an order to the effect that such proceedings are under the consideration of such authority.

(*2*) Such order shall be communicated to the Collector of the district, who shall cause the same to be published by notification.

(*b*) the manner in which a record-of-rights shall be published under section 46, sub-section (*3*).

STATEMENT OF OBJECTS AND REASONS.

THE primary and chief object of this Bill is to simplify, cheapen and shorten the procedure for effecting partitions of estates in Bengal. The present law for the partition of estates, which is contained in the Partition Act, VIII (B.C.) of 1876, has been found by experience to be defective, in that it allows excessive and unnecessary opportunities for making objections and delays at almost every stage of the proceedings. Parties who wish to obstruct the partition take advantage of these opportunities to such an extent, that partition proceedings are protracted to an intolerable length, and are excessively expensive and harassing to the proprietor applicants, who, when entitled to partitions, should have the means of getting them effected within a reasonable limit of time and at a moderate expenditure. The protraction of partition proceedings is also a source of irritation, harassment, and injury to the tenants of estates under partition; for, though under the present law the tenants are not bound by anything entered in the partition papers, it has been found, as a fact, that partition proceedings have been abused for the purpose of effecting illegal and inequitable enhancements of rent. The Bill aims at applying a remedy to these evils—(1) by defining and limiting the stages of the proceedings at which objections and appeals may be made, without, at the same time, taking away or curtailing the right itself to make objections or urge appeals at the proper time; (2) by providing for the making of a survey and the preparation of a record of rights and existing rents unless a previous measurement has been made, or the proprietors themselves file measurement papers which are admitted to be correct, so that there may be an authoritative finding on the assets on which the partition is to be based, and that all parties concerned, including the tenants, may have an opportunity of knowing what is being recorded relating to them and of urging objections, if they have any.

The delay, expense, and harassment caused by partition proceedings under the present law, and consequent necessity for amending the law, are illustrated by the following facts:—The average duration of these proceedings at present is not less than 3½ years, and there are some cases which were instituted more than 20 years ago (*i.e.*, before the present Act was passed), but up to date are not completed. The average cost of partition proceedings under the present law is about 8 annas an acre, and in some districts the expenditure has amounted to from Re. 1 to Re. 1-7 per acre.

The injury that is done to tenants under the present law is illustrated by the facts that some estates in Bihar in which a survey was made, a record of rights prepared, and authoritative rentals recorded under Chapter X of the Tenancy Act in 1886 came under partition a few years later; that rents were recorded by the Partition Deputy Collector in the partition proceedings according to the statements of the proprietors, behind the backs of the tenants, and that the rents so recorded were two to three times the true rents entered in the settlement record of 1886. What occurred in the estates referred to, where the facts were susceptible of ascertainment, is what is believed to occur also in other estates in Bihar, where there are no means of knowing what the real rental is. It is true that the rents recorded in the batwara proceedings did not in law bind the tenants, but it is known as a fact that the entry of exaggerated and fictitious rentals, in this way, in partition proceedings, behind the tenants, has in some cases been accepted by the tenants themselves out of court, as imposing on them liability to pay such fictitious rents, and in others, that the separate proprietors immediately after partition proceeded to enhance rents illegally. The result is that there is no more fertile source of arbitrary and illegal enhancements of rent in Bihar than petty partitions as now conducted. The Bill seeks to remedy this evil by providing for an authoritative record of existing rents and rights, save when the landlords file measurement papers admitted to be correct, and also by providing that the rents as stated by them, in such measurement papers, shall be explained to, and their correctness attested in presence of, the tenants.

A secondary, but still very important, object of this Bill is to impose some limit on the endless divisibility of responsibility for land revenue to the State allowed under the present law.

Under the law as it stands, the only restriction on the creation of petty estates is that contained in section 11 of Act VIII (B.C.) of 1876, which directs that no partition shall be carried out if the separate estate of any of the proprietors would be liable for an annual revenue of not more than one rupee, until the proprietor of that separate estate agrees to

redeem the revenue assessed upon it. The result is that the multiplication of petty estates entered in the Collector's registers has in some districts gone on to such an extent that it is believed to be likely to become dangerous to the security of public revenue. In the Muzaffarpur and Darbhanga districts the number of separate estates borne on the Collector's revenue roll increased from 5,186 in 1850-51 to 13,432 in 1871-72, and in 1892-93 was no less than 30,477, the increase thus being six-fold in 40 years; and this though these districts contain large zamindaries of great proprietors which are not subjected to partition. In these districts, too, arbritrary and illegal enhancements of rents have, by means of partitions, been effected to an excessive degree.

This divisibility and great multiplication of estates is believed to be bad for the proprietors and bad for their tenants, besides being dangerous to the public revenue, and imposing an unnecessary amount of labour and expense on the administration, without any proportionate benefit to anybody.

It is bad for the proprietors, because it tends to foster the creation and growth of an infinite number of petty pauper landlords, who, not being, themselves, able to cultivate the lands of their microscopically small estates (since there are tenants already on the lands whom they cannot legally eject) are driven to screw up rents, and quarrel with their tenants and landlord neighbours, and thus bring discredit on their class. It, moreover, involves waste of time and labour from the proprietor's point of view, as the separate management of several petty estates must necessarily cause more trouble and expense than the joint management of the parent estate.

The unrestricted multiplication of petty estates is obviously bad for the tenants; for, apart from the inevitable tendency of a peasant landlord to be a bad landlord, who from necessity must endeavour to rack-rent or eject the tenants in occupation, it is also to be remembered that a tenant who, according to the terms of his original tenancy, had only to deal with one landlord or one representative of all the co-sharers, and to pay his rent at one place, keeping one set of accounts, may and does become, without his consent, bound, after a partition is made, to pay rent in several different places, to keep several different sets of accounts and to deal with several different landlords, each and every one of whom may sue him separately for rent, or distrain his crops or sue him for ejectment, or do separately any act adverse to the tenant's interests authorised by law, which before partition the proprietors must have all agreed upon (under section 188 of the Tenancy Act) before any action could be taken.

It is clear for these reasons that the infinite partibility and multiplication of estates is injurious to the interests of the tenants.

Lastly, these petty partitions impose on the administration an amount of labour in effecting them and subsequent expense altogether incommensurate with any advantage accruing from them. Multiplication of estates means multiplication of boundary disputes, of disputes between landlord and tenant, more riots, more criminal cases, more civil suits, great multiplication of accounts and processes for collection of the land revenue, and greater multiplication of accounts and processes for collection of road cess and other public demands, and consequently multiplication of establishments which will for all time have to be paid by the general tax-payer, and not alone by applicant proprietors.

For these reasons it is thought desirable in the interests of the proprietors, their tenants and the general public, that some restriction should be put on the partibility of estates to be borne as separate units in the Collector's revenue rolls. The restriction proposed in section 10 of the Bill is, that partition shall be refused if the separate estate of any of the proprietors would be liable for an annual amount of land revenue not exceeding Rs. 100. The particular limit of Rs. 100 is put forward tentatively, and may be too high. Some of the facts above stated suggest the desirability of imposing an absolute prohibition on the subdivision of estates, below a certain limit. But it is not thought necessary to go so far. The limit proposed only affects the separation of responsibility for payment of Government revenue, and does not affect the right of proprietors to dispose of the whole or any portion of their estates as they think fit, or their right to obtain separate possession of any portion thereof. It is expressly provided that any Civil Court which has made a decree for partition or for the separate possession of a share of an undivided estate paying revenue to Government, may execute such decree, in the same manner and subject to the same conditions as in the case of a revenue-free estate, but the joint and several liability of the entire estate is not thereby to be affected, unless such partition is made or separate possession given by the Collector under this Bill

On a former occasion it was proposed to impose a limit of ten rupees. It was then asserted that the imposition of any limit was inconsistent with the conditions of the Permanent Settlement, and it has been stated that any such restriction is economically wrong as tending to discourage the creation of peasant proprietors. It is true that the Permanent Settlement Regulation I of 1793, which declared the right of property in the soil to be vested in the zamindars, and fixed their revenue in perpetuity, also declared that they were to have the right to dispose of the whole or any portion of their estates in any way they pleased; but as every bigha of the land was hypothecated for the revenue, it is manifest that the right of transfer and partition was not absolute and unconditional, and that it was meant to be exercised in such a manner as not to endanger the security of the revenue. In point of fact, conditions were imposed, at the time of the Permanent Settlement, with a view to the securing the revenue,

and restrictions were prescribed on partitions ten years after the Permanent Settlement Regulation was made, by Regulation VI of 1807, which enacted that no estate was to be partitioned the revenue of which was less than Rs. 1,000, or the division of which would involve the formation of an estate with a sadar jama of less than Rs. 500. The economic argument referred to ignores the fact that a peasant proprietor is not the same thing as a peasant and pauper landlord. The former cultivates the lands he owns, and may be a blessing; the latter merely receives rents, and is an economic evil.

This Regulation of 1807 was repealed by Regulation V of 1810, not because it was supposed to be inconsistent with the pledges of the Permanent Settlement, but because it was thought, in the words of the preamble to it, to be "a cause of considerable injury to numbers of individual sharers in such estates, thereby inducing a sacrifice of private rights, which the degree of public inconvenience arising from subdivision of landed property does not appear to be of sufficient magnitude to justify or require."

Estates were at the time of the Permanent Settlement deemed to be too large, and it was thought desirable not to discourage subdivisions of them. The right to impose such restrictions remains now as it was in 1807, but the conditions as to the expediency of, and necessity for, some restriction have changed since 1810.

Apart from the indefeasible right of Government to make laws for the welfare and protection of all its subjects, this Bill is believed to be justified on the ground that it is necessary for the welfare and protection of the raiyats as well as of the proprietors themselves. The latter deny the right of their tenants to subdivide their holdings at their pleasure, and the law supports them in this. The proprietors cannot reasonably claim higher rights against the State than their own tenants are allowed as against them. Government claims only the right to control the unit of area to be held responsible for revenue to Government in the same way that zamindars claim the right of checking subdivisions of their tenants' holdings, or, in other words, the right of determination of the unit of area to be held responsible to them for payment of rent.

An objection that may, with some apparent show of reason, be urged against the proposal of section 10 is that, if the power of partition is withdrawn from petty proprietors, they will be placed at the mercy of their more wealthy co-sharers and neighbours, but the force of it is nullified by the facts that small co-sharers are protected by the proviso to the same section, and that they can protect themselves otherwise by opening separate accounts, or by applying for the appointment of a common manager under section 93 of the Tenancy Act. Whatever risk of hardship to petty co-sharers there may be under the Bill, if there be any, it is as nothing compared to the injury to proprietors and raiyats and to the general tax-payer that is being now, and in a greater degree in the future is likely to be, caused by the microscopic subdivision of estates.

The Bill does not affect the right of proprietors to dispose of the whole or part of their estates as they think fit, but it does affect divisibility of responsibility to the State for the revenue due to it, the right to control which was never questioned down to 1884 and has never been relinquished.

ESTIMATES OF THE OUTTURN OF RABI FOOD-CROPS AND OF CERTAIN IMPORTANT SPECIAL CROPS IN BENGAL FOR 1895-96.

THE following is published for general information.

C. W. BOLTON,

The 14th April 1896. *Secy. to the Govt. of Bengal.*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Note on the Outturn of the Rabi Crops in Bengal for 1895-96.

N.B.—Returns have been received from all districts except Chittagong.

Explanatory.—The returns published in previous years comprised two separate statements, viz., (1) an estimate of outturn of *rabi* food-grains, and (2) an estimate of outturn of important special crops, such as tobacco, sugarcane, opium, mulberry and *ganja*. In order to show all *rabi* crops in a complete form, the two returns have been amalgamated The present report embraces all the crops shown in the return published last year, and also other *rabi* food and other *rabi* non-food crops.

Character of the season.—The latter part of the monsoon season of 1895 was characterized by an early cessation of the rains. In September the rainfall was below the normal in all districts of these Provinces except Rangpur, Bogra, Saran, Champaran and Puri. In October it was also deficient throughout Bengal, excepting Burdwan, Jessore, Khulna, Faridpur, Backergunge, Tippera, Chittagong, Cuttack, Manbhum and Singbhum. In November, Orissa received only about half the normal fall; in the

other divisions of the Provinces the falls were quite unimportant. In December an average fall of 1½ inches was received in East Bengal; Bihar received the next largest fall, viz., 0·10 inch which was but little more than half the normal fall; South-West Bengal, North Bengal, Chota Nagpur and Orissa received a few light and unimportant showers. The amount of rainfall in January was below the normal mean of the month in all divisions of these Provinces. Orissa, Chota Nagpur and Bihar received practically no rain. The rainfall for the month of February was in defect throughout these Provinces, except East Bengal, where the fall was slightly in excess of the normal for the month. Little or no rain was received in Orissa, Bihar, Chota Nagpur, and North Bengal. During March, South-West Bengal, North Bengal, East Bengal and Orissa received light showers, while Bihar and Chota Nagpur were rainless.

Area cultivated.—The total area sown with *rabi* food and *rabi* non-food crops during the year 1895-96 in these Provinces (except Chittagong, for which no returns have been received), is estimated at 11,008,100 acres, against 11,171,500 acres estimated to have been cropped in 1894-95. The decrease in area of 163,400 acres (or 1·46 per cent.) is due to the early cessation of the last monsoon rains, and consequent lack of moisture in the soil.

Character of the crop.—The outturn of *rabi* food crops in 1895-96 is estimated at 11⅓ annas, as compared with an outturn of 13¼ annas in 1894-95, and the outturn of non-food crops is estimated at 12¾ annas, as against 15 annas in 1894-95. The estimate of the outturn of all *rabi* crops for these Provinces, taken together, is 11¾ annas, against 13½ annas in 1894-95. The decrease is due to the early cessation of the monsoon rains of 1895, and also to want of rain later on to bring the crops on. Out of the 44 districts, from which returns have been received, only one district, viz., Rangpur, estimates the outturn of the *rabi* crops at 16 annas. Eighteen* districts report crops varying from 12 to 15 annas, and 25 districts report crops of less than 12 annas.

* Hooghly, Rajshahi, Dinajpur, Darjeeling, Bogra, Dacca, Mymensingh, Faridpur, Tippera, Patna, Purnea, Malda, Cuttack, Balasore, Angul and Khondmals, Hazaribagh, Manbhum and Singhbhum.

Wheat.—In the preliminary report on the wheat crop of this year, published on the 5th February 1896, the crop was esimated at about 11½ annas. The present estimate shows a reduction to 11 annas crop.

Opium.—For want of rain during the sowing season, the area cultivated in poppy this year has been less than in the previous year, and the outturn will suffer from the same cause. It appears from the Opium Administration Report of 1894-95 that the crop of that year was one of 13¼ annas only. The poor produce was chiefly due to the late rains which were very heavy, and which delayed tillage and sowings, and strong west winds in the middle of March 1895 dried up the plant, and stopped the flow of sap.

N. N. BANERJEI,
Assistant Director of the Department of Land Records and Agriculture, Bengal.

Countersigned.

P. C. LYON,
Offg. Director of the Department of Land Records and Agriculture, Bengal.

Birbhum ...	1,121,920	865,000	Wheat	7,000	5,500	5,300	12	5	Want of rain at the commencement of the season prevented *rabi* crops being sown, and continued want of rain has destroyed the crops.	The normal and this year's areas under wheat have been shown as 5,500 and 3,500 acres in the first forecast of the wheat crop of 1895-96. The revised figures furnished for this forecast require to be explained.
			Gram	7,000	7,000	4,000	13	8

Bankura ...	1,677,440	648,960	Wheat	6,500	4,900	7,400	12	10	Owing to the failure of winter rice-crops in several parts of the district on account of unequal distribution of rainfall of the year, the people took great care in cultivating more lands with *rabi* crops this year than in the previous year. The outturn, however, is in general, about two-thirds of an average crop, except sugarcane, which is estimated to yield an outturn of 14 annas.	In the first forecast of the wheat crop of 1895-96 last and this years' area under wheat were returned as 8,900 and 6,000 acres respectively. The change in figures as shown in the present forecast requires explanation.

Midnapore ...	3,222,800	2,111,500	Wheat	4,300	4,300	1,000	11	7	The decrease in the area brought under cultivation and in the outturn is due to total absence of rain from October last, the largest decrease being in the Ghatal subdivision under all heads. The figures in columns 5, 6 and 8 have been altered in certain cases owing to more accurate information having now been received as to the normal area, &c.

Hooghly ...	1,756,080	702,300	Wheat	100	100	100	16	13	The decrease in area under cultivation this year is due to the scarcity and unseasonable fall of rain throughout the year. The decrease in outturn is due to want of sufficient rainfall.	In the Census Report of 1891, the area of the district is given as 1,699 square miles = 1,087,360 acres.

24-Parganas ...	1,344,640	1,068,900	Wheat	340	320	300	16	10	The crops have been much affected by the deficiency of rainfall at the sowing and harvesting time. This also accounts for the decrease in the area sown this year.

A large area has been transplanted under *boro* rice owing to the season being favourable for transplantation. The decrease in the area under sugarcane is attributable to the fact that the cultivators in the Netrokona subdivision are giving up the cultivation of this crop, as it is not found paying. The areas under wheat as shown in columns 5, 6 and 7 do not agree with the corresponding figures in the first forecast of the wheat crop of 1895-96. In that report they are shown as 122,500, 100,100 and 102,300 acres respectively.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least ·10 inch of rain has fallen

CALCUTTA, *the 14th April 1896.*

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 11TH OF APRIL 1896.

At the close of the previous week a feeble barometric depression existed over Bengal which was accompanied by a slight cyclonic circulation of winds; weather, however, had continued fine, but abnormal conditions of temperature existed, and excess amounts of 6° to 8° in the mean temperature were registered at many stations. On the 5th pressure again fell over Bengal, and a defect of about a fifth of an inch was registered at some stations. The slight cyclonic circulation of winds, however, to a great extent disappeared, and westerly and southerly winds were reported, and weather continued fine except in Assam and at some of the stations in the hills of North Bengal, where moderate to heavy rain was reported. On the 6th the fall of pressure had ceased, and a rapid increase, in some cases exceeding a tenth of an inch, occurred, and conditions were rather more settled, except in Assam and the hill stations of North Bengal, where again rain was reported. The rise of pressure continued slowly on the 7th and again on the 9th, but was succeeded by slight falls on the 8th and 10th, while on the 11th a rapid fall set in, ranging up to an eighth of an inch at the northern stations. Hence again on the 11th a very decided barometric depression existed over Bengal, the defect ranging up to about 0·14″ and 0·15″ at a good many stations in the north and centre of the province. These changes, however, appeared to have very little influence on the weather, which remained fine except at a few of the eastern and northern stations and at a few stations in Orissa, where local storms with rain continued to occur. The abnormally high temperature which has lately been so prominent a feature in the weather has continued to exist practically throughout the week, and the mean temperature recorded at 8 A.M. on the 11th, or the last day of the week under review, was still usually from 5° to 6° in excess of the normal.

Pressure.—The mean pressure for the week for the province has again been largely below the normal, and the average defect has equalled from about 0·06″ to 0·08″.

Temperature.—The average mean temperature for the week for the whole province has again been almost 5° in excess of the normal.

The actual temperatures registered in the province during the week, and the variations from their normal values, are, however, best seen in the table below, where the average temperature data for nine selected stations in different districts of the province are given. Temperatures, it will be seen, have been unusually high both in the case of the days and the nights :—

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of ⊖ temperature is also greater at Alipore, and the mean temperature apparently about 1·0 lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

1. The examination is held annually at the Civil Engineering College, Sibpur, on the first Monday in June. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam, and

Burma only. The examination will be *ipso facto* vitiated if it be not held (begun and completed) on the dates fixed, but the officer who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies if such is pensionable by the British Government.

2. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned:—

(1) Certificate of good character signed by applicant's immediate official superior or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or of birth not required if the candidate is already in permanent Government employ).

(3) Certificate that the application is in the candidate's handwriting.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, on a consideration of these certificates, to decide whether the candidate should be registered for the examination or whether his application should be rejected. He will only forward the names of accepted candidates to the Principal, together with their applications in their own handwriting, statement of their ages, and fees. These should be transmitted altogether under one covering letter on the last day allowed by the rule.

3. Examination-papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination and presents himself for examination on a subsequent occasion must undergo the full examination and furnish fresh fee and certificates.

5. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

7. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

SIBPUR, *The 1st April 1896.*

J. S. SLATER, *Principal, Civil Engineering College.*

N. B.—The attention of candidates is drawn to the alteration in rule 2 (3). The Principal will attend to no application received direct.

(or 1st M.B.) Examination.

10. Those students who fail at the College Test Examination of the second year will not be debarred from going up for the Preliminary Scientific Examination, but will be encouraged to do so in order to get that stage over ; but whether they pass or fail at the University Examination, they will be relegated for a further year to the second-year class, provided that those who pass the University Examination will not be required to attend the courses in those subjects in which they have passed.

Those who fail will be relegated to the fourth-year class for a further year. 15. The Principal will determine the maximum number that may be admitted to the first-year class. Students who have failed at the test examination of the first year will have a prior claim to readmission over new students.

16. Students readmitted to a class after failure at the test examination will be required to pay the full fees for the session. Those, however, who, after failing either at the Preliminary Scientific Examination or at the final examination, have to attend a further course of

lectures in the subject or subjects in which they failed, shall be required to pay for such lectures a fee of Rs. 40 for one subject, Rs. 60 for two, and Rs. 70 for three. QUESTIONS ON THE BUDGET STATEMENT.

The Hon'ble THE PRESIDENT said:—"Hon'ble Members have had placed in their hands a long list of questions relating to the budget statement, and I find that it has been the practice in this Council to allow questions of that kind to be put before the discussion on the budget takes place But it appears to me that this practice is altogether irregular, beyond the intention of the rules, and calculated only to waste the time of the Council. In the Supreme Legislative Council any Member can draw attention to any point in the budget and can ask any question regarding it; he receives an answer from the Finance Member, to whom notice is generally previously given of the points on which information is wanted. I think the practice of this Council ought to conform to that of the Supreme Council. We shall always be ready to give full information beforehand regarding any point, if applied to, and Members can then deal with them in their speeches, and we shall try to answer all questions put in the speeches. I shall not interfere on this occasion, but I wish it to be distinctly understood that I consider the practice of putting questions like this to be irregular, and I do not pledge myself to adhere to it in future years. The rules relating to the discussion of the financial statement have a separate heading. Rule 3 says:—'After the explanation of the financial statement has been given, each Member shall be at liberty to offer any observations he may wish to make on the statement.' It makes no provision for interpellations prior to the debate.

"The rules relating to asking questions refer to other matters altogether, and are under a distinct and separate heading. It appears to me that to ask a string of formal questions, and then to discuss the whole thing over again, is a waste of time. As I have said, I will not pledge myself to continue the present practice in future years."

SCARCITY OF WATER.

The Hon'ble BABU SURENDRANATH BANERJEE asked—

(*a*) Whether the attention of the Government has been called to the reports which have appeared in the newspapers (*vide* the *Hindu Patriot* of the 24th March, the *Indian Mirror* of the 24th March, the *Statesman* of the 28th March, and the *Amrita Bazar Patrika* of the 28th March) regarding the prevalence of scarcity of water in the 24-Parganas, Howrah, Hooghly and Burdwan districts, and in other parts of the country? Will the Government be pleased to enquire into the matter and to instruct the District Boards to make provision for an adequate supply of water in the affected tracts, and take such other steps as to the Government may seem fit?

(*b*) Will the Government consider the expediency of instructing the District Boards to set apart an adequate percentage of their income, having regard to all circumstances, to meet the growing scarcity of water which is being more and more keenly felt every year?

The Hon'ble MR. A. M. BOSE asked—

Is the Government aware of the great amount of suffering and distress caused by scarcity of water in many parts of the Province, and of the likelihood of this increasing with the advance of the year, and the further drying up of the sources for the supply of water?

Has its attention been drawn to the following statement appearing in the correspondence column of the *Englishman* of the 27th March, under the heading "A grave complaint," the writer referring to tracts on the borders of the Jessore and Nadia districts:—

In many villages not a drop of water is available within a mile or two. The poor wretched people have to fetch it from great distances, and even then, such as it is, a thick solution of mud and water. Rivers are almost dry, and tanks and wells have long since dried. It is only in a few low-lying hollows that water of any sort can be had; and is this to prove the sustenance of thousands of human beings, or of greater numbers of cattle?

And also to paragraphs and letters on the same subject appearing in a great many other papers (*e.g.*, the *Indian Mirror* of the 25th and the 18th March, the *Amrita Bazar Patrika* of the 26th and 24th March, &c.)?

Is the Government aware that a much larger expenditure for the supply of drinking-water in rural areas would be hailed as a blessing and a mercy by the people, even if this should involve a curtailment of the expenditure now incurred under the head "Communications—Original Works"? Will the Government state how much was spent by the District Boards in the year 1894-95 for this latter purpose, with the cost of necessary establishment, and how much for water-supply?

Will the Government be graciously pleased to draw the special attention of the District Boards, if it has not already done so, to the suggestion contained in paragraph 48 of the Government Resolution on the working of District Boards, published in the *Calcutta Gazette* of the 4th December last, viz., that each District Board should spend *at least* Rs. 5,000 annually for the improvement of water-supply, and also to the necessity of largely exceeding this minimum whenever the state of the water-supply in any district should call for it, and that speedily?

And will the Government be pleased to take such other steps as to it may appear desirable in the circumstances of the case, in order to mitigate the sufferings of a very large number of poor people throughout the Province?

The Hon'ble MR. RISLEY replied:—

"The Government is aware that owing to the unusual dryness of the season water is very scarce in some districts. As was stated by me in replying to the Hon'ble Babu Guru Proshad Sen at the last meeting of Council, the special attention of District Boards has been called to the subject, and certain suggestions have been made to them. District Officers have also been instructed to make known, as widely as possible, that loans will be granted under the Land Improvement Loans Act, 1883, for the construction of wells and tanks for the use of men and cattle employed in agriculture.

"Rupees 10,08,267 was spent by the District Boards in Original Works—Communications—in 1894-95 and Rs. 63,768 on Water-supply. The cost of the establishment employed on Original Works—Communications—cannot be separately stated.

"The Government fully recognizes the importance of improving the water-supply of rural villages, and will continue to press the subject on the attention of the Boards; but there are difficulties in fixing a definite percentage of income to be devoted to this propose. Each District Board must take into consideration the circumstances of the district."

THE HON'BLE THE PRESIDENT said:—"I should like to say, with reference to this important matter, that even if we recognise fully the duty of District Boards to do all that lies within their power, it will after all be a mere flea bite in comparison with the wants of the country. I have been in communication with some Commissioners in regard to this matter, and I find that obstructions are often thrown in the way of District Boards by the fact that most of the best drinking-water tanks are private property. I do hope that at a time like this zamindars and others who own tanks will do what they can to aid District Boards by cleaning and improving their tanks, and that those who have the means will devote a part of their means, as a religious duty, to the supply of tanks and wells for the people who are crying out for water. At the same time we must recognise the fact that the people must and can do a great deal to help themselves. In a great part of Bihar water is nearly always found at a depth of about 15 feet below the ground, and the cost of sinking *kutcha* wells is only Rs. 6 or Rs. 8. It is scarcely possible that either the Government or the District Boards, if there is a general failure of rain, can supply the wants of 70 millions of people, and I hope that a good deal will be done by the people themselves, and that difficulties will not be thrown in their way by land-owners and others. In Central Bengal I am afraid that things are

worse than in Bihar, because there the tanks must, for the most part, be filled by rainfall. But I can assure Hon'ble Members that the attention of all District Officers has been called to this matter, and that the Government will lose no opportunity of doing what they may be advised is feasible. But what we must all do under the circumstances is to pray for rain."

APPOINTMENT OF SUBORDINATE JUDGES AS ASSISTANT SESSIONS JUDGES.

The Hon'ble BABU SURENDRANATH BANERJEE asked—

I have to call attention to the following Notification of the Government which appeared in the *Calcutta Gazette* of the 13th November, 1895:—

"Calcutta, the 8th November, 1895.

"*No. 1859.*—In exercise of the power conferred by the Statute 33 Vict., Cap. 3, section 6, and in continuation of the rules published in Notifications No. 2159, dated the 2nd November, 1892, and No. 67, dated the 24th January, 1895, the Governor-General in Council has been pleased to make the following rule, which has been sanctioned by the Secretary of State in Council, with the concurrence of a majority of the members present:—

The Government of Bengal may appoint any Subordinate Judge, being a member of the Provincial Civil Service and a native of India of proved merit and ability, to be also an Assistant Sessions Judge.

and I have to ask what steps have been taken to give effect to the above Notification, and when the appointment of Subordinate Judges as Assistant Sessions Judges is likely to be made?

The Hon'ble MR. COTTON replied:—

"The subject of the Hon'ble Member's question is still under discussion between the High Court, the Bengal Government, and the Government of India."

TRANSFER OF SALT DEPARTMENT OF ORISSA FROM MADRAS TO BENGAL GOVERNMENT.

The Hon'ble MR. M. S. DAS asked—

(*a*) Will the Government be pleased to state whether any step has been taken to retransfer the Salt Department of Orissa from the Madras to the Bengal Government?

(*b*) Has the attention of Government been drawn to the fact that the practical result of placing the Salt Department of Orissa under the Madras Government has been the closing of a local manufacturing industry and consequent loss of means of livelihood to several thousands of men?

(*c*) Has the attention of Government been drawn to the judgment of the Sessions Judge in Criminal Appeal (No. 29 B., 1st quarter of 1893), which was published in the *Utkul Dipica* of the 20th May, 1893, which shows how harassing and illegal the proceedings of the salt officers engaged to prevent illicit manufacture in Orissa have been?
